

DERMATHOD DERMA EZ JET MELA EFFECTOR AMPOULE

Specifically designed for hyperpigmentation, the Mela Effector Ampoule comes in an integrated “microneedle stimulator”.

Niacinamide and Tranexamic Acid target hyperpigmentation and help improve skin texture.

A comprehensive array of essential amino acids nourishes and fortifies the skin's barrier function, promoting optimal cellular function and resilience.

This treatment comes in a safe, sterile, disposable ampoule-integrated microneedle stimulator. The needles are made of medical-grade acryl which prevents allergies.

KEY INGREDIENTS

- **Diospyros Kaki Leaf Water + Fruit Extract**
Potent antioxidant properties, shielding skin from environmental aggressors.
- **Hydroxyethylpiperazine Ethane Sulfonic Acid (HEPES)**
Supports skin renewal and exfoliation.
- **sh-Oligopeptide-1 + Glutathione**
Reduces the appearance of fine lines and wrinkles.

BEST SUITED FOR

Mature skin, signs of aging, hyperpigmentation.

CONTRAINDICATIONS

Generally well tolerated.

Two derivatives of Diospyros Kaki Leaf Water + Fruit Extract, sourced from persimmons impart potent antioxidant properties, shielding skin from environmental aggressors.

Hydroxyethylpiperazine Ethane Sulfonic Acid (HEPES) helps revitalize the skin by promoting cellular turnover. Niacinamide and Tranexamic Acid target hyperpigmentation and help improve skin texture.

The dynamic duo of sh-Oligopeptide-1 + Glutathione promote collagen synthesis, reduces the appearance of fine lines and wrinkles, and restores youthful vitality to the skin. Pyrus Pyrifolia (Pear) Extract is enriched with vitamins and minerals, infusing the skin with hydration, while its antioxidant properties combat free radical damage, preserving skin elasticity and resilience.

Last, a comprehensive array of essential amino acids nourishes and fortifies the skin's barrier function, promoting optimal cellular function and resilience.

BASIC PROTOCOL

+ PREP THE SKIN

Cleanse the skin with Dermathod's Revive Cleansing Gel. Apply Dermathod. Priming Peel Booster Pad (optional)

+ MELA EFFECTOR AMPOULE

Without rinsing proceed by stamping the skin with the ampoule. 1 to 3 passes is recommended.

+ MASK

Apply Dermathod's Triple Revive Sheet Mask for 10-15 minutes.

+ FINISHING PRODUCTS

Finish with Ami-Sterol cream + SPF.

FAQ

+ SESSIONS + INTERVALS

Can be done every 3 to 4 weeks.

+ WHAT TO EXPECT

Clients may have light erythema due to increase in circulation.

+ CAN IT BE COMBINED WITH OTHER TREATMENTS?

Yes, you can use the Radiance ampoule at the end of most anti-aging facials.

PRECARE + POSTCARE

Follow homecare regimen based on skin concern. Do not exfoliate for 7 days. Stay out of the sun, and keep skin hydrated.
