RECHARGEABLE FAN WITH LED LIGHTS

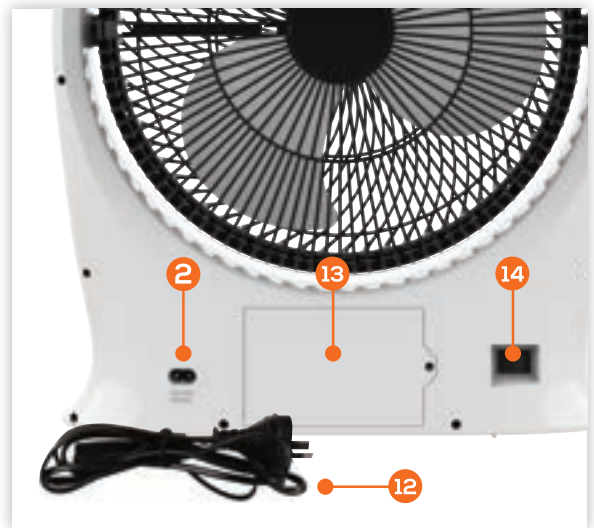

This portable fan is sleek and compact, making it perfect for camping. It features a convenient handle that makes it easy to carry. Includes a 7.4V 4400mAh rechargeable Lithium battery for long lasting use. 180° Rotatable design provides a light breeze and cooling, keeping you consistently comfortable.

ATTENTION!

1. Please read the instruction manual carefully before using this product.
2. Before charging, please make sure that the voltage is in line with the use of this product.
3. It is necessary to charge the product for eight hours every three months.
4. To save battery charge, ensure the fan is completely shutdown when not in use.
5. Suitable operating ambient humidity level.
6. Always use under cover, do not expose to water.
