WARNINGS / COMPATIBILITIES / RESTRICTIONS

Please read the instructions carefully. The end user is fully responsible for assembly and installation of this product.

- Max 2 bikes, 15Kg/33Lbs maximum per bike
- In some cases, might interfere with rear hatches full opening
- Bike must have a quick release front skewer
- Fork dropouts must be 100mm apart
- If your bike design makes it impossible to install following this manual, do not use the carrier
- Do not use disk wheels
- Failure to properly install this product and the bike on the carrier may cause damage to the car and bike and in the worst case personal injury

- Do not use a bike with modified bike dropouts
- Do not modify any components of the bike rack
- Do not use the product for other purposes than those for which they were designed
- Remove the accessory before entering automatic car washes
- Please respect the speed limit and adapt your speed to the condition of the road
- Before leaving and at every stop, please check that all the screws, bolts, knobs, levers and straps are firmly tightened
- Check periodically your product for signs of wear, corrosion and fatigue. Also check that your load is firmly attached
- Do not transport dense weights in the bag (Max capacity 10Kg / 22lbs)
Assembly

**Step 1:** Assemble the front tube to the outer side tubes as indicated using the **long bolts**. Be sure to insert the bolts through plastic spacers. **DO NOT TIGHTEN YET!**

**Step 2:** Assemble front tube to the inner side tubes as indicated using the **short bolts**. Be sure to insert bolts through plastic spacers. **DO NOT TIGHTEN YET!**

**Step 3:** Assemble rear tube to the inner and outer tubes. After all 4 of these bolts have been inserted and threaded in, then tighten all 8 bolts securely.

**Step 4:** Assemble wheel holders to rear tube. Align with front skewer. Tighten bolts snugly. Be sure that the velcro strap is positioned as indicated.

Mounting Kit Assembly

**Step 1:** Identify the front and rear bracket kits.

**Step 2:** Using the wrench, take the brackets apart and re-assemble on the crossbar.

**Step 3:** Position the brackets per the below diagrams:

- **Front Bar**
- **Rear Bar**

**Step 4:** Position frame on the mounting brackets.

If necessary, adjust the position of the mounting brackets. Tighten bolts snugly.
Installing Rack

1. Lower the rack onto the brackets. Front mounting blocks on rack are snug but will swivel.

2. Slide U bracket over tube and rear mounting bracket so that holes are aligned. Insert pin as shown and rotate clockwise to tighten.

3. Insert Spring pull-pins through front mounting brackets and mounting blocks on rack.

For a more permanent installation, remove front pull pins and insert security bolts. Install nut from inside. This procedure may be simpler by first removing the front skewer support (easier access to nut). Note: Do not lose the security wrench!

BAG INSTALLATION

MAX BAG CAPACITY 10 Kg / 22 lbs

Simply install the bag on the central basket. Attach the front and rear buckles, side velcro straps and tight the front and rear straps.
BIKE INSTALLATION

- Remove the bike front wheel
- Open skewer lever and unscrew skewer nut to leave space for the fork
- Insert bike forks and position rear wheel on the wheel support

WHEEL INSTALLATION

FORK INSTALLATION

Make sure that bike's fork is properly positioned and aligned with support

To avoid contact between the two bikes, rotate the bike mounts by loosening the bolt below the mount. Re-tighten securely.

Adjust clamping pressure by tightening the nut and close the lever. Your bike is secure only after the lever closes with firm resistance.

Test your installation

- Festen the tire to the wheel holder as shown above, recheck after. Depending on tire size, use either the shorter velcro strap (road bikes) or longer strap (mountain bikes)
Limited Lifetime Warranty (effective January 1, 2008):

Hollywood Racks will warrant its car racks and accessories during the time that an original retail purchaser owns the product subject to the exclusions and limitations of this warranty. Hollywood Racks will remedy defects in materials and workmanship by repairing or replacing (at its option) the complete rack or a defective part without charge for labor or parts. Hollywood Racks may elect (at its option) to issue a refund equal to the purchase price paid for the product.

This warranty does not cover problems caused by normal wear and tear including (but not limited to) weather, scratches, dents, rust, accidents, unlawful vehicle operation, misuse, abuse, neglect, theft, unauthorized modifications, or unauthorized repair. No warranty is given for defects resulting in incorrect assembly, incorrect installation onto the vehicle, installation on a “no fit” vehicle, incorrect attachment of bicycles onto the rack, or overloading of the rack’s weight restrictions. This warranty terminates if the original retail purchaser transfers the product to any other person.

If a product is believed to be defective, the original retail purchaser should contact either the original retailer or Hollywood Racks directly at 800-747-4085 or at info@hollywoodracks.com

Disclaimer of Liability: Repair or replacement of a defective product or the issuance of a refund or credit (as determined by Hollywood Racks) is a purchaser’s exclusive remedy under this warranty. Damage to a purchaser’s vehicle, cargo, bicycles and or to any other person is excluded. This warranty is expressly made in lieu of any and all other express warranties, whether oral or written.

Hollywood Racks shall not be liable for any direct, indirect, consequential, incidental, special, punitive or any other damages in connection with the purchase, use or handling of this product.

Some states do not allow the exclusion or limitation of consequential or incidental damages and the above limitation may not apply to you. This warranty gives you specific legal rights and you have other rights, which vary from state to state.
