**SECTION 4: FIRST AID MEASURES**

Eye contact: Flush immediately with large amounts of clean water for at least 15 minutes. Eyelids should be held away from the eyeball to ensure thorough rinsing. If any irritation persists, seek medical attention.

Skin contact: Rinse area with soap and water. Seek medical attention if any redness or irritation persists.

Inhalation: If breathing is difficult or irritating, move to fresh air immediately. If symptoms persist, get medical attention.

Ingestion: Get immediate medical attention. Do not induce vomiting unless directed by medical personnel.

**SECTION 5: FIRE FIGHTING MEASURES**

Suitable extinguishing media: Use dry chemical, foam, or carbon dioxide to extinguish fire. Water may be ineffective but should be used to cool fire-exposed containers, structures and to protect personnel.

Use water to dilute spills and to flush them away from sources of ignition.

Fire fighting procedures: No special protective action for fire fighters are anticipated.

Unusual fire and explosion: N/A

Combustion products: N/A

**SECTION 6: ACCIDENT RELEASE MEASURES**

Contain large spills with dikes to prevent entry to waterways and sanitary sewers and transfer the material to appropriate containers for reclamation or disposal. Absorb/trap remaining material or small spills with inert material (Dirt, Sand, Industrial, Absorbent) and then place in chemical waste containers. Flush residual spill area with large amounts of water. Dispose of all clean up materials in accordance with all applicable Federal, State and Local Health and Environmental Regulations.

**SECTION 7: HANDLING AND STORAGE**

Handling: Do not get in eyes, on skin or on clothing. Do not breathe vapor or mists. Keep container closed. Use only with adequate ventilation. Use good personal hygiene practices. Wash hands before eating, drinking, smoking. Remove contaminated clothing and clean before re-use. Keep away from heat and flame. Keep operating temperatures below ignition temperatures at all times. Use non-sparking tools. Chemical resistant splash goggles and chemical resistant gloves are always recommended when using chemicals.

Storage: Keep container tightly closed in a cool, dry and well-ventilated area away from heat, source of ignition and incompatibles. Do not store below 32 degrees F or above 100 degrees F. Do not store in direct sunlight. Keep away from children.

**SECTION 8: EXPOSURE CONTROL/PERSONAL PROTECTION**

<u>COMPONENT</u>	<u>CAS NUMBER</u>	<u>ACGIH PEL</u>	<u>ACGIH TWA</u>	<u>OSHA Z1 PEL</u>
Isopropyl Alcohol	67-63-0	400ppm	200ppm	400ppm-980mg/m3

<u>OSHA Z1A TWA</u>	<u>OSHA Z1A TWA</u>
400ppm-980mg/m3	500ppm-1,225mg/m3

Engineering Controls: Local exhaust ventilation may be necessary to control air contaminants to their exposure limits. The use of local ventilation is recommended to control emissions near the source. Provide mechanical ventilation for confined spaces. Use explosion-proof ventilation equipment.

Personal Protective Equipment: Eye protection: Wear chemical safety goggles and face shield. Have eye-wash stations available where eye contact can occur.

Skin Protection: Avoid prolonged skin contact. Wear gloves impervious to conditions of use. Additional protection may be necessary to prevent skin contact including use of apron. A safety shower should be located in the work area.

Respiratory Protection: If exposure limits are exceeded, NIOSH approved respiratory protection should be worn. A NIOSH approved respirator for organic vapors is generally acceptable.
