## Using food to do good

We are a social enterprise marketplace bringing forward-thinking brands and initiatives together in one place, in one box.

Simply put, we believe in a better kind of business. We want to bring you brands and projects for you to enjoy, get involved with and have a meaningful impact without compromising on taste, environment, or society.

To meet our mission, we partner with brands and organisations that enable and implement meaningful projects that have an impact on the United Nations' Sustainable Development Goals (SDGs).

## SUSTAINABLE DEVELOPMENT GOALS IN FOCUS

We know that every project is important, but these are some of our favourite we have been able to support during the fourth quarter of 2020.

### REDUCING FOOD WASTE

**2,879** FRUITS AND VEGETABLES SAVED

Many of our partner businesses are committed to using waste or surplus food in their products. We support their mission in working towards more responsible food consumption and production.

### SUPPORTING EDUCATION

**460** CHILDREN AND ADULTS

Through the charities supported by our partners, we have been able to support education programmes across the world. These include Our Father's Heart - working with homeless children in Uganda, Life Association - supporting farmers and adults with special needs in India and healthy eating programmes in UK schools.

### ENVIRONMENTAL SUSTAINABILITY

**556 KG**

**346**

Our partners use recycled materials and renewable energy, and are working to become fully carbon neutral. We support their mission to reduce energy usage and carbon emissions. Booni Boxes use 100% recycled cardboard and reusable fabric bags for packaging and shipping.

### REDUCING POVERTY

**8** SUPPORTED CHARITIES AND COOPERATIVES

We partnered with businesses who's mission is to eliminate slavery and reduce poverty in the communities involved in their production, including Tony's Chocolonely and Love Cocoa.
