COMPANY PROFILE

We are a fast growing and one of the most promising office and institutional furniture manufacturing companies in India. In the experienced individuals from the furniture fraternity and just the right infrastructure, that gets renewed from time to time to cope up with ever changing demands of the market, we have just the right ingredients to call ourselves progressive and foresighted.

Our state of art manufacturing facilities at two major cities of India i.e. Bangalore in South and Indore in Central India with modern plant and machinery enable us to cater to the requirements of both panel based furniture and Metal Furniture too. Our USP also lies in the fact that with all the in house facilities, designing or customization is never a limitation for us. Being true to our name Tempus, which in Latin stands for time and Finnish, we are committed to deliver in time with absolutely no compromises on quality and Finnish. Our Self confidence can also be understood from the fact that we are always open for any kind of third party inspection at any of our manufacturing facilities, which is often a pre-requisite of many buyers.

In a very short span of time we have not just successfully completed some renowned projects in India but are already exporting our furniture abroad. From here on we look at making ourselves one of the most reputed Indian office and institutional furniture suppliers in times to come.
