

La classica fontanella a colonna è reinterpretata in pietra e impreziosita da un piccolo vaso trattato come corpo a sé stante, che ne accoglie e lascia fluire l'acqua. Perfetta per dare ad ogni giardino una nota di stile e di eleganza.

The classic column fountain is reimagined in stone and embellished with a small vase which becomes a standalone element, cradling and allowing the water to flow. It is perfect to add a touch of style and elegance to any garden.

Fontanella con stelo e vaschetta in pietra naturale di Peperino e Travertino completa di puntale e componenti idraulici, rubinetto in ottone. I componenti in pietra sono ricavati da pezzi unici, lavorati con centri di lavoro a controllo CNC.

Fountain with stem and basin crafted from natural Peperino and Travertine stone, complete with spout and hydraulic components, brass faucet. The stone components are obtained from single pieces, processed using CNC workstation.
