Rounded Corners Finish
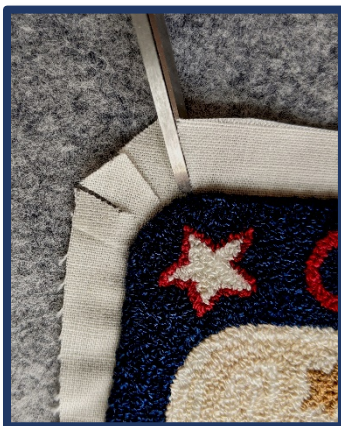

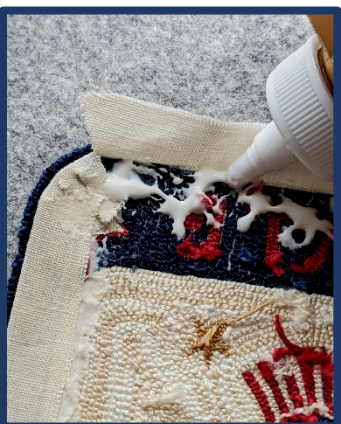

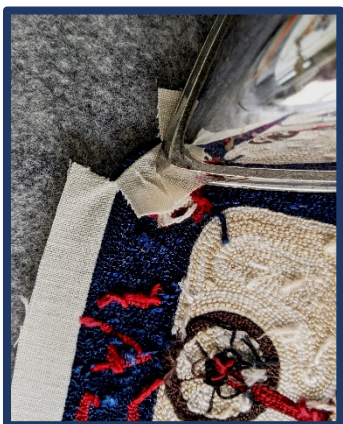

1. Cut away weavers cloth, leaving ½" border along the edge. If edges curl, steam-iron flat. From outer edge of each corner almost to base of loops, make five snips to cloth at ¼" intervals. Do not cut the punched threads.

2. Iron overlapping pieces flat, towards design back. Iron long edges. Adhere snipped corners to back of design with thinly spread layer of fabric glue, then glue down each long side.

3. Cover design back with glue, flip, press into place on display board. Glue flat edge of pom-pom trim just under edge of the design so trim shows around edge. Adorn with ribbon and buttons. Display with pride!
