*Smartly Designed, Honestly made*

COMPANY  
**PROFILE**

[www.tempusfurniture.com](http://www.tempusfurniture.com)

# ABOUT TEMPUS

We are a State of the art manufacturing unit for a complete range of modular furniture including - Office furniture, Institutional furniture, Work From home furniture and Home Furniture. Our total factory area is over 1,00,000 sq. ft. including the factories at Indore (Central India) and Bangalore (South India).

We offer Contemporary Plant and Machinery for both Panel based and Metal furniture. Our USP also lies in the fact that with all the in house facilities, designing or customization is never a limitation for us.

Being true to our name Tempus, which in Latin stands for time and Finnish, we are committed to deliver in time with absolutely no compromises on quality and Finnish.

Over 15+ years of experience in designing and manufacturing furniture with latest trends and technologies. We specialize in both Panel processing and Metal Processing with our in house Powder Coating facility being the icing on the cake.

## VISION & MISSION

In a very short span of time we have not just successfully completed some renowned projects in India but are already exporting our furniture abroad. From here on we look at making ourselves one of the most reputed Indian modular furniture suppliers in times to come and we look forward to strengthening our economy by being an active participant of the MAKE IN INDIA concept.

***We are committed to delivering just the right quality at just the right time.***

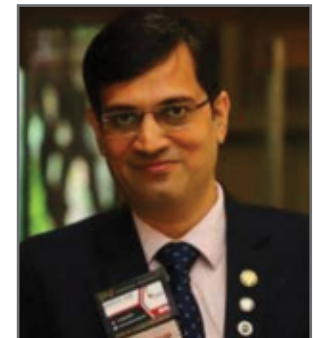

## DIRECTOR'S MESSAGE

**Varadraj KP**

From a humble start in 2006 to the day when I am penning down my opinion on the business, the one thing that I have firmly come to believe in is the fact that there's never a shortcut to success. One's hardwork and sincerity may take time in paying off but it does, eventually. Our perseverance and resilience have been the key to the milestones we have achieved in all these years. The acceptance that we receive from our valued customers keeps us going and we strive to continue walking on the path of **DADS**- Determination, Acceptance, Dedication & Sincerity. We are **"Determined"** to reach our goal of making Tempus a global brand in Modular furniture, for which we work in close association with the new generation to ensure **"Acceptance"** by the volatile needs of the market without ever compromising with our core principle of **"Dedication & Sincerity"**.

The Indian Furniture Industry has come a long way in the last decade. The futuristic designs coupled with technology driven manufacturing were once considered far from possible for Indian manufacturers. Quite astonishingly in the current times our indigenous manufacturing facilities are giving a run for their money to the leading international brands from the furniture industry. Today, our industry is way more organized, focused on research & development, technology driven and working towards delivering absolute value for money. We, as a small member of this huge Indian Furniture Family are determined to do our bit and contribute towards global recognition of our products. I reckon, Indian designs and make will have a huge demand in the overseas market in times to come and the furniture industry shall surely prove to be an absolute revenue generating industry for our nation.
