## industries

- food and beverage
- distilleries
- breweries
- wineries

how to buy

## the good stuff

- **small in size, mighty in durability**  
crafted with robust, corrosion-resistant materials including polypropylene, polyethylene, and stainless steel, these jugs are built to last
- **product levels at a glance**  
translucent polyethylene jugs allows quick visibility of product levels
- **configure with color**  
caps come in a variety of colors to match your chemical management systems and quickly tell units apart

## specs

- capacity .....5 gallons (18.9 liters)
- tubing/fitting size.....jugs with suction fitting option include fittings for 1/4 in. (6.4 mm) inside diameter hose

## requirements

- liquid temperature range.....40-100 ° F (4.4-37.8 ° C)
- chemical compatibility.....chemical products used with this equipment must be formulated for this type of application and compatible with unit materials and pump seals. For more information on chemical compatibility, consult the manufacturer or SDS for your product or contact our customer service department.

## configure your product

	cap color	suction fitting	rack
