Rockers: Refer to Rocker Catalog

Shaper's Comments: The 7'4 SP and the 7'10 SP were built together on Maui and are similar to the 8'4 SP, offering a more complete size progression for mini longboards. The outlines of both were widened relative to the 8'4 SP to make them usable for a broader range of designs. Natural rocker is fairly neutral in both the nose and tail, with enough thickness to shape them up or down, according to the shaper's preference.
