## I ABOUT PROGRAMS

Many people use treadmills in different ways. Treadmills can be used as the main foundation for a workout or can be used to warm up, cool down, rehabilitate and much more. Treadmill programs are a great way to keep track of your fitness and give you goals to aim for as you improve or maintain your fitness. Choosing the right program is important depending on what you want to achieve with your treadmill.

Each program is split into 10 sections of 200 metres in which a variety of speed and inclines change which improves burning calories, building strength and improving stamina and endurance. The program will loop when it finishes its 2000 metre duration.

## PROGRAM TYPES

## CHARTS LEGEND

## CUSTOM PROGRAMS

The first 3 programs on the treadmill are customisable which gives you complete control over your workout. If you feel that the programs need changing or that you want to tailor them to specifically suit your needs, then the customisable programs are for you. Each program has 10 sections that change every 200 metres.

## HOW TO CUSTOMISE PROGRAMS

Press $\bumpeq$ to select the program to customise

Press UP/DOWN button to set up the incline

Press (six and hold for 5 seconds

Press SET button to save the first section

Press +/- button to set up the speed

Repeat this process until you reach section 10

## HEART-RATE CONTROL PROGRAM

Press SET button 5 times

Press +/- button to amend the desired heart-rate

Press START button to start or STOP to cancel

Put your hands on the pulse sensor and hold while exercising

## PRESET PROGRAMS

At JLL we have designed and created specific programs to help you achieve your fitness goals. Our programs have been extensively tested by our team to provide you with the best treadmill programs for your fitness level. We took a lot of feedback on board to shape, change and create these treadmill programs that suit the needs of any user.

## al PROGRESS PLAN

Our progress plan is divided into 3 categories: Beginner, Intermediate and Advanced. So no matter what your fitness level is, there is a program for you. We've designed our programs so you can see physical progress as you work your way through each program level. Each difficulty level is made up of 1 speed program, 1 incline program and 2 speed \& incline combination programs.

## 4. SPEED INTRODUCTION

CATEGORY: Beginner TYPE: Speed Only

## WORKOUT DESCRIPTION

Introduce yourself to speed training with this program. The gradual increase in speed is great for getting you used to running at a quick pace on a treadmill. Because of the intervals of increased speed, this program is great for fat burning.

## 10. MOUNTAIN RUNNER

## PROGRESS PLAN

CATEGORY: Intermediate TYPE: Speed \& Incline

## WORKOUT DESCRIPTION

Start quickly at low levels of incline and slow down as the incline increases. Use this program for toning legs, burning fat and building lean muscle in the calves, thighs and glutes. The high levels of incline are ideal for accelerating your heart-rate.

## $\triangle$ WARNING

Programs in the Advanced category may go up to speeds of 15 \& $16 \mathrm{~km} / \mathrm{h}$. Users are urged to take caution when running at this speed. Ensure that the safety clip is always attached.

HIIT stands for High Intensity Interval Training. These programs are made up of short periods of hard work followed by a period of rest to allow yourself to recover. HIIT programs are popular because they are great for fat burning, building lean muscle and what's more, most of them take less than 20 minutes to complete. Once again, to consider every fitness level here we've provided HIIT programs at beginner, intermediate and advanced difficulties.

Ready for some science? HIIT training works by increasing your heart-rate which increases the body's need for oxygen during the workout. This in turn creates an oxygen shortage which means your body asks for more oxygen during the recovery period. All this results in your body burning more fat in a short amount of time, including burning calories hours after you've finished the workout.

## 16. BEGINNER HIIT

CATEGORY: Beginner
TYPE: Speed Only

## WORKOUT DESCRIPTION

If you're new to HIIT training, then this is where to begin. We've designed this program to gently ease you into HIIT sessions without compromising on a good workout at the same time.
