Starting point: Main entrance to space this side such as garage doors, sliding doors etc.   **Laying direction:** Female (looped) sides ← ↑ • Male (pegged) sides ↓ →

Step two: Count each tile colour from your plan above. **Optional Ramps & Corners:** Add edge ramps along level entrances to create a smooth transition between floors. Choice of female (looped) or male (pegged) is determined by which side of tile the ramp is intended for. Add looped to pegged and vice versa.
