### ELV-THERMO For Asphalt

### EBV-THERMO For Metal

### EHN-A THERMO For High Profile / Tile

## MOTORIZED OPTIONS

Fakro offers the **Z-Wave** remote control system and motors - allowing remote opening and closing skylights, as well as controlling of PV powered exterior solar shades.

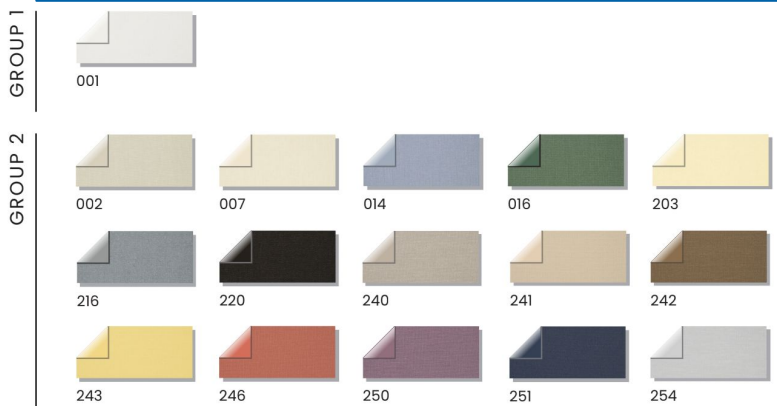

## BLINDS

**Internal Blackout Solar: ARF-Solar**  
**Internal Light Filtering Solar: ARP-Solar**  
**Internal Light Filtering Manual: ARP-Manual**  
**Internal Blackout Manual: ARF-Manual**  
**External Metal Roller Shade: ARZ-Solar**

### LIGHT FILTERING

### BLACK OUT

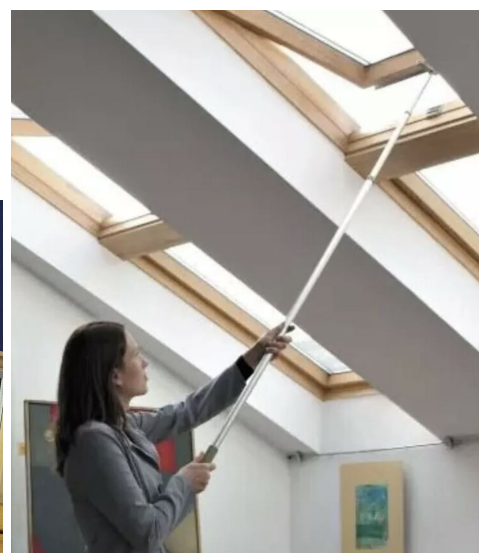

## BLIND POLE

ZST rod enables the user to operate **ARP, ARF blinds**, and **AMS insect screen** on windows in out-of-reach positions.

It also enables easy opening and closing of windows.

### ROD LENGTH

ZST Rod - extendable from:  
**3' 10" (119 cm) to 7' 1" (218 cm)**

## INSECT SCREEN

**AMS retractable insect screen** is mounted onto the interior finish of the frame opening. It is made of glass fiber netting covered with PVC and comes with white aluminium runners - which allows you to pull down the screen after the skylight is opened.
