User Manual

Hola Citizen

By buying this cool product from Nu Republic, you have become a bonafide citizen of Nu Republic. Here is a step by step guide on how to use your Nu Republic Bold 2 Smartwatch.

What's in the Box

Your Nu Republic Bold 2 Smartwatch comes in a premium gift box comprising of the Nu Republic Smartwatch, Charging Cable and User Manual

→ Button

(Long press side button for 3 to 4 seconds till the screen turns on)

How to Wear Your Nu Republic Smartwatch

Take the Nu Republic Smartwatch out of the box, remove the protective casing and wear it around your wrist. Adjust the size of the strap buckle as per your wrist..

Ensure that the sensor should be close to your skin to gather all data.

Charging the Nu Republic Smartwatch

Before wearing the Nu Republic Smartwatch for the first time, ensure that the battery is fully charged. If the watch does not power on, please connect the charger to charge the device. Use the charging cable provided with the watch to charge. On a full charge this Nu Republic Bold 2 Smartwatch can last upto 20 days.

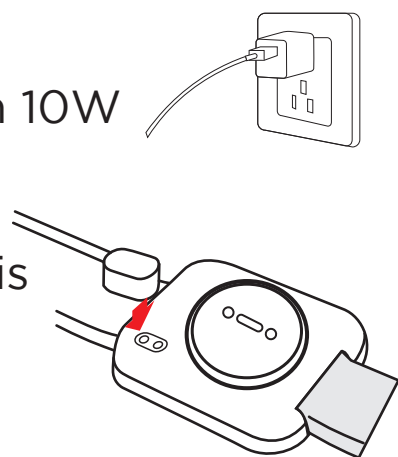

Note:

The battery life and time to fully charge your device may vary as per usage and other factors.

- Plug the USB Cable into an Adaptor. Plug the power adaptor into an electrical socket.
- Place the magnetic charger on the magnetic charging points of the watch.
- While your watch is charging, the screen will show time, day, battery percentage and progress.
- Once the battery is fully charged remove it from the charging dock.

Warning

Do not use a Charger of more than 10W while charging. Please do not use the watch while charging. Do not leave the charger on overnight. This will deteriorate the battery and make this smartwatch unusable.

Power On

Press and hold the side button for a few seconds to power on

Power Off

Press and hold the side button for a few seconds to power off

Waking Up the Watch

To preserve battery, the watch screen turns off when not in use. To turn the screen back on, you can wake up the watch by pressing the side button or select the “Raise to Wake” option in the phone app.

Install the Companion App on your smartphone.

Scan the QR code or go to the App Store, download and install the app.

Android/IOS

System requirements: Android 5.0 and above; iOS9.0 and above; support for Bluetooth 4.0 and Bluetooth 5.0

Android/IOS

Hryfine app is a lightweight app that supports a variety of wearables, fitness trackers to Nu Republic Smartwatches. The Hryfine app provides details on the activity tracking. This includes steps, with target goal, distance and consumption.

It provides health rating, such as body index, as well as body fat rate. For your health, details included are heart rate, blood pressure and blood oxygen monitoring.

Device Connection & Set Up

Download the app from Google Play or the iOS App Store. You can search the keyword “**Hryfine**” or scan the QR code available in the support app or in the wearable itself.

Note: QR code in the wearable is usually available in the settings of the device.

Activate the Bluetooth connection on your smartphone

Open the App - When you open the app, the Hryfine app will ask for several permissions. Below are some of the permissions being asked by the support app. Please take note that you can deny some of the

permissions if you think that you don't need the feature or you are not comfortable.

But of course, some functions may not work, if you disallow the permissions.

Please Note : There are 2 levels of pairing - (i) by downloading and connecting to the App and (ii) by searching for bluetooth and connecting the Smartwatch to bluetooth

Pairing Name : NuR_bold2

1. On the App, tap the “**My**” menu & select “Search device to experience more features”.
2. The Nu Republic Smartwatch will scan for your devices.
3. The support app will try to initiate several permissions, allow access to all the notifications as required.
4. Once it's done, you will successfully connect your wearable to the **Hryfine** app
5. Open the Bluetooth pairing menu of the mobile phone - Look for pairing name “NuR_bold2”, find & connect with the Nu Republic Smartwatch.
6. After the connection is successful, you can dial/ answer the phone and listen to music.
7. **Note:** If the Bluetooth on your mobile can't search the Hryfine device at any time, please enter the **Dual Mode menu on the Nu Republic Smart watch** and set it to **ON**.
8. **Note:** You **can't make a call** without connecting the Nu Republic Smartwatch to your phone, but can use some other features of the watch.
9. The Hryfine app will automatically save the bluetooth address of the Nu Republic Smartwatch, and the app will open and run in the background, and will automatically search and connect the bracelet.

10. To ensure your Nu Republic Smartwatch operates effectively, you will need to **allow all permissions related to the Hryfine app on your smartphone** for notifications, contact information and running the application in the background.

Initial Setup to Receive Smart Notifications

1. In the support app, Go to “Device Settings”.
2. Toggle the switch button for calls and SMS reminders as well as other social apps that you want to receive messages.
3. **Note:** The app again will ask for the following permissions.
 - a. Contacts
 - b. Manage Phone Calls
 - c. Access your phone logs
 - d. Send and view SMS messages
4. There are other features in the Hryfine App, and it’s up to you to activate it based on your preferences.

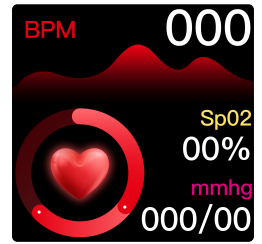

About Your Watch

Standout Functions & Features

Heart Rate

Enter the heart rate measuring interface & Tap on it to start and it will take around 15-30 seconds to complete. If you need heart rate measuring automatically, please set the app. Steps to follow: [Device] - Open [Automatic Heart Rate]. You will have a more detailed view and analysis in the app as well in your watch.

[Note: Auto heart rate will decrease battery life]

IMPORTANT NOTE: This Product is not designed to be a medical device, and it is not intended to diagnose, treat, cure or prevent any disease. All data and measurements are for personal reference only and not for medical use. Product images are for reference only. Accessibility to some product features and specifications may vary across regions. Actual data may vary subject to usage.

Telephone Book

You can add multiple common contacts in your phone. After the successful connection between the bracelet and the app's bluetooth, the contacts can synchronize to the bracelet phone book and displayed. Click the contacts to make a call

Note: the phone also needs to be connected to Hryfine device).

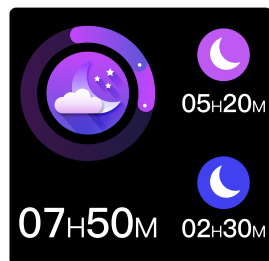

Steps

The watch will record the number of moving steps, distance and burned calories. Other fitness activity data will synchronize to the app. It resets every day after 00:00, and all historical records are available in the app.

Sleep

Your Bold 2 smartwatch will record the sleep time, the duration of deep and light sleep. You can view more data about sleep records by sliding down in the sleep feature, the graph is shown the app. Intelligent AI Sleep Monitoring Algorithm records sleep.

Intelligent AI Sleep Monitoring Algorithm records sleep under the following conditions:

The Watch will measure sleep only between 20:00 - 10:00. The watch sensor data confirms the mode of sleep. The watch must not be placed horizontally or side face vertically on the table.

In this case, the watch will not consider the sleep and will show no data.

Conditions in which sleep data is not shown:

- High frequency movement within 1 minute, Watch will consider this as a waking state.
- In case of movement of more than 3 minutes, Watch will consider it to be the waking state and sleep mode will get turned off.

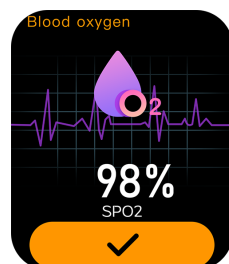

Messages

Whenever there is a new message notification in the smart phone, the watch will vibrate and synchronously show the message content. The watch can save the latest 5 new messages and the latest new message will automatically overwrite the previously saved message, including SMS and other information.

Blood Oxygen

The principle of blood oxygen monitoring is to use the PPG measurement method to measure blood oxygen saturation through a light sensor. Put the smartwatch on your wrist (do not tie too tightly) and

start measuring, your results will be displayed in 20-25 sec. and all historical measuring results will be stored on the app.

Note: The results are for personal reference only and not for medical use.

Music Control

Play music in the smart phone and control it through your smartwatch easily. This allows you to Play/Pause, Next/Previous your favourite music directly from your smartwatch.

Sport

- Multi-Sport modes (Walking, Running, Cycling, Skipping, Basketball, Football, Badminton, and Swimming). Press the home button to pause/stop the exercise mode.
- Exercise data will be synchronized in the app, you can view the detailed data records in the sports mode in the app.
- Watch doesn't have GPS, so when using GPS in sport mode, the app will activate the mobile GPS to record the movement tracking.

BT Camera

On the watch, from the main interface, swipe right then tap on "BT camera". Click on camera option on your watch to take pictures from your mobile camera easily.

Stop watch

Tap on start button to start the timer. Stop it or reset it to start again.

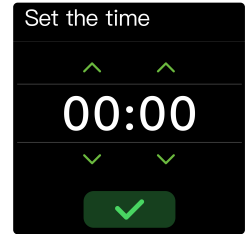

Other Features

Other Features Include Stopwatch, Alarm, Countdown, Brightness, Vibration: On/Off, Power saver mode, Factory reset, Power off, Torch and About.

Alarm

Set up Alarm on the app. Your watch will vibrate upon the set timing. You can turn it on or off from the watch.

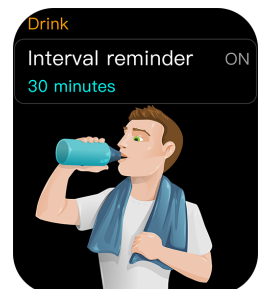

Sedentary

When there has been no activity in 1 hour, or less number of steps were recorded within a given period, the smartwatch will vibrate to remind you. [You can turn this option on/off from the pairing app].

Drinking Reminder

The watch will remind you to drink water when this option is turned on in the pairing app. Time and interval can be set according to the user's preference in the pairing app.

Wake Screen on Wrist Raising

Flipping your arm, the screen will automatically light up. You can set the time interval in app. Go to pairing app [Device] - [Device setting] - [Raise Your Hand] - Set time interval.

TroubleShooting Hryfine App

Hryfine app cannot find the Device

- Make sure your Bluetooth is activated (Smartphone and Nu Republic Smartwatch if there is an option)
- Check if the Nu Republic Smartwatch or Smartband is powered on.
- Manually select the Nu Republic Smartwatch or Smartband in the Bluetooth settings of the smart phone

The Nu Republic Smartwatch keeps on disconnecting on the App?

- Install the correct/updated version of the app
- See the recommended/supported version of the smartphone and the Nu Republic Smartwatch
- Restart your phone and your Nu Republic Smartwatch

Hryfine app becomes unstable after the recent update

- This usually happens when the support app is upgraded to the latest version, and the old device did not receive any updates on its firmware to be compatible with the latest app update.
- If this happens to your device, uninstall the app and download the older version of the Hryfine app.

My Nu Republic Smartwatch is not receiving any notifications, like calls and messages

- Please check the permissions on the support app, go to “Message Push” and switch ON the call and SMS permissions.
- Check the Hryfine permissions on the app permission settings of the smartphone, and allow Hryfine app to run in the background and receive notifications.
