History

In 1982, as the one-size-fits-all mold was broken, Americh made a splash in the industry, creating an exciting and unique customized bathing experience. Expertly crafted Americh designs reflect timeless elegance and classic lines, energized by subtle European influences.

We believe simplicity is the essence of quality and enduring style. Our extensive collection of designs, broad palette of colors, and selection of finishing touches create endless possibilities, allowing the customer to design a personalized bathing experience.

Accessories

Our full array of designer finishes and accessories allow you to personalize your bath and maximize your bathing experience.

Americh Nanobubble Experience (ANEX)

ANEX is a facial for your body

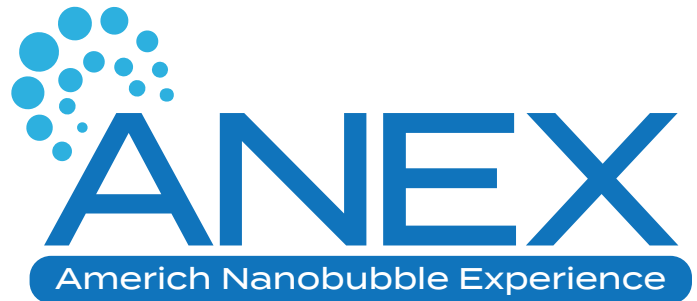

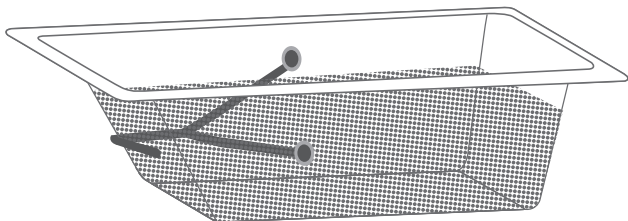

Oxygen and water play an important role in the health of our largest organ, our skin. Americh Nanobubble Experience (ANEX) deep cleans your skin, allowing your skin to absorb the maximum amount of oxygen which enhances skin cell growth, improve functioning of blood vessels and stimulates the body's immune system.

ANEX is not a massage system but a skin conditioning therapy

It has proven to be helpful with skin problems like eczema, psoriasis, rashes, itching and redness. Leaves skin feeling hydrated, soft and supple. This experience can be added to any tub that can accommodate other hydro massage options.

Nanobubbles

Skin conditioning with oxygen, not chemicals. The Nanobubble supersaturates the water with oxygenated nanobubbles. As the nanobubbles enter the water, they form a dense cloud that envelops the body in a milky looking bath. Because the Nanobubbles are only 10 microns in diameter and the skin pores are approximately 50 microns they enter the pores, exfoliating and cleaning skin pore impurities while removing oily deposits.

Accessories

Ozone

Energize your tub with Ozone! Ozone, or energetic oxygen, uses natural UV light as a powerful oxidizer of contaminants in the water. Ozone purifies naturally, even oxidizing soaps, deodorant, hair spray, cologne, makeup, perfume, body lotion, hand cream, to name a few. In addition, it helps clean the water from the natural oils on your skin. It also helps destroy bacteria, viruses, and algae. Ozone offers that care-free environment that enhances your bathing experience. The Ozone accessory is only available on whirlpool and airbath systems.

Pumps & Heaters

Syllent Pump – SYLLENT IS **GOLDEN** & WARM TOO!

As the quietest pump available, the Syllent pump provides a truly peaceful and relaxing hydrotherapy experience.

The Syllent pump also maintains a constant water temperature through heat transfer which not only eliminates the need for an inline water heater but consumes 60% less energy while increasing the water flow by 15%.

The Syllent pumps unique design allows the bather to listen to the movement of water instead of the hum and vibrations of a standard pump.

*The Syllent pump is included with the Platinum Series and available as an upgrade on both the Builder and Luxury Series.

Sustainability is more than just a program to us. It is a philosophy we embrace, encompassing everything we do from start to finish. Since 1982, we have implemented standard operating procedures that allow our employees to easily reduce, reuse, and recycle. This catalog was printed in the USA with soy inks on FSC-certified, 50% recycled (25% post-consumer), elemental chlorine free paper.
