### **Step 1. Take some measurements.**

Measure each wall of the room and the height from the floor to the ceiling.

Take note of any obstructions like windows, appliances, doors. Soffits, crown molding, etc

### **Step 2. Sketch you Kitchen/Bathroom**

Draw a simple overhead view of your Kitchen/Bathroom. Make sure to have accurate measurement.

### **Step 3. Get a free 3D Kitchen Design from Cabinetrys.com**
