

Over-the-Top trunk rack

Installation on vehicles using quick connect hatch anchors

hatch anchors

upper straps with quick connect hooks

Open rear hatch and insert hatch anchor's strap with D ring through opening. Close rear hatch.

Replace upper straps on rack with quick connect straps. Hooks should be facing up

Mount the rack onto the bumper, adjust the clearance frame so it is positioned above the spoiler. Attach side straps so rack is self-standing.

Position quick connect hook near D ring on hatch anchor.

Connect D ring to hook.

Tighten strap, then fold the pad over hook/D Ring. Seal using Velcro on pad.

Tighten straps securely. Upper straps should be well above spoiler!
