# THE NEXT GENERATION OF TEMPORARY WALL SYSTEMS

Spartan Wall Systems offer the fastest, cleanest temporary walls, partitions, and barriers. We make good-looking, lightweight, functional walls that are easy to manoeuvre but strong enough to contain any construction project. Spartan Wall Systems give your project a clean finish and a protective sound barrier, so business can continue undisturbed on one side of the wall while heavy-duty renovations take place on the other.

**OUR PANEL SYSTEM IS REUSABLE,  
EASY TO INSTALL,  
TAKE DOWN  
AND TRANSPORT.**

# FEATURES & BENEFITS

Labor Costs**

**Sustainable  
Eliminate  
Waste**

**Brighter &  
Cleaner  
Presentation**

**Vastly  
Reduces  
Dust**

**Maintenance  
Free**

# SUSTAINABLE AND REDUCE YOUR WASTE

**“ LET’S ALL DO  
OUR PART FOR THE  
ENVIRONMENT”**

Spartan wall systems lessens the environmental impact that many construction projects carry. The reusable walls dramatically reduce waste produced on construction sites and, in particular, by limiting the use of drywall. Nearly three-quarters of all drywall eventually makes its way to landfills and, once disposed of, as it decomposes the waste has a significant negative impact on the environment.

# BETTER ROI

Limiting the use of drywall is more than beneficial for the environment. It also has no return on investment. It's a short term solution, not a sustainable investment. Building containment walls with drywall that's earmarked for the local landfill is wasted dollars in time, material and labor, and environmentally negative . Spartan Wall Systems reusable temporary containment walls offer contractors the elimination of ongoing costs of drywall for each project that will add up to significant cost savings.

**“ WHY WAIT? LET SPARTAN  
WALLS BE YOUR TRUSTED  
PARTNER TO HANDLE ALL  
YOUR TEMP WALL NEEDS ”**
