Prima Donna

The Prima Donna collection draws inspiration from the eminent prima donna of the island – Montagna Etna. Her breathtaking beauty and formidable power are impossible to overlook, as her majestic influence extends across the Mediterranean landscape.

The layers of ancient magma and ash that sculpt the shape of the volcano drape the terrain like the folds of an exquisite garment, enveloping the space with their grandeur. Just as the rich volcanic soils, colored in deep graphite black, the predominant hue of this collection is a spectrum of black. From the comfortable premium cotton one-shoulder shirt with a puff sleeve, like the Amuri blouse, to the flowing sophistication of wide-leg pants found in the LavaNera ensemble, the Prima Donna collection is created for you to enjoy yourself and your style to the fullest.

Beneath the serene exterior lies an innate potency, akin to a woman whose potential and strength consistently fuel the flames of creative ingenuity. Etna encourages us to embrace uninhibited expression of our dreams and aspirations, urging us to be unapologetically true to ourselves. The collection's vivid original designs pay tribute to the freedom of expression and a bold and opulent style that finds its essence in minimalism. Embrace the power of Etna with our Prima Donna collection.
