

F 300

“Sonically, it is above any doubt”

- We can state: The Rekkord F300 **does its job really well**. Its **sound is rich in detail** and **powerfully accentuated** at the same time.
- The recurring **sub-kicks** over the album are also **sharply delineated and very powerful**.
- Overall, the Rekkord F300 draws a **very differentiated and lively sound image**.
- The turntable also succeeds in this due to its **excellent spatial imaging**. The stereo sound is always **airy and wide**.
- We are looking at a **very musical and enjoyable turntable** that delivers a great performance on the analog parquet.
- Visually alone, the F300 from Rekkord Audio can easily join a **highly esteemed line of ancestors** of fully automatic turntable classics. And **in terms of sound, it is also beyond reproach**.
