Hollywood Sport Rider  version 2
Model HR1000 - 2 Bike Hitch Rack

- Not to be used on any trailer, fifth wheel or vehicle being towed by another vehicle.
- Weight Limit 45 lbs/20 kg per bike - 2 bike maximum capacity
- Fits both 1 ¼” and 2” hitch
- Optional Locking Kits Available

This box should include the following parts:

A,B) wheel trays with straps  C) long frame hook  D) short frame hook
E) Insert tube  F) 2” adapter  G) knobs  H) frame hook clamps
I) hitch pin bolt  J) carriage bolt
K) insert tube bolts
L) locking washer for hitch pin
M) washers for insert tube bolts
N) washer for hitch pin
O) clip for hitch pin bolt
P) main rack assembly
Remove retaining pins, rotate wheel tray support tubes down, reinsert retaining pins. Install insert tube E into bracket. Align holes on insert tube with holes on bracket.

Place washers M onto bolts K, install with 17mm or adjustable wrench. Tighten bolts securely.

Assemble frame hooks C & D to frame hook clamp H using carriage bolts J and knobs G. Be sure hooks are positioned per drawing.

Place LONG hook assembly C onto the vertical post, facing the front of the rack. Then place the SHORT hook assembly D on the insert tube side of the rack.

Assemble the carriage bolts J and knobs G to the wheel holders A and B. Be sure that the knob is on the "strap side" of the wheel holder.
Slide wheel trays onto wheel tray support tubes as shown.

Place lock washer L and washer N onto hitch pin bolt I. Align the holes, insert the bolt and tighten securely using a ¾" wrench.
If your vehicle has a 2" receiver, you will need to attach the black "U" shaped adapter F. Line up center hole of the adapter with the hole on the rack's insert tube E. Place lock washer L and washer N onto hitch pin bolt I. Align the holes, insert the bolt and tighten securely using a ¾" wrench.

IMPORTANT!! After tightening the hitch pin bolt, insert clip O through the hole on the end of the bolt.

To fold down the vertical post, rotate and remove the side-retaining pin as shown.
Pre-position the wheel trays to fit the bike’s wheel base (center to center distance between the wheel axels) such that they are directly beneath each wheel. To adjust the wheel trays, loosen the knobs and slide along the wheel holder support tube. Tighten knobs securely.

To fit the first bike (closest to the vehicle) more easily, the vertical post may be tilted down (away from vehicle). To do this, simply remove the side retaining pin per fig. 21 to 23. Note: Never fold down main tube with bike(s) mounted. Place the first bike in the wheel holders, and then rotate the vertical post up. See figure 24. Handlebars for the first bike should be on the driver’s side of the vehicle. If carrying two bikes, always load the smaller bike first (position the smaller bike between the vehicle and vertical post)

Be sure that the hooks are well supported on the bike’s frame and tighten the knob securely. Use the Velcro strap on the wheel holder as the final step of installing the bikes on the rack, per Fig. 27B.

Repeat for the outside/second bike with the short hook.
Double check before driving off:

- Knobs are tight on all four wheel trays and both frame hooks.
- All three retaining pins are properly inserted and secure
- Wheel straps are fastened
- Hitch pin is secure and hitch pin clip is installed

Drive slowly on bumpy or dirt roads

Limited Lifetime Warranty (effective January 1, 2008):

Hollywood Racks will warrant its car racks and accessories during the time that an original retail purchaser owns the product subject to the exclusions and limitations of this warranty. Hollywood Racks will remedy defects in materials and workmanship by repairing or replacing (at its option) the complete rack or a defective part without charge for labor or parts. Hollywood Racks may elect (at its option) to issue a refund equal to the purchase price paid for the product.

This warranty does not cover problems caused by normal wear and tear including (but not limited to) weather, scratches, dents, rust, accidents, unlawful vehicle operation, misuse, abuse, neglect, theft, unauthorized modifications, or unauthorized repair. No warranty is given for defects resulting in incorrect assembly, incorrect installation onto the vehicle, installation on a “no fit” vehicle, incorrect attachment of bicycles onto the rack, or overloading of the rack’s weight restrictions. This warranty terminates if the original retail purchaser transfers the product to any other person.

If a product is believed to be defective, the original retail purchaser should contact either the original retailer or Hollywood Racks directly at 800-747-4085 or at info@hollywoodracks.com.

Disclaimer of Liability: Repair or replacement of a defective product or the issuance of a refund or credit (as determined by Hollywood Racks) is a purchaser’s exclusive remedy under this warranty. Damage to a purchaser’s vehicle, cargo, bicycles and or to any other person is excluded. This warranty is expressly made in lieu of any and all other express warranties, whether oral or written.

Hollywood Racks shall not be liable for any direct, indirect, consequential, incidental, special, punitive or any other damages in connection with the purchase, use or handling of this product. Some states do not allow the exclusion or limitation of consequential or incidental damages and the above limitation may not apply to you. This warranty gives you specific legal rights and you have other rights, which vary from state to state.
