

HEIDI VORNAN

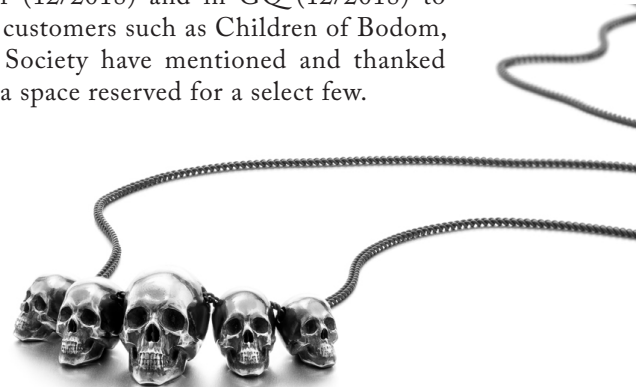

Hand made fine jewelry

If you see beautiful, different, edgy and interesting jewelry on an artist in the rock scene, you might just see a piece made by the talented Heidi Vornan. Her jewelry has been worn by international artists such as Alexi Laiho (Children of Bodom), Elize Ryd (Amaranthe), Ville Sorvali (Moonsorrow), Yoshiki (X-Japan) and Mikko Kotamäki (Swallow the Sun).

Heidi started her career as a goldsmith at Atelier Torbjörn Tillander in 2006. After many successful years of working with them she wanted to pursue her dream of creating her own designs, and she became an entrepreneur on 2011.

Music has always been a huge inspiration in her style. In jewelry designed by Heidi Vornan you see visual elements from rock music and tattoo culture. Besides the beautiful skulls and other rock oriented jewelry she makes also traditional jewelry like wedding rings, using old and demanding goldsmith techniques done by hand.

No wonder artists and media have loved her work since the beginning. Her work has been presented in a prestigious Finnish jewelry history book *Itsenäisyyden ajan suomalainen koru* (2014), *Vogue* (04/2019), *Tatler* (11/2018), *Vanity fair* (12/2018) and in *GQ* (12/2018) to name a few. Bands and loyal customers such as Children of Bodom, Swallow the Sun and Lost Society have mentioned and thanked Heidi in their album covers, a space reserved for a select few.
