

Company Profile

www.vapokiss.com

Dongguan Anyun Technology Co., Ltd. was established in 2020. It is a new company of Miga Technology (Dongguan) Co., Ltd. It is mainly responsible for the operation & management of Miga's own brand Vapokiss and overseas OEM/ODM business development.

The company integrates R&D, Production, Sales and Services. At present, the plant area is 13,600 square meters and there are more than 1,200 employees.

The company covers two major business areas:

1. Electronic Nicotine Delivery System (ENDS) (mainly OEM/ODM of Disposable nicotine electronic cigarettes and new brand Vapokiss),
2. Inhalation medical atomization device (CBD Vaporizer) .

All products have passed the safety certification of the third-party testing agency, and have obtained multiple inspection and certification certificates of industry quality standards, such as CE, ROHS, FCC, etc. The products produced are exported to the United States, Canada, Russia, Europe, the Middle East, Southeast Asia, South America and other countries and regions, and are worthy of the trust of every consumer.

The founder Zhao Lianchao loves development and technological innovation. He has been deeply involved in the e-cigarette industry for 5 years. He is the first batch of domestic engineers to developed disposable e-cigarettes and the behind-the-scenes factory owner of many famous disposable e-cigarette brands.

The company's core competitiveness is to have a top domestic senior R & D team, with strong design R & D capabilities and project integration and operation capabilities. The company has obtained a number of product patents. Strive to produce the world's leading electronic atomization devices.

The company adheres to the mission of "providing high-quality atomization device for global consumers" and hopes to become "a world-renowned Chinese brand in the field of electronic atomization device" .

5 Reasons to Choose Us

Value-added services

Superb technology

Key customer service experience

Powerful supply chain

Trustworthy

High-quality Atomization device Customization Expert

5 Reasons to Choose Us

---Value-added services

Reason1 : Provide free new product development services to ensure that customers continue to iterate new products

- Free Trademark Logo Design
- Free packaging design
- Free ID design
- Free IP pattern design
- Free craft selection professional advice
