Shaper's Comments: This is my enlarged version of the 6'9" A fish blank. I designed this one as to be able to easily net a 7'3" by the bottom measurement. Bottom rocker is a longer version of the natural rocker of the 6'9" A I made in 2002. I basically "blew up" the 6'9" A concept for this mold design. This blank can be ordered wider or narrower as to allow for stronger decks/rails near the perimeter of the board outline, and less waste.
