

# KOMBAT KOOL

A SPECIAL FORMULATION  
FOR NON-SWEATERS

## INDIVIDUAL PRICING

1 BAG - \$55

(30 DAY SUPPLY)

EACH BAG CONTAINS  
5.5 LBS. OF **KOMBAT KOOL**

A COMPLETE & ABSORBABLE  
SUPPLEMENT

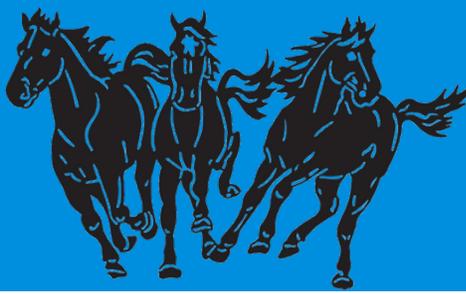

NO FILLERS

ALL INGREDIENTS ARE GMO-FREE

## Guaranteed Analysis

Calcium (Ca)	Max.	17.00%	Zinc (Zn)	Min.	2,100 ppm	Vitamin E	IU/lb	1,000
Calcium (Ca)	Min.	14.00%	Manganese (Mn)	Min.	1,500 ppm	Vitamin K	mg/lb	0.12
Phosphorus (P)	Min.	14.00%	Iron (Fe)	Min.	500 ppm	Vitamin B12	mg/lb	0.04
Salt (NaCl)	Max.	12.00%	Copper (Cu)	Min.	420 ppm	Biotin	mg/lb	20
Salt (NaCl)	Min.	10.00%	Iodine (I)	Min.	30 ppm	d-Pantothenic Acid	mg/lb	102
Magnesium (Mg)	Min.	.50%	Cobalt (Co)	Min.	60 ppm	Folic Acid	mg/lb	9
Potassium (K)	Min.	.30%	Selenium (Se)	Min.	31 ppm	Choline	mg/lb	2,500
Sulfur (S)	Min.	1.80%	Vitamin A	IU/lb	330,000	Niacin	mg/lb	500
			Vitamin D3	IU/lb	32,000			

Scientists still haven't figured out exactly why horses lose the ability to sweat. They do know that no breed, sex or gender of horse is safe, as studies have shown that any adult horse is just as likely as another to develop the inability to sweat. And regardless of claims to the contrary by manufacturers of supplements, patches, oils, salves and dietary fixes, there is no "cure" for non-sweaters yet that works on every horse, every time, just as there are no prescription medications currently available to prevent or treat non-sweating.

However, researchers have found that the sweat glands of horses that have difficulty sweating, secrete chloride ions differently than other horses. And because chloride is a component of normal sweat along with sodium, potassium, calcium, magnesium and other minerals, there is speculation that a mineral or vitamin imbalance in a particular horse plays a vital role in the ability to sweat. The natural corollary of this is the argument that if a horse is able to ingest and use the proper amount and balance of vitamins and minerals, i.e. chloride, sodium, potassium, calcium, magnesium, etc. every day, then the horse should have the compounds available to allow it to sweat properly.

**Kombat Kool** is a product that works on this premise. It is a pure mineral and vitamin supplement that has no fillers to interfere with uptake (unlike other vitamin/mineral supplements). It is specifically formulated for non-sweaters and will supply all of the compounds a horse needs to produce sweat. Kombat Kool has been tested on horses in Florida and has been shown to work on a variety of non-sweating horses over an extended period of time in Florida's very warm and humid climate.
