

California Immobilizer™

Adjustable Ladder Rack CI-00565 INSTRUCTIONS

Your new Ladder Rack will fit cargo trailers from 5 foot wide to over 8 foot wide.

Five bolts are included in your pack. Four carriage bolts and washers are used to bolt the two vertical uprights.

The bolt with two washers is designed to be placed into the extension tubes after the size has been selected and the 5/16 th. hole is drilled.

The ladder rack is best positioned in the gutter and bolted to the trailer.

Self-tapping metal screws may be used when the holes have been drilled into the wall of the trailer and into the trailer frame.

PLEASE NOTE: The ladder racks are rated for a maximum weight of 150 lbs each. These racks are designed for carrying ladders only.
