THE TECHNICAL REPORT FOR THE RECIPE IS COMING SOON.

RECIPE - 20CL

BLACK FIG & VETIVER IN RCX

CANDLE SHACK

DESCRIPTION

INGREDIENTS FOR EACH CANDLE

1x 20cl glass jar
16.5g of Black Fig and Vetiver Fragrance Oil
148.5g of Candle Shack Ecosystem RCX Wax
1x CL12 Wick
1x 15mm Adhesive Wick Pad
1x WickClaw Tool for 20cl Glass

WAX

Candle Shack's EcoSystem Rapeseed & Coconut (RCX) is a natural wax blend. It was developed in Europe exclusively for Candle Shack and is made from rapeseed and coconut oil... and nothing else! It is free from paraffin, soy, palm, beeswax and synthetic additives.

VESSEL

Our Lotti 20cl glass is manufactured in Italy and meets the highest standards of clarity and tolerance.
Height: 84mm
Diameter: 70.5mm
Internal height: 66mm

WICK

Crafted from unbleached cotton and interwoven with a linen thread, CL candles wicks are innovative flat wicks designed to minimise afterglow and smoking while maintaining rigidity. All wicks are 110mm long with a thin paraffin coating for stability.

USAGE RECOMMENDATIONS

- We recommend heating RCX to 60°C to melt.
- Add fragrance at 60°C and stir for 60 seconds.
- The mixture is ready to pour at 38°C into slightly warmed glasses.
- If the top is uneven once set, you can flash the surface with a heat gun, or do a top up pour to get a clean finish.
- Leave the candle to cure for 2+ days for best results.

DISCLAIMER

Each report shows test results for a set of candles made by Candle Shack's R&D team for that particular recipe. The test reports are not a guarantee that all candles made to the recipe will burn in exactly the same way. Variables such as ambient temperature, air flow, or the manufacturing process can affect the burning profile of a candle, so it is recommended that candle makers conduct their own testing to ensure that they are satisfied with the performance of their product
