ABOUT HOLLYWOOD RACKS

Hollywood Racks started in 1973 making trunk-mounted racks in the back of a bike shop in Hollywood, California. The aim was simple: make good quality products that were easy to use and came fully assembled. Word traveled fast, and soon stores from all over California were placing orders. By the late '70s, the racks were sold throughout the United States via bicycle companies such as Schwinn, Peugeot, and Nishiki.

The product line has expanded significantly over the past 48 years to accommodate the changes across the cycling industry. Today, Hollywood Racks is the leading electric bike carrier manufacturer. Our products are available in all 50 states and over 25 countries worldwide, yet our purpose and commitment to quality hasn't changed.

Hollywood Racks is a third generation family owned and operated business.

HITCH RACKS

A hitch-mounted bike rack is easy to install on just about any car, truck, van, or SUV that is equipped with a hitch receiver. Our hitch racks are made of top quality materials making them extremely durable and long lasting.

Whether you need to carry fat-tire bikes, electric bikes, traditional bikes or recumbent bikes, our extensive line platform hitch racks will provide a solution for almost anything you need to move.

Our upright hitch racks or hanging arm hitch racks provide a quick, simple solution allowing you to get to your destination safely and securely. These easy-to-use racks can carry anywhere from 3-5 bikes at a time, securing them with our soft rubber cradles and safety strap.

HITCH RACKS

Sport Rider for E-Bikes

HR1500, HR1560

The updated 2021 version of the Sport Rider for Electric Bikes is our hitch bike rack designed specifically to carry electric bikes with any sized tire up to 5" wide. This bike rack can carry up to 2 electric bikes or standard bikes. It includes new universal extra heavy duty wheel holders for heavy load carrying capacity. As with the Sport Rider SE, this hitch-mounted bike rack can fold flat against the car when not in use and can be tilted for easy access to the cargo area. Also includes a keyed-alike locking hitch pin, 8' security cable, and locking frame to keep your rack and bikes secure during travel. Features patented No Wobble-No Tools Hitch Tightening System. For 2" hitches only. Hollywood hitch racks fit either 1-1/4" – 2" (class II - HR1560) or 2" (class III - HR1500) square receiver sizes. Please have the correct size professionally installed on your vehicle.

Specifications for HR1500

- Capacity: Two Bikes (Max. 80 lbs per bike)
- Hitch Size: 2" only (Do not use a 1 1/4" -2" hitch adapter)
- Maximum bike wheelbase: 60"
- Minimum wheelbase: 36"
- Maximum tire width: 5"
- Features extra heavy duty wheel holders
- Patented "No-Wobble Hitch System"
- Folds flat against car when not in use
- Tilts down for easy cargo door access
- Space between bikes: 10"
- For 20" Fat tire rear wheels you will need a Small Wheel Adapter (SW-ADP-U) to prevent derailleur hanger interference
- Rack Weight: 58 lbs.
- Limited Lifetime Warranty

Specifications for HR1560

- Capacity: Two Bikes (Max. 80 lbs per bike)
- Hitch Size: 2" only (Do not use a 1 1/4" -2" hitch adapter)
- Maximum bike wheelbase: 60"
- Maximum tire width: 5"

- Includes keyed alike locking hitch pin, 8' security cable and locking frame hooks
- Uses a locking threaded 1/2-13 hitch pin
- Hitch tightener also included
- Folds flat against car when not in use
- Tilts down for easy cargo door access
- Space between bikes: 10"
- For 20" Fat tire rear wheels you will need a Small Wheel Adapter (SW-ADP-U) to prevent derailleur hanger interference
- For step through bicycles you will need to also purchase a Bike Adapter
- Rack Weight: 58 lbs.
- Limited Lifetime Warranty
- **Not to be used on 1-1/4" Class 1 hitches**
- **Not to be used on any RV, trailer, fifth wheel or towed vehicle**

HITCH RACKS

Sport Rider SE4

HR1400Z

For ease of use, the Sport Rider SE4 hitch bike rack comes out of the box set up as a 2-bike base unit. The two bike add-on kit (included in the box) is easily assembled to the base unit by installing & tightening two bolts. Features the patented "No Wobble-No Tools" hitch tightening system and includes locking frame hooks, a keyed-alike locking hitch pin, and an 8' security cable. This rack can fold flat against the car when not in use and tilts down for easy cargo door access. For 2" hitches only.

Specifications

- Capacity: Four Bikes (Max. 50 lbs per bike)
- Hitch Size: 2" only (Do not use a 1 ¼" -2" hitch adapter)
- Configurable as either a 2 bike or 4 bike rack
- Maximum bike wheelbase: 60" (72" long wheelbase kits available)
- Maximum tire width: 3"
- Includes keyed-alike locking hitch pin, 8' security cable and locking frame hooks
- Patented "No-Wobble Hitch System" eliminates slack between the receiver and the rack without the use of tools
- Folds flat against car when not in use
- Tilts down for easy cargo door access
- Rack Weight: 91.49 lbs.
- Limited Lifetime Warranty
- Not to be used on any trailer, fifth wheel or towed vehicle

Sport Rider SE for Cargo Bikes

HR1450Z-W

This version of Sport Rider SE is our hitch bike rack designed specifically to carry cargo and wagon-style electric bikes. This bike rack can carry up to 2 electric bikes or standard bikes. It includes extra heavy-duty wheel holders for heavy load carrying capacity. As with the Sport Rider SE, this hitch-mounted bike rack can fold flat against the car when not in use and can be tilted for easy access to the cargo area. Also includes a keyed-alike locking hitch pin, 8' security cable, and locking frame to keep your rack and bikes secure during travel. Features patented No Wobble-No Tools Hitch Tightening System. For 2" hitches only.

Specifications

- Capacity: Two Bikes (Max. 80 lbs per bike)
- Hitch Size: 2" only (Do not use a 1 ¼" -2" hitch adapter)
- Maximum bike wheelbase: 60"
- Minimum wheelbase: 36"
- Maximum tire width: 3"
- Features extra heavy duty wheel holders (Now with a ratchet straps and rim protectors), an internally reinforced frame and external brace for heavy load carrying capacity
- Includes a keyed-alike locking hitch pin, 8' security cable and locking frame hooks
- Patented "No-Wobble Hitch System" eliminates slack between the receiver and the rack without the use of tools
- Folds flat against car when not in use
- Tilts down for easy cargo door access
- Space between bikes (center to center): 18"
- Limited Lifetime Warranty
- Not to be used on any trailer, fifth wheel or towed vehicle

HITCH RACKS

Sport Rider 2

HR1000Z

The Sport Rider can fit almost any style of bike. The new locking frame hooks and adjustable wheel holders make it easy to just pop your bikes in the rack and go. To secure the bike, drop your bike into the wheel holders and slide the ratcheting frame hook down onto the frame. The hooks contain locks to keep your bikes safe and secure while traveling. The rack can be folded flat when not in use and can be tilted so you can easily get into the cargo area of your car if necessary. The Sport Rider 2 also includes a locking hitch pin, which is a keyed-alike to the frame hooks.

Specifications

- Capacity: Two Bikes (Max. 50 lbs per bike)
- Hitch Size: fits both 1 ¼" and 2"
- Maximum bike wheelbase: 60" (72" long wheelbase kits available)
- Maximum tire width: 3"
- Locking Threaded hitch pin (1/2-13) prevents rack sway
- Locking frame hooks to deter theft
- Folds flat against the car when not in use
- Tilts down for cargo area access
- Rack Weight: 36.6 lbs.
- Not to be used on any trailer, fifth wheel, or towed vehicle

Sport Rider SE2

HR1450Z

The updated 2019 Sport Rider SE2 is a heavy-duty 2-bike hitch rack that will fit almost any style of bike using new universal locking frame hooks and adjustable wheel holders. You can easily load and unload your bikes by dropping them into the wheel holders and sliding the ratcheting locking hook down onto the frame to secure the bike. Still featuring our patented "No Wobble-No Tools" hitch tightening system, a keyed-alike locking hitch pin, and security cable, with the new Sport Rider SE2 your bikes are as secure as ever. This rack can be folded flat against the car when not being used and tilted to easily gain access to the cargo area. For 2" hitches only.

Specifications

- Capacity: Two Bikes (Max. 50 lbs per bike)
- Hitch Size: 2" only (Do not use a 1 ¼" -2" hitch adapter)
- Comes as a 2 bike rack with 2 bike add-on kit sold separately
- Maximum bike wheelbase: 60" (72" long wheelbase kits available)
- Minimum bike wheelbase: 34"
- Maximum tire width: 3" (5" Fat Tire Wheel Holders available)
- Includes locking hitch pin and security cable
- Locking frame hooks to deter theft when traveling
- Patented "No-Wobble hitch system" eliminates slack between the receiver and the rack without the use of tools
- Folds flat against car when not in use
- Tilts down for easy cargo door access
- Rack Weight: 54.01 lbs.
- Limited Lifetime Warranty
- Not to be used on any trailer, fifth wheel, or towed vehicle

HITCH RACKS

Sport Rider SE2 Add-on Kit

HR1475Z

Bike holding features are the same as the Sport Rider SE2. Connects easily by simply sliding the add-on kit into the base unit, insert the attachment pin & clip, then tighten the lever.

Specifications

- Capacity: Two Bikes (Max. 50 lbs per bike)
- Fits HR1450Z
- Includes patented "No-Wobble Hitch System"
- Maximum bike wheelbase: 60"
- Locking frame clamps
- Insert tube is 1-3/4" x 1-3/4"
- Space between bikes: 10"
- Rack Weight: 37.50 lbs.

HITCH RACKS
RV Rider
HR1700

The new 2021 RV Rider carries 2 E-bikes (up to 80 lbs. each) on the back of an RV Motorhome, a 5th wheel, or a flat towed vehicle. Special features include universal heavy-duty wheel holders for heavy load carrying capacity. These wheel holders can fit any tire up to 5" wide and include a ratchet wheel strap. Locking frame grabbers secure the bikes in place. The frame grabbers can attach to a bike's frame or seat tube with a diameter range of 1" - 2". A locking cable and keyed alike hitch pin secure the bikes to the rack and the rack to the vehicle. The bike rack folds up when not in use and can tilt down for rear cargo access when the bikes are not mounted (when used on an RV or motorhome).

A double-walled receiver tube handles the extra weight of the electric bikes. An included hitch tightener reduces motion inside the hitch (the receiver hitch must have a flange). A minimum class 3 trailer hitch is required to use this bike rack.

Specifications

- Capacity: Two Bikes (Max. 80 lbs per bike)
- Hitch Size: 2" only (Do not use a 1 ¼" -2" hitch adapter)
- Maximum bike wheelbase: 60"
- Minimum wheelbase: 36"
- Maximum tire width: 5"
- Features extra heavy duty wheel holders (Now with ratchet straps and rim protectors), an internally reinforced frame, and external brace for heavy load carrying capacity
- Includes a keyed-alike locking hitch pin, 8' security cable, and locking frame grabbers
- For 20" Fat tire rear wheels you will need a Small Wheel Adapter (SW-ADP-U) to prevent derailleur hanger interference (You will only need one per bike)
- Not intended for use with motorized gasoline bicycles, mopeds, motorcycles or 3 wheel bikes (trikes), or electric scooters
- Rack Weight: 63.5 lbs.
- Limited Lifetime Warranty
- Includes a hitch tightener
- Not to be used on any trailer, fifth wheel, or towed vehicle

HITCH RACKS

Destination 2 & 4

HR4200 (for 2 bikes), HR4000 (for 4 bikes)

Introducing the new Destination Bike Rack, our lightweight bike hitch rack for 1-1/4" and 2" hitch sizes. This hitch bike rack securely carries up to 4 bikes and is easy to install and easy to use. It's designed with individual wheel trays to make loading and unloading super breezy and includes padded frame holders to protect your bike even on the roughest roads. It also includes ratchet straps that slide vertically along the center post and rotate 360 degrees to accommodate every shape and size of bike frame. The locking threaded hitch pin keeps the lightweight hitch bike rack from swaying during transit and the rack also folds up when not in use for safer driving and convenience.

Specifications

- Capacity: Bike Rack Carries Up To 2 or 4 Bikes (Max. 35 lbs. per bike)
- Hitch Size:
 - Destination 2: 1 1/4" - 2"
 - Destination 4: 2" only
- Comes fully pre-assembled
- Max wheelbase: 48"
- Max tire width: 3"
- Fits 20" bikes - 29ers/700c bikes
- Folds up against the back of the vehicle
- Includes locking threaded hitch pin.
- 360-degree rotating padded frame holders
- Wheel trays with integrated ratchet straps
- Not to be used on any trailer, fifth wheel, or towed vehicle

HITCH RACKS
TRS E-Bike
HR3500E

Our e-bike hitch bike rack will carry two 65 lb. bikes with up to 4.5" tires. Bikes sit on anodized aluminum trays with a rotating tire cage and multiple ratcheting wheel straps integrated. A uniquely designed hook is used to hold the bikes by the front tire to keep them extra secure. This secure and sturdy bike rack uses our new quick-release spring system to tilt the rack down and fold it up flat against the car. Max wheelbase is 48".

Specifications

- Capacity: Two Bikes (Max. 65 lbs. per bike)
- Hitch Size: 2"
- Fat tire ready out of the box, up to 4.5" tires
- Front and rear ratchet wheel straps
- Spring release fold up/tilt down
- Aluminum wheel trays
- Patented "No-Wobble Hitch System"
- Max Wheelbase: 48 in.
- Limited Lifetime Warranty
- Rack Weight: 57.1 lbs.
- Not to be used on any trailer, fifth wheel, or towed vehicle

HITCH RACKS

Trail Rider

HR200Z

The updated 2019 Trail Rider Hitch Bike Rack will fit almost any style of bike using a new lockable ratchet frame hook and adjustable wheel holders. Drop the bikes into the wheel holders and slide the locking hook down onto the frame to secure the bike. Quick. Easy. Convenient. Featuring also Velcro wheel straps and a locking hitch pin which is keyed alike to the frame hooks to keep everything in place. When not in use, folds into a thin profile for garage storage.

Specifications

- Capacity: Two Bikes (Max. 45 lbs per bike)
- Hitch Size: fits both 1 1/4" and 2"
- Maximum bike wheelbase: 60" (72" long wheelbase kits available)
- Maximum tire width: 3"
- Locking threaded hitch pin (1/2-13) prevents rack sway
- Locking frame hooks to deter theft
- Rack Weight: 36.38 lbs.
- Not to be used on any trailer, fifth wheel, or towed vehicle

Road Runner

HR520

Easily one of the best-selling 5-bike hitch rack systems ever, the heavy-duty Road Runner is built to last. The durable rubber bike cradles and integrated anti-sway stabilizers keep your bikes secure on the rack so they don't bang into each other. This hitch rack includes our patented No Wobble-no tools hitch tightening system, a keyed-alike locking hitch pin, and 8' security cable all to ensure your load is safe for even the longest haul. The arms on the Road Runner fold down when not in use and the rack tilts down so you can easily access the cargo area of your vehicle. This rack is for 2" receivers only.

Specifications

- Durable rubber bike cradles with integrated anti-sway stabilizers
- Includes a keyed-alike locking hitch pin and 8' security cable
- Patented "No-Wobble hitch system" eliminates slack between the receiver and the rack without the use of tools
- Rack tilts for easy cargo access. Arms fold when the rack is not in use
- 2" receivers only
- Integrated tie-down strap for extra bike tie down security
- Welded "lock-point" for optional anti-theft security cable
- Distance between support arms 12.5" (center to center)
- Max Weight: 35 lbs. per bike
- Limited Lifetime Warranty
- Not to be used on any trailer, fifth wheel or towed vehicle
- Not to be used with any Electric Bicycles

HITCH RACKS

Traveler

HR8500

This hitch rack gets you traveling with your bikes as quickly and economically as possible. Featuring solid construction and durable rubber bike cradles with integrated anti-sway, the Traveler is built to last. This bike rack can carry up to four bikes safely, making it ideal for families. Threaded hitch pin keeps rack steady and secure.

Specifications

- Hitch Size: fits both 1 ¼" and 2"
- Capacity: 3 - 5 bikes (max. 35lb per bike)
- Durable rubber bike cradles with integrated anti-sway stabilizers
- Rack tilts for easy cargo access and arms fold when the rack is not in use
- Integrated tie-down strap for extra bike tie down security
- Welded "lock-point" for optional anti-theft security cable
- Threaded hitch pin (1/2-13) prevents rack sway
- Distance between support arms 12.5" (center to center)
- Limited Lifetime Warranty
- Not to be used on any trailer, fifth wheel or towed vehicle
- Not to be used with any Electric Bicycles

TRUNK RACKS

Since 1973, we have been making high-quality trunk-mounted bike racks, starting with the Original F1B. Our trunk racks have evolved since then to accommodate the newer cars that we see on the roads today. We now have a wide-ranging line of trunk racks to fit almost any sedan, hatchback, SUV, or van.

So, regardless of the car you drive, chances are we have a bike rack for you.

Trunk racks are designed to the hilt with sleek lines, an internal strap management system, and integrated locks that secure the bike to rack and rack to the car.

TRUNK RACKS

F2 Over-the-Top	19
Express	20
Baja	20
Expedition F6	21
Original F1B	21
F4 Heavy Duty	22

TRUNK RACKS

F2 Over-the-top

F2-2 (for 2 bikes), F2-3 (for 3 bikes)

The F2 Over-the-Top is one of our best trunk bike racks for cars with spoilers. It features an adjustable "high rise" frame that prevents strap contact with the spoiler, it's lightweight, and it's easy to install. The elegant design also includes removable hatch anchors and quick-connect straps for secure attachment to hatches, trunks, roof rack cross bars, and roof rack raised rails. The F2 Over-the-Top fits most vehicles with a spoiler. Choose between a 2-bike or 3-bike rack.

Specifications

- Weight Capacity: 35 lbs per bike
- Designed for vehicles with spoilers
- Includes special attachment straps for roof racks and glass hatches
- Soft rubber cradles protect bike's finish
- Anti-sway bike cradles keeps bikes separated and rigid
- Quick release adjustment hubs
- Comes fully pre-assembled
- Folds flat for easy storage
- Integrated tie-down strap for extra security
- Limited Lifetime Warranty
- US Patent No. 9522635
- Not to be used with any Electric Bicycles

TRUNK RACKS

Express

E2 (for 2 bikes), E3 (for 3 bikes)

The Express is our economical trunk bike rack. It fits most vehicles and features easy-to-use adjustment hubs. It's also fitted with soft rubber bike cradles which help protect your bike's finish. This bike rack comes fully pre-assembled and folds flat for easy storage. Choose between a 2-bike rack or a 3-bike rack.

Specifications

- Weight Capacity: 35 lbs per bike
- Soft rubber cradles protects bike's finish
- Fits most vehicles
- Easy-to-use adjustment hubs
- Comes fully pre-assembled
- Folds flat for easy storage
- Integrated tie-down strap for extra security
- Distance between bike support arms: 15"
- Limited lifetime warranty
- Not to be used with any Electric Bicycles

Baja

B2 (for 2 bikes), B3 (for 3 bikes)

Baja deluxe trunk bike rack features easy to use quick-release adjustment hubs for a perfect fit on most vehicles. Six straps solidly attach the Baja to the rear of the vehicle, and soft rubber bike cradles with patented anti-sway blocks keep the bikes separated and rigid. This secure, sturdy, and easy-to-install fit most cars and make your adventures as fun as they can be.

Specifications

- Weight Capacity: 35 lbs per bike
- Soft rubber cradles protects bike's finish
- Anti-sway bike cradles keeps bikes separated and rigid
- Fits most vehicles
- Quick release adjustment hubs
- Comes fully pre-assembled
- Folds flat for easy storage
- Integrated tie-down strap for extra security
- Distance between support arms: 11.5"
- Limited Lifetime Warranty
- Not to be used with any Electric Bicycles

TRUNK RACKS

Original F1B

F1B

The F1B, designed in 1973, is our original fully pre-assembled and foldable single or multi-bike trunk rack. This rack is virtually indestructible and the classic design means it can be installed on most cars, vans, and SUVs. Multi-position hinges make it super simple to get the F1B on and off your vehicle and it can be folded flat when not in use. It carries up to 3 bikes and the integrated tie-down straps ensure your bikes get the safety and security to your destination with ease.

Specifications

- Capacity: Three Bikes (Max. 35 lbs per bike)
- Easy to use multi-position hinges allow fast and simple installation
- Comes fully pre-assembled
- Folds flat for easy storage
- Integrated tie-down strap for extra security
- Not to be used with any Electric Bicycles

Expedition F6

F6-2, F6-3

Our Expedition F6 is a practical and stylish trunk bike rack. It can easily be installed on almost any vehicle, including the Toyota Prius ('04-'15), and includes six attachment straps to keep your bikes fastened safely to your trunk. The soft rubber cradles and patented anti-sway blocks also protect your bikes from damage in transit, especially when you are carrying multiple bikes. Choose between a 2-bike rack with the F6-2 or carry up to 3 bikes with the F6-3. This trunk rack comes completely pre-assembled and folds flat for easy storage.

Specifications

- Weight Capacity: 35 lbs per bike
- Soft rubber cradles protects bike's finish
- Anti-sway bike cradles keeps bikes separated and rigid
- Fits most vehicles
- Quick release adjustment hubs
- Six attachment straps for secure fitting
- Folds flat for easy storage
- Integrated tie-down strap for extra security
- Limited Lifetime Warranty
- Not to be used with any Electric Bicycles

TRUNK RACKS

F4 Heavy Duty

F4

The family favorite F4 is our heavy-duty trunk bike rack. With the ability to carry up to 4 bikes, the steel tubing and hardware make this rack strong and steady for every family outing. An exclusive dual positioning trunk/bumper system allows a custom fit on most sedans, SUVs, and minivans. The F4 also features high-strength tie-down buckles and straps to ensure a secure fit for heavy loads. This rack comes pre-assembled and folds flat when not in use.

Specifications

- Capacity: Four Bikes (Max. 35 lbs per bike)
- Heavy-duty components for carrying up to four bikes
- Dual positioning trunk/bumper system allows a custom fit on vehicles
- Installs quickly and easily
- Comes fully pre-assembled
- Folds flat for easy storage
- Integrated tie-down strap for extra security
- Not to be used with any Electric Bicycles

A photograph of two mountain bikers riding down a forest trail. The rider in the foreground is wearing a blue and orange long-sleeved shirt, a blue and yellow helmet, and is leaning forward on their blue mountain bike. The rider in the background is wearing an orange and blue long-sleeved shirt and a yellow helmet. The trail is covered in fallen leaves and surrounded by trees.

WITH HOLLYWOOD RACKS

SPARE TIRE RACK

Our spare tire bike rack is easy to install on just any rear-mounted tire (without a cover). We have geared up our SR1 spare tire bike rack to get your bikes to any trail that you want to conquer. No matter where your next adventure will take, the SR1 can safely carry up to two bikes.

SPARE TIRE RACK

SR1 _____ 25

SPARE TIRE RACKS

SR1 (Strap on Spare Tire Bike Rack)

SR1

The durable and yet simple design of the SR1 Strap-On Spare Tire Bike Rack allows for fast installation or removal with a rugged strap & clamp system. For those looking for a bike rack for their Jeep or vehicle with a Spare Tire, the SR1 is your go-to option. Fully adjustable to fit most spare tires, the support arms on this rack can be centered for side-mounted tires and are foldable when not in use. Soft rubber cradles carry up to two bikes and an integrated safety strap ensures safe bike transport. Comes fully pre-assembled.

Specifications

- Capacity: Two Bikes (Max. 35 lbs. per bike)
- Comes fully pre-assembled
- Easy installation with rugged strap and clamp system
- Bike support arms adjustable for side-mounted tires
- Soft rubber bike cradles help protect bikes finish
- Integrated tie-down strap ensures safe bike transport
- Bike support arms fold when not in use
- Distance between bike support arms: 13"
- Distance between bike cradles: 7"
- New maximum vehicle tire width is now 15"
- Not to be used on any trailer, fifth wheel, or towed vehicle
- Not to be used with any Electric Bicycles

ACCESSORIES

Visit www.hollywoodracks.com for more parts and accessories.

Rack Valet

RV1

The Rack Valet is the first mobile bike rack storage and transportation system. Easily attach your bike rack into either the 1-1/4" or 2" slot on the Rack Valet and then roll it out to your vehicle. Some bike Racks can weigh up to 90 pounds, so save yourself the trouble (and back pain) and roll your rack right out to your car.

Shown with TRS Bike Rack

Specifications

- Easily fits all bike racks using 1-1/4" or 2" receiver tubes*
- Includes locking wheels for ease of use
- Lightweight and transportable
- Easy garage storage
- Weight: 13 lbs.
- Limited Lifetime Warranty

*The 2" tube measures 3-7/8" from the center of the hitch pin hole to the front end of the tube where the receiver tube inserts. The 1-1/4" tube measures 2-1/2".

Bike Adapter

BA-PRO

The Bike Adapter Pro is an artificial top tube that allows you to transport a variety of different bicycles with sloping top tubes, including but not limited to ladies, children's, cargo, and full suspension bicycles on your bicycle rack. The telescoping bar will fit various size bicycles, and will not scratch your bike's finish. The adapter is heavy-duty, has non-twisting tubing, and has a secondary interlocking gate.

Specifications

- Fits a variety of bike sizes with the telescoping tube that adjusts from 21" to 28" long
- Attaches to your bike's seat post and handlebar stem post
- Easy push to operate pin and interlocking gate keeps each clamp closed
- Protects your bike's finish with non-marking plastic clamps
- Constructed of rust-resistant, sturdy steel with black powder coat finish
- Maximum weight capacity is 35 lbs. on hanging style racks
- When used on the Sport Rider for Electric Bike Rack, the weight limit is 80 lbs

ACCESSORIES

Truck Bike Pad

TP-1

Our new waterproof tailgate bike pad for truck beds fits almost any pickup truck. The truck bed bike pad features an oversized flap to easily access or lock your tailgate handle. Includes straps and locations for 4 bikes. Keep your truck bed scratch-free with the latest tailgate bike pad from Hollywood Racks!

Specifications

- Capacity: Four Bikes
- Pad Width: 53"
- Includes buckles and straps to secure bikes to the pad

Sport Rider SE Cargo Carrier Add On Kit

HR1485

The Sport Rider SE Cargo Carrier Add On Kit is a great way to bring camping or other gear along with your bikes. Easily connects into the HR1400 (if the 2 bike add on is removed) or HR1450 rack by sliding it into the base unit, attach the pin/clip, then tighten the lever. Features heavy duty steel construction, bike pedal clearance and is sized to fit two standard milk crates. Includes cargo stretch net and custom adapter tube to allow use as a "Stand Alone" hitch cargo carrier with a 220 lb. capacity.

Specifications

- Allows carrying two bikes plus up to 100 lbs. of gear
- Custom shaped for bike pedal clearance
- Includes stretch cargo net
- Works as stand alone cargo carrier with included adapter (without bikes, 220 lb. capacity)
- For 2" hitch only
- Weight: 44 lbs.
- Insert tube is 1-3/4" x 1-3/4"
- Inside dimensions: 52-1/2" long x 15-9/16" wide x 5-1/2" deep, Width at center: 12"
- Outside dimensions: 54-1/4" long x 17-1/2" wide x 7-3/8" deep, Width at center: 14"
- 7" Tall
- Includes patented "No-Wobble Hitch System"
- Rack Carrier Weight: 45.19 lbs.
- Limited lifetime warranty
- Not to be used on any trailer, fifth wheel or towed vehicle
