

Is there such a thing as
an “everyday” bourbon?
We think so.

RESERVOIR DISTILLERY

75% Corn, 20% Wheat and 5% Rye
100% Virginia-grown

Each bottle is hand numbered by our dedicated distillers.

NOSE

Vanilla with hints of tea,
pitted fruit and tobacco

PALATE

Candied cinnamon,
caramel, burnt sugar
and butterscotch

FINISH

Balanced with a
rye kick and long
wheat tail

Reservoir® Distillery is a Double Gold award-winning craft distillery located in Richmond, Virginia. We perform every step in the distilling process in-house, from creating the mash bill to bottling the final product, using all local Virginia ingredients to create premium whiskeys.

Recognized by *Garden & Gun* as one of the “Best in the South,” Reservoir’s Hunter & Scott Bourbon is for the everyday sipper or cocktail mixer, for a neat pour at the bar or a rocks glass on the porch.

Considered the younger brother of Reservoir’s premium whiskeys, Hunter & Scott finds the same attention to detail where true personal touch is required to make exceptional whiskey. Provenance is paramount to us. Our grains are all Virginia-grown and come from farms within 45 miles of our distillery. We’ve even begun to acquire our own white oak which is crafted into barrels by a local mill and cooperage. These casks are returned to us with our signature alligator-char. The char inside our barrel imparts deep color and unparalleled flavors into our whiskeys.

Age does not equal maturity when it comes to whiskey. A balanced, nuanced whiskey is achieved over time as barrels oxidize. With our small barrel program, the quality of the distillate is supremely important when determining time with the wood. Every stage of production shows our dedication to time — from our open top fermentation process, which can take up to 11 days to utilize every flavor our yeast can provide, to our slow pot still double distillation, where depending upon barrel size, our distillate is narrow and precise.

Whether the spirit enters our large or small barrel program, each cask is monitored for progress. There is no set time for our maturation process. Every barrel is hand-tested to ensure it is fully developed and time to be bottled. Our techniques are not revolutionary, but our opinion on readiness is.

750 ML. BOTTLES AVAILABLE —45% ALC/ VOL. (90 PROOF)
