## Fantastic Flower Formula:

Start with the best soil possible in your planters. Place Nutra Gel in the bottom of each hole & incorporate into the soil. After planting, fertilize with Garden Cote 6 and water thoroughly with Kangaroots. Fertilize 2x weekly with Blooming & rooting on Mondays and All Purpose on Thursdays. Watch your flowers become fabulous!

## Make your lawn a Weed Free Zone!

This favorite solves many common issues typical of DRY Weed & Feeds, timing & effectiveness. It works in colder temperatures, allowing application in early Spring and late Fall (as cool as 50° temperatures). It provides the STRONGEST weed control on the market. Nothing like it compares.

With 4 active ingredients in Weed Free Zone, it gives you the quickest kill, and very best results on the most difficult weeds out there - Morning Glory, Thistle, and Clovers. Rainfast in 1 hour; you don't have to worry about this potent systemic herbicide washing off or not killing the weed down to the roots.

## Bulbs are so easy! Dig, Drop, Done!

This month (October) is prime time for planting fall bulbs to beautify your yard next spring. If you plan your garden just right, you can enjoy flowering bulbs from late March until almost Memorial Day. We have all the best varieties of bulbs we can find, and we'll even teach you how easy it is to have the best looking yard in the neighborhood next spring when your colorful bulbs hit their peak of beauty.

## Aerate, Humate & Winterize for an amazing lawn next spring!

Fall and winterizer fertilizers are the most important application for the entire year. The Original Winterizer from Ferti-lome feeds your lawn all winter long, not only to prepare it for the cold, but to strengthen and rejuvenate it for the next growing season. Combined with Humic, this packs a powerful punch to build up your soil, break down thatch and dead grass clippings, naturally aerate your soil for better water, air and fertilizer penetration, and you won't believe how amazing your lawn will look next spring.

*Warm holiday wishes  
from the Andersons.*

Effective for approximately 30 days per application, regardless of weather, rain, snow, or watering.

Available in convenient, ready-to-use liquid and granular forms.

Pleasant scented when applied, liquid and granular forms.

Powered by plants based protection. Mark's Animal Stoppers has been selling this for 14 years; Mark's Animal Stoppers is the resident deer (including 4 buck and 2 doe) on Center Street.

## Animal Stoppers

## Messinas

The best products to care for your world.™

## Fabulous Flower Formula:

Start with the best soil possible in your planters. Place Nutra Gel in the bottom of each hole & incorporate into the soil. After planting, fertilize with Garden Cote 6 and water thoroughly with Kangaroots. Fertilize 2x weekly with Blooming & rooting on Mondays and All Purpose on Thursdays. Watch your flowers become fabulous!

## Tomato Magic Formula:

Use a combination of Kangaroots, Seedling's Universal Plant Food, EZ Wet and Monterey Complete Disease Control, once a week for 4-6 weeks. You've never grown tomatoes like this before!

## Our Secret Recipe for Successful Hanging Baskets:

Monday: Fertilome Blooming and Rooting  
Thursday: Fertilome All Purpose  
Every Other Saturday: Seedling's Compost Tea  
Once A Month: GrowMore EZ Wet
