ANNOUNCE EVENTS, EXHIBITS, SEASONS GREETINGS OR CONGRATULATIONS

MAIN STREET BANNER POLE SYSTEMS

Main Street Banner Pole Systems— Announce your community events, exhibits, seasons greetings and team or individual congratulations boldly and clearly to everyone that drives or walks down your main street with Colonial Flag's nostalgic Main Street Banner System. Our heavy duty steel poles install on either side of your street and are custom engineered for your required banner size and street span, taking into consideration local traffic height clearance requirements. The pulley system we have designed allows for access from either side of the street without the need to block traffic. So, whether your street is 50 feet wide or 100 feet wide, and whether you want a 3 ft. by 30 ft. banner suspended across your main street or a 5 ft. by 60 ft. banner, or any size for that matter, we will engineer a solution that can be used over and over again for many years.
