Aluminum frame painting color

Aluminum is an environmental friendly, light and tough metal with an excellent strength to weight ratio and corrosion resistance, making it an ideal material for outdoor furniture. By powder coating we give to the aluminum an advanced method of applying protective, resistance to chemicals, corrosion, UV weathering and decorative coating. Choose your Bivaq furniture finish among all these painting colors.

Upholstery

Polypropylene
fabric

The polypropylene fabric used in the Sal collection has a similar appearance to natural fibers such as sisal with the advantage that it not only resists fresh water but also salt water, as well as the effects of sunlight, greatly increasing the possibilities of use. The fabric is finished with a piping in the same color.
