## Section 1 CHEMICAL INGREDIENTS / IDENTIFICATION INFORMATION

## A proprietary blend of minerals:

Magnesium Sulphate, Calcium Sulphate, Sodium Chloride, Potassium Chloride, Iron Fe, Potassium Iodate & Trace elements

Section 2 HAZARD IDENTIFICATION		
ADG Code	Non-Dangerous Goods according to the criteria of the Australian Dangerous Goods Code (ADG Code)	
ASCC Hazard Classification	Not Hazardous according to the criteria (NOHSC:1008(2004))	
Poisons Schedule	No Data Available	
Potential Acute Health Effects	Hazardous in case of ingestion. Slightly Hazardous, in case of large quantities may cause gastrointestinal distress and vomiting Slightly Hazardous in case of skin contact (irritant), Slightly Hazardous in case of eye contact (Irritant), In case of inhalation (Irritant), to respiratory tract.	
Carcinogenic Effects	No Data Available	
Mutagenic Effects	No Data Available	
Teratogenic Effects	No Data Available	
Developmental Toxicity	No Data Available	

Section 3 REACTIVITY DATA		
Stability	Stable under normal Conditions, Slightly Hygroscopic	
Conditions to avoid	None	
Incompatibility (Materials to Avoid)	Bromine Trifluoride, Lithium, Strong Acids.	
Hazardous Decomposition or Byproducts	None	
Polymerization Conditions to avoid	None	

Section 4 EMERGENCY AND FIRST AID PROCEDURES		
If ingested	Give several glasses of water to drink to dilute. If large amounts	
	are swallowed seek medical advice.	
Eye Exposure	Check for and remove any contact lenses and immediately flush	
	with plenty of water for up to 15 minutes, holding eyes open.	
Skin Irritation	Rinse off thoroughly with water	

Section 5 PHYSICAL AND CHEMICAL CHARACTERISTICS			
Physical State	Solid	Flash Point	No Data Available
Appearance	Crystalline & Powder	Auto Ignition Temp	No Data Available
Odor	Non	Evaporation Rate	No Data Available
Colour	Brown	Bulk Density	1.0
Physical State		Corrosion Rate	No Data Available
Vapor Pressure		Documention Temperature	No Data Available
<b>Relative Vapor Density</b>	No Data Available	Density	No Data Available
<b>Boiling / Melting Point</b>	No Data Available	Specific Heat	No Data Available
Solubility	100%	Net Propellant Weight	No Data Available
Freezing point	No Data Available	Partial size	No Data Available
Specific Gravity	No Data Available	Potential Coefficient	No Data Available

Section 6 HANDLING AND STORAGE		
Keep container dry. Do not ingest. Do not breathe dust. Never add water to product in cases of insufficient ventilation,		
wear suitable respiratory equipment. Keep away from incompatibles such as oxidizing agents, metals, acids.		
Storage	Keep container tightly closed. Keep container in cool, well	
	ventilated area.	

Section 7 STABILITY AND REACTIVE DATE		
Stability	The product is stable under normal conditions	
Instability Temperature	Not available	
Condition of instability	Not available	
Incompatibility with other substances:	Reacts to Fluoride, oxidizing agents, acids & incompatible metals Bromine trifluoride, Lithium, strong acids	
Corrosivity	Non corrosive in presence of glass	
Reactivity	Incompatible with Diazomethane, Aluminum, Magnesium, Phosphorous,	
Polymerization	Will not occur	
Hazardous Decomposition Products:	Carbon Dioxide, oxides of magnesium.	
Section 8 FIRE AND EXPLOSION HAZARD	DATA	
Calcium Sulphate	May be toxic to lungs, upper resiratory tract.	
Calcium Sulphate	Slightly explosive in presence of heat	
Carcinogenic Effects	Not available	
Mutagenic Effects	Potassium Chloride is mutinagenic for mammalian sommalian cells, bacteria and / or yeast.	
Teratogenic Effects	Not available	
Developmental Toxicity	Not available	
When a Mixture of Calcium and Magnesium: is h	eated in a current of Hydrogen, a violent explosion occurs.	
Sodium Chloride (Salt)	When heated to decomposition at very high temperature it emits toxic fumes of chlorine & sodium oxide. May evolve chlorine gas when in contact with strong acids.	
Auto-Ignition Temperature	Not available	
Flash Point	Not available	
Flammable Limits	Not available	
General Measures	Clear fire area of all non-emergency personnel. Stay up wind. Keep out of low areas. Eliminate ignition sources. Move fire exposed containers from fire area if possible without risk.	
Flammability Conditions	Non flammable solid	
Extinguishing Media	Water, Dry powder, Foam, Carbon Dioxide	
Hazardous Product of Combustion	Heating to dryness will produce obnoxious and toxic fumes	
Special Fire Fighting Instructions	Do not allow fire fighting water to reach waterways, drains or sewers. Store fire water for treatment	
Personal Protective Equipment	Fire fighters should wear a positive-pressure self contained breathing apparatus (SCBA) and protective fire fighting clothing (Including fire fighting helmet, coat, trousers, boots and gloves)	
Flash Point	No Data Available	
Lower Explosion Limit	No Data Available	
Upper Explosion Limit	No Data Available	
Auto Ignition Temp	No Data Available	
Hazchem Code	No Data Available	
Section 9 AUCIDENTAL RELEASE MEASURES		
Conoral Response Breesdure	Eliminate all sources of ignition. Increase Ventilation. Avoid	

General Response Procedure	generating dust. Stop leak if safe to do so. Isolate the danger area. Use clean, non-sparking tools and equipment.
Clean Up Procedures	Remove excess product with shovel, then rinse affected area with plenty of water
Waste Disposal	To be disposed of in accordance with federal, state and local environmental control regulations
Containment	Stop leak if safe to do so. Isolate the danger area
Decontamination	Rinse affected area with plenty of water.
