

General information

Dimensions (ØxD):
Electro-static filter
material: Material
coarse filter: Filter

143 mm x 15 mm (5 mm electro-static filter + 10 mm coarse filter) synthetic non-woven fabric (white)
polyester filter foam PPI 20 (black, washable)
ISO Coarse 75 % according to DIN ISO 16890

Installation

Remove the existing filter and insert the pollen filter as shown. The black coarse filter can be washed out regularly under warm water. We recommend an interval of 3 months. The white electro-static filter should be replaced when the filter change indicator of the respective device lights up.
