

NOTE: Post collars and bottom post protector are located inside of support tube. Bottom post protector should rest inside bottom of support tube.

NOTE: (3) removable post collars are included with umbrella base. Match your umbrella post to one of the three collars included. The small collar will fit up to a 1.30" diameter umbrella post. The medium collar will fit up to a 1.45" diameter umbrella post. The large collar will fit up to a 1.56" diameter umbrella post. With all collars removed, the tube will fit up to a 1.76" diameter umbrella post.

Assembly Instructions:

- A** - From top side of umbrella base, align slot in bottom of tube with nub in base and push support tube down firmly through center hole of base. See Figure A. Note: Tube is intended to fit snug in umbrella base. If necessary, remove post collars and tap with hammer, using block of wood or similar object to protect top of tube.
- B** - Turn base on side and attach tube to base using flat washer, split lock washer and hex head bolt as shown. Tighten firmly! See Figure B.
- C** - With base right side up, align "tab" on large collar to knob hole in tube. Attach knob by threading into support tube. See Figure C.
- D** - Insert umbrella post into patio table and support tube. Tighten knob to secure umbrella. See Figure D.

WARNING: This umbrella base is intended to be used with a patio table. With umbrella base positioned underneath table, ensure umbrella post fits through table and into support tube of umbrella base. Failure to assemble and install as instructed could result in the umbrella tipping over causing personal injury and/or property damage. It is NOT recommended to use your umbrella during periods of high wind and rain. Always take the umbrella down during high or gusting wind/rain and when not in use. If transporting, remove umbrella from table and base. Pick up and carry by holding base only.
