

## **Tested Sleeping Pads**

Please keep in mind that this list only contains mattresses we had access to for testing. There are hundreds of mattress pads on the market we've yet to test.

The recommended size pads are 20-26 in wide x 70-78in long x 3+ in thick with a hybrid of foam or all foam padding. Please keep in mind that these are just recommendations. If you have a pad not listed and confirm a comfortable fit, please let us know at [info@heleoutdoors.com](mailto:info@heleoutdoors.com)
