

## OxyTurf as an Insect Repellent

**OxyTurf, at its core, is 6% stabilized accelerated Hydrogen Peroxide. Peroxide is a common insecticide used in gardens and other agricultural sites.**

Hydrogen peroxide | H<sub>2</sub>O<sub>2</sub>

**Hydrogen peroxide is the ultimate solution to get rid of fleas. This chemical kills fleas by drowning them and destroying the protective skin that prevents them from dehydrating. It is also effective in destoning flea eggs, making it the best remedy for cleaning and washing a pet's house or bedding.**

**Hydrogen Peroxide will also kill mosquito larve and when sprayed on turf or around the perimeter of your yard or patio, it beomes an effective deterrent for mosquitoes as well as common house flies!**
