A B O U T

This two-part treatment instantly improves inflamed acne, and symptoms of Rosacea. It's formulated with a combination of Chlorophyllin Copper Complex and Allantoin to trigger the wound healing cascade. It accelerates the healing of acne lesions, dermatitis, and strengthens the skin's barrier.

Chlorophyllin Copper Complex has antibacterial properties which kill anaerobic bacteria which may lead to further breakouts. It also regulates the production of HA in the skin, improving skin hydration and appearance.

Kit comes with 10 treatments and includes (Step 1) Omega Green Chlorophyllin Copper Complex, (Step 2) 100% Allantoin Powder, (Step 3) PDT sheet mask to further hydrate and soothe the skin. Everything you need for the basic protocol is included with purchase (except for LED)

BENEFITS

- Kills acne causing bacteria
- Accelerates the healing of acne
- Increases HA production in the skin
