Step-by-Step Assembly

WARNINGS AND SAFE USE

WARNINGS AND FAQs

Read this entire manual before assembling the bed frame.

Keep manual after assembly to easily order replacement parts or to disassemble properly.

Assembly requires two adults. If necessary, seek professional help to assemble if you are uncertain about any of the steps listed.

Keep hardware and tools out of reach of children before assembly.

Prepare recommended area before beginning assembly.

Bed frame must be completely assembled and inspected for sharp edges or protruding hardware before use by children. Failure to do so may result in injury and/or voiding of warranty.

Missing or damaged parts? Please email info@2mamabees.com or call 833-MAMABEE (626-2233). You will need frame size and part description. Part descriptions are found on each page.

PROPER USE

- Bed frame is intended for children aged 2 to 10 years of age.
- Bed frame is designed for private at-home use only in indoor settings only.
- Bed frame is not intended for public or business use (such as daycare, preschool, nursery, or other commercial applications). Any use of this sort will void warranty.

SAFE USE

To reduce the risk of injury or death, you must follow these instructions:

- Adults should check for damaged wood, missing or loose hardware, or any sharp edges before every use.
- Replace, tighten and smooth rough edges between uses. Lubricate any moving parts when needed.
- Adults should ensure the bed frame is on a flat and level surface and does not rock due to uneven ground.
- Do not let children climb on roof of bed frame.

DISPOSAL

Disposal Instructions:

When the bed frame use is no longer desired, it should be disassembled and disposed of in such a way that no unreasonable hazards will exist at the time the unit is discarded.

WARRANTY AND MAINTENANCE

MAINTENANCE

- As part of safe use, we recommend regular checks of bed frame before use by children.
- All wooden parts are made from furniture-grade wood and sealed with a water-based sealant.
- Weathering from long-term use will cause moisture content of the wood to shift and cause cracking, warping, and fading. While these changes will not impact the integrity of the product, we advise regular maintenance to slow the speed and amount of weathering.
- In order to slow normal weathering and ensure warranty is not voided, it is required that a layer of sealant be applied to all wood surfaces every 1-2 years (yearly for areas that are humid and hot, every 2 years for areas that are dry.) Before sealing, lightly sand wood pieces where there might be rough spots. This will reduce the rate of fading.

LIMITED WARRANTY

All products carry a 1-year Replacement Warranty on all parts for manufacturer's defect (which covers wood, hardware, and accessories). Our wood carries a 5-year Warranty on rot and decay as well. These Limited Warranties do NOT cover the following:

- Labor for any inspection
- Labor for replacement of any defective item(s)
- Incidental or consequential damages
- Cosmetic defects which do not affect performance or integrity of a part or the entire product
- Vandalism, theft, improper use, failure due to loading or use beyond the capacities stated in the applicable Assembly Manual.
- Acts of nature including but not limited to wind, earthquake, storms, hail, floods, fires, or excessive water exposure
- Improper installation including but not limited to installation on uneven, unlevelled, or soft ground
- Minor twisting, warping, cracking, or any other natural occurring properties of wood that do not affect performance or integrity

2MamaBees Bed Frames have been designed for safety and quality. Modifications beyond painting could damage the structural integrity of the product and lead to injury from product failure. Any modifications will void all warranties and guarantees.

Parts Replacement -

- Cost of parts (damaged or missing) will be covered by 2MamaBees for the first year. This includes shipping & handling.
- All replacement parts after first year of ownership will be charged as follows - Discount on parts will decrease by 20% for every year of ownership of bed frame. (Example - Year 1 customer pays 20% of cost, Year 2 customer pays 40%, and so on). All shipping and handling will be covered by customer.
- Warranty is voided if product is used in any non-residential setting such as playgrounds, parks, daycares, or business settings.
- Warranty is non-transferable

This Limited Warranty gives you specific legal rights. You may have other rights as well, which vary from state to state or province to province. This warranty excludes all consequential damages; however, some states do not allow the limitation or exclusion of consequential damages, and therefore this limitation may not apply to you.

Montessori House Bed with Rails Parts List

PARTS INVENTORY Wooden Components (Not to Scale)

1X Back Rail

- Crib $1\frac{1}{8} \times 13\frac{3}{8} \times 50\frac{1}{4}$
- Twin $1\frac{1}{8} \times 13\frac{3}{8} \times 73\frac{1}{4}$
- Full $1\frac{1}{8} \times 13\frac{3}{8} \times 73\frac{1}{4}$

2X End Rail

- Crib $1\frac{1}{8} \times 13\frac{3}{8} \times 28$
- Twin $1\frac{1}{8} \times 13\frac{3}{8} \times 38$
- Full $1\frac{1}{8} \times 13\frac{3}{8} \times 54$

1X Door Rail

- Crib $1\frac{1}{8} \times 13\frac{3}{8} \times 50\frac{1}{4}$
- Twin $1\frac{1}{8} \times 13\frac{3}{8} \times 73\frac{1}{4}$
- Full $1\frac{1}{8} \times 13\frac{3}{8} \times 73\frac{1}{4}$

1X Doorway Post

- Crib $1\frac{1}{8} \times 2 \times 44\frac{1}{4}$
- Twin $1\frac{1}{8} \times 2 \times 46$
- Full $1\frac{1}{8} \times 2 \times 46$

1X Post - (corner door)

- Crib $1\frac{1}{8} \times 2 \times 48\frac{1}{4}$
- Twin $1\frac{1}{8} \times 2 \times 50$
- Full $1\frac{1}{8} \times 2 \times 50$

2X Post (corner)

- Crib $1\frac{1}{8} \times 2 \times 48\frac{1}{4}$
- Twin $1\frac{1}{8} \times 2 \times 50$
- Full $1\frac{1}{8} \times 2 \times 50$

1X Post (opposite door)

- Crib $1\frac{1}{8} \times 2 \times 48\frac{1}{4}$
- Twin $1\frac{1}{8} \times 2 \times 50$
- Full $1\frac{1}{8} \times 2 \times 50$

2X Top Beam - short

- Crib $1\frac{1}{8} \times 2 \times 28$
- Twin $1\frac{1}{8} \times 2 \times 38$
- Full $1\frac{1}{8} \times 2 \times 54$

1X Top Beam - door side

- Crib $1\frac{1}{8} \times 2 \times 50\frac{1}{4}$
- Twin $1\frac{1}{8} \times 2 \times 73\frac{1}{4}$
- Full $1\frac{1}{8} \times 2 \times 73\frac{1}{4}$

1X Top Beam - back side

- Crib $1\frac{1}{8} \times 2 \times 50\frac{1}{4}$
- Twin $1\frac{1}{8} \times 2 \times 73\frac{1}{4}$
- Full $1\frac{1}{8} \times 2 \times 73\frac{1}{4}$

4X Roof Brace

- Crib $1\frac{1}{8} \times 1\frac{3}{4} \times 20\frac{1}{2}$
- Twin $1\frac{1}{8} \times 1\frac{3}{4} \times 20\frac{1}{2}$
- Full $1\frac{1}{8} \times 1\frac{3}{4} \times 20\frac{1}{2}$

1X Roof Beam

- Crib $1\frac{1}{8} \times 2\frac{1}{4} \times 54\frac{1}{4}$
- Twin $1\frac{1}{8} \times 2\frac{1}{4} \times 73\frac{1}{4}$
- Full $1\frac{1}{8} \times 2\frac{1}{4} \times 73\frac{1}{4}$

END PANEL ASSEMBLY

1. Press end rail pins firmly into the post (opposite door). Fit top beam (short) into post at top. Repeat with one of the two identical corner posts. Drive screws through pre-drilled holes in posts to secure top beam & end rail.

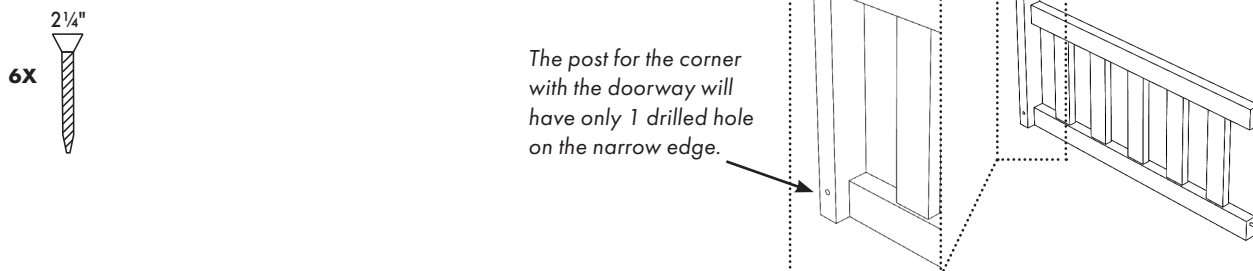

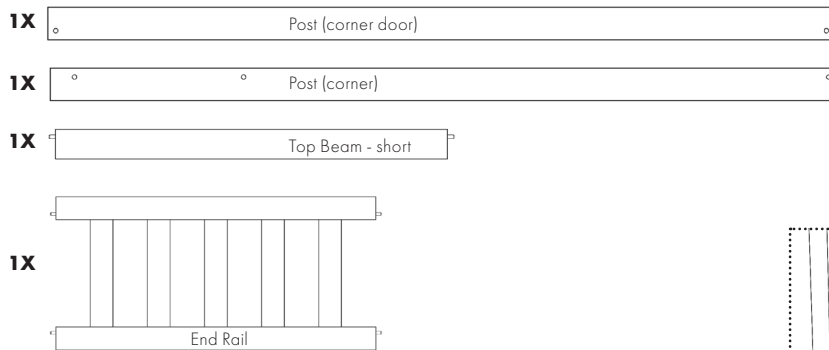

Electric Drill

24" Level

2. Repeat the process as in Step 1 with pieces shown below.

DOOR RAIL ASSEMBLY WITH POST

3. With the doorway post angled slightly, fit the pins into the bottom rail and snug onto the pin of the short rail. Drive a screw through the pre-drilled hole on the post to secure the door rail assembly.

Electric Drill

24" Level

ASSEMBLE HOUSE

4. Fit the back rail & door rail assembly into the end rails.

Be sure to level during every step

5. With the four sides assembled, drive 7 screws through the posts to secure the structure.

Use square to confirm corners are at right angles.

6. Fit the top beams into the end panels and secure with 4 screws through the posts.

Be sure to level during every step

Use square to confirm corners are at right angles.

ASSEMBLE ROOF

7. Match a roof brace to the edge of roof beam's wide side (with the beveled edge at the top), and drive a screw to secure it to the beam. Repeat for the other 3 braces.

Electric Drill

24" Level

 Be sure to level during every step

8. Place roof assembly from the previous step onto the bed. At each corner, drive a screw through the pre-drilled hole into the corner post.
