MOVING FROM TOMORROW

Una storia di successi dal 1988
A story of successes since 1988

Sostenibili per natura
Sustainable by nature

PROFILO

ARKEMA DESIGN®, brand del gruppo Cornaglia, è da sempre legata al mondo della produzione nei vari settori: dall'arredamento, all'automotive, con l'obiettivo di essere sempre all'avanguardia per tecnologie - design - servizio al cliente - e costi competitivi.

Jean Rusconi ha progettato e disegnato tutti i nostri prodotti, attento alle esigenze del mercato, già nel 1988 ha presentato quella che è conosciuta come la prima doccia a riscaldamento solare sul Mercato.

Negli ultimi dieci anni abbiamo rilanciato questo progetto, con vasto incremento della gamma.

Pensato per tutte le esigenze grazie al design, alla qualità e al prezzo corretto, ha avuto da subito un grande successo e una crescita esponenziale nelle vendite. Crediamo molto in questo accessorio utile a tutti e abbiamo fatto importanti investimenti sulla produzione e sui modelli, che ci consentono di affrontare preparati la richiesta del mercato.

Riteniamo che, non essendo ancora conosciuto dal grande pubblico, la sua costante crescita e divulgazione sarà naturale: così come confermato dai dati di questi ultimi anni. Molti sono gli innovativi progetti in cantiere dedicati alle docce, delle quali vantiamo già alcune copie, allargando la gamma agli arredi e al garden. Siamo inoltre in grado di offrire la realizzazione di prodotti personalizzati con marchio dedicato.

ARKEMA DESIGN®, la più vasta gamma di docce solari/tradizionali, realizzata nei nostri stabilimenti di Villanova d'Asti (Torino), con tecnologie d'avanguardia, un riferimento produttivo per ottimizzare il vostro business.

Nel 2021, la casa madre Cornaglia Group, per favorirne l'ulteriore sviluppo, ha deciso di trasferire il brand ARKEMA DESIGN® ad una divisione dedicata: PLART DESIGN S.R.L.

ARKEMA DESIGN®, a brand of the Cornaglia group, has always been linked to the world of production in various sector: from furnishing to automotive with the aim of always being up to date for technologies-design-customer service and competitive costs.

Jean Rusconi has projected and drawn all our products. Focused on the needs of the Market, already in 1988 he introduced the shower that nowadays is known as the first Solar Heated Shower on the Market.

During these last ten years, we re-launched this project, with a great expansion in the range of products.

Thought for all needs, thanks to the design, to the quality and correct price, it has had from the beginning a great success with an exponential growth in sales.

We strongly believe in this useful accessory for everyone. We have made important investments in the production and on the models which makes us ready to face the requests of the market.

We think that, as the product is not yet known to the majority of people, its constant growth and diffusion will be natural, confirmed by the data of the last years. Many innovative projects dedicated to the showers are under development, enlarging the range to furnishing and garden, of which we already boast some copies. In addition, we are able to offer the production of personalized products with dedicated branding.

ARKEMA DESIGN®, the greatest range of solar/traditional showers made in our Plants in Villanova d'Asti (Turin - Italy) with forefront technologies; a production reference to optimize your business.

In 2021, in order to encourage further development, the mother company Cornaglia Group decided to transfer ARKEMA DESIGN® brand to a dedicated, specific division: PLART DESIGN S.R.L.

ARKEMA DESIGN®, brand du groupe Cornaglia est depuis toujours lié au monde de la production dans plusieurs secteurs : de l'ameublement à l'automotive, avec l'objectif d'être toujours à l'avant-garde pour les technologies- design-service au client- et coûts compétitifs.

Jean Rusconi, sensible aux exigences du Marché, a projeté et dessiné tous nos produits déjà en 1988.

Il a introduit celle qui est connue comme la première douche à chauffage solaire sur le Marché.

Pendant les dernières années nous avons relancé ce projet, avec un grand incrément de la gamme.

Pensé pour tous les exigences, grâce au design, à la qualité et au prix correct qui a eu immédiatement un grand succès et une croissance exponentielle des ventes.

Nous croyons beaucoup dans cet accessoire utile à tous, nous avons fait des importants investissements sur la production et sur les modèles, qui nous permettent de faire face préparés à la demande du Marché.

Nous retenons que, n'étant pas connu par la plupart du public, sa constante croissance et divulgation sera naturelle, confirmé des données de ces dernières années. Les projets innovants dédiés aux douches en préparation sont beaucoup, des quels nous ventons déjà quelques copies, en augmentant la gamme aux ameublements et aux jardins. Nous sommes en plus, en mesure d'offrir la réalisation des produits personnalisés, avec marque dédié.

ARKEMA DESIGN®, la plus vaste gamme de douches solaires/traditionnelles prête à livrer, réalisé dans nos usines à Villanova d'Asti (Turin- Italie), avec technologie d'avant-garde, un référence productif pour optimiser votre business. En 2021, la maison mère Cornaglia Group, pour encourager son développement, a décidé de transférer la marque ARKEMA DESIGN® vers une division dédiée: PLART DESIGN S.R.L.

ARKEMA DESIGN®, marca del grupo Cornaglia, siempre ha estado vinculado al mundo de la producción en los diversos sectores: desde el mobiliario hasta la automoción, con el objetivo de estar siempre a la vanguardia de las tecnologías: diseño, servicio al cliente y costos competitivos.

Jean Rusconi ha concebido y diseñado todos nuestros productos, atento a las necesidades del mercado, ya en 1988 presentó lo que se conoce como la primera ducha calentada con energía solar en el mercado.

En los últimos diez años hemos relanzado este proyecto, con un gran aumento en el rango.

Diseñado para todas las necesidades, gracias al diseño, la calidad y el precio correcto, ha tenido un gran éxito de inmediato y un crecimiento exponencial en las ventas.

Creemos mucho en este accesorio útil para todos, hemos hecho grandes inversiones en producción y modelos, que nos permiten enfrentarnos a la demanda del mercado.

Creemos que, dado que aún no es conocido por el público en general, su crecimiento y difusión constantes serán naturales, según confirman los datos de los últimos años. Hay muchos proyectos innovadores en la tubería dedicada a las duchas, de los cuales ya tenemos algunas copias, ampliando la gama de muebles y el jardín. También podemos ofrecer la creación de productos personalizados, con marca dedicada.

ARKEMA DESIGN®, la gama más amplia de duchas solares/tradicionales listas para su entrega, hechas en nuestras plantas de Villanova d'Asti (Turin - Italia), con tecnologías de vanguardia; una referencia productiva para optimizar su negocio.

En 2021, la empresa matriz Cornaglia Group, para fomentar un mayor desarrollo, decidió transferir la marca ARKEMA DESIGN® a una división dedicada: PLART DESIGN S.R.L.

UN MILIARDO DI GIARDINI NEL MONDO ASPETTANO LA DOCCIA SOLARE

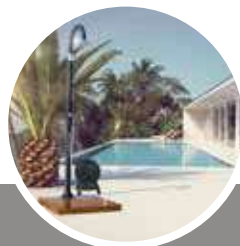

1988
"Scultura"

solare

2008
"Dada", "Spring",
"Jolly"
la linea si amplia

2010
"Happy"
la doccia più
copiata

2020
"Funny", "HotBall"
l'evoluzione della
specie

2023
"Quick", "EggBall"
tutti ovunque
per un grande
business

Arkema Design®, leader mondiale nelle docce a riscaldamento solare, integrata nella Cornaglia Group SPA, con la sua ampia gamma di prodotti, soddisfa tutte le esigenze del mercato.

Attenta all'evoluzione dei prodotti, dopo aver esaminato le osservazioni dei vari interlocutori, sono emerse le seguenti esigenze: realizzare un prodotto di rapida vendita e consegna, riducendo sensibilmente tutti i costi e ritardi dovuti allo stoccaggio, oltre a ridurre il costo di trasporto e le varie criticità annesse.

Un prodotto da banco per una consegna immediata e un prodotto senza problemi, con bassi costi di trasporto per la vendita on line; un'ampia possibilità di business.

In vista delle esigenze dettate dal mercato, abbiamo realizzato la linea QUICK: una doccia indiscutibile e comprensibile anche dai meno esperti, che grazie all' HOT BALL e WARM EGG si trasforma in doccia a riscaldamento solare, senza limitazioni di colore, con posizionamento anche all'interno.

CARATTERISTICHE PRINCIPALI:

- Smontabile, non richiede capacità di assemblaggio.
- Pallettizzabile nella dimensione dei pallet universali 80 x120 riducendo drasticamente i costi di trasporto (sia per quantità che per vendita in drop shipping).
- QUICK usata singolarmente è una doccia tradizionale, abbinata ai nostri collettori solari HOT BALL -WARM EGG, diventa una doccia a riscaldamento solare molto funzionale.
- La gamma di colori e il design rendono QUICK facilmente ambientabile nelle più svariate situazioni, compreso il settore nautico, poiché consente un rapido rimessaggio.
- Finiture eleganti e sofisticate- particolarmente interessanti nella versione - marmo- carbonio-inox lucido, oltre ai colori di tendenza.
- Versione con illuminazione per ambientazioni scenografiche anche di notte e per cabine.

Questa tecnologia permette la riduzione del consumo di acqua e energia.

Realizzata con materiali riciclabili, entra a pieno titolo in tutte le nuove strategie di riduzione dell'inquinamento e relativi sgravi fiscali.

A BILLION GARDENS IN THE WORLD ARE WAITING FOR THE SOLAR SHOWER

shower

2008
"Dada", "Spring",
"Jolly"
the line expands

2010
"Happy"
the most copied

2020
"Funny", "HotBall"
the beginning of
evolution

2023
"Quick", "EggBall"
everyone,
everywhere for
big business

Arkema Design®, a world leader in solar heated showers, integrated into Cornaglia Group SPA with its wide range of products to meet all of the market requirements.

Attentive to the evolution of the products, after examining the observations of the various stakeholders, the following requirements emerged to create a product for quick sale and delivery significantly reducing all costs and delays due to storage, as well as reducing the cost of transport and the various related criticalities.

An over-the-counter product for immediate delivery and hassle-free, low transport costs for online sales, creating a wide business opportunity.

As the needs era dictated by the market, we created the QUICK line, an unquestionable and understandable shower even for the less experienced, which thanks to the HOT BALL and WARM EGG can be transformed into a solar heated shower, with no colour restrictions (and can also be positioned indoors).

MAIN FEATURES:

- Divisible, requires no assembly skills.
- Palletisable in the size of 80 x120 universal pallets, drastically reducing transport space (both in terms of quantity and drop shipping).
- QUICK used individually is a traditional shower, which combined with our solar collectors HOT BALL -WARM EGG, becomes a very functional solar-heated shower. .
- The range of colours and design make QUICK easily adaptable to the most diverse situations, including the nautical sector, as it allows rapid storage.
- Elegant and sophisticated finishes - particularly interesting in the marble- carbon-polished stainless steel, as well as trendy colours.
- Version with lighting for scenic settings and cabins.

This technology allows the reduction of water and energy consumption.

Made from recyclable materials, it is fully compliant with all nine pollution reduction strategies and related tax breaks.

JEAN RUSCONI

Jean Rusconi nasce a Torino, città Capitale del design e delle tecnologie innovative.

Da sempre si occupa di produzione industriale legata al design, della funzione e l'innovazione, principalmente nei settori della nautica e dell'arredamento. Ha realizzato prodotti funzionali con l'obiettivo di migliorare la qualità della vita riducendo al minimo gli sprechi e incentivando una maggiore sostenibilità ambientale.

Rusconi è tra i precursori del rotazionale nel settore dell'arredamento, nel 1988 realizza "SCULTURA" la prima doccia a riscaldamento solare in seguito prodotta industrialmente, diventando un'icona per molti anni.

Successivamente, seguendo la grande evoluzione nel mondo della piscina e del giardino nascono le docce Dada, Jolly e Happy, senza dimenticare Serendipity, la chaise lounge per il relax; questi prodotti grazie alla funzionalità e al design accattivante hanno creato un mercato prima inesistente.

Oggi per affrontare le nuove sfide energetiche e ambientali, con pragmatica attenzione alla soluzione delle nuove esigenze del mercato, nascono HOT BALL e QUICK per rendere ancora più funzionali gli spazi esterni e offrire al cliente una gamma completa.

Jean Rusconi was born in Turin, the capital of design and innovative technologies.

He has forever been involved in industrial production linked to the design of function and innovation, mainly in the nautical and furnishing sectors. He created functional products that improve the quality of life by minimising waste and encouraging greater environmental sustainability.

Rusconi is among the forerunners of rotational moulding in the furniture industry. In 1988 he produced the first solar-heated shower "SCULTURA", which was later industrially produced and became an icon for many years.

From that first step following the great evolution in the pool and garden world came the Dada, Jolly and Happy showers, not forgetting the Serendipity, chaise lounge for relaxation which thanks to its functionality and attractive design created a market that did not exist before.

Today, to face the new energy and environmental challenges, with a pragmatic attention to the solution of new market needs, HOT BALL and QUICK are born to make outdoor spaces even more functional and to offer customers a complete range.

CORNAGLIA GROUP A SOSTEGNO DEL PIANETA

ECONOMIA CIRCOLARE

Per recuperare la materia prima seconda dai prodotti di scarto la Cornaglia S.p.A ha acquistato un macinatore. La materia prima seconda viene poi inviata al centro ricerche che lo analizza e ne indica i migliori utilizzi.

CIRCULAR ECONOMY

In order to recover secondary raw material from waste products, Cornaglia S.p.A. has purchased a grinder. The secondary raw material is then sent to the research centre, which analyses it and indicates the best uses for it.

RISPARMIO ENERGETICO

I 5 impianti fotovoltaici installati sui tetti degli stabilimenti producono annualmente circa 4 milioni di kWh di energia pulita evitando l'emissione di 1.600 tonnellate di CO2 ogni anno. Ulteriori aree di intervento interessano il recupero del vapore flash, l'introduzione di scambiatori di calore, la riconversione dei generatori, l'inserimento di compressori con inverter, la conversione ed illuminazione Led e la depurazione delle acque reflue.

ENERGY SAVING

The 5 photovoltaic systems installed on the roofs of the factories produce around 4 million kWh of clean energy annually, avoiding emissions of 1,600 tons of CO2 each year. Other areas of intervention concern the recovery of up to flash steam, the introduction of heat exchangers, the conversion of generators, the insertion of compressors with inverters, installation of LED lighting and purification of waste water.

RICERCA E SVILUPPO

Il Centro Ricerche riconosciuto dal Ministero dell'Istruzione dell'Università e della Ricerca, è una struttura moderna situata a Grugliasco. Vi lavorano circa 50 persone altamente specializzate, impiegate nella ricerca e nello sviluppo, nella realizzazione di prototipi e nella verifica sperimentale.

RESEARCH AND DEVELOPMENT

R&D Centre, recognised by the Ministry of Education, of the University and Research, is a modern facility located in Grugliasco. It employs around 50 highly specialised people in research and development, prototyping and experimental testing.

AVETE UN' IDEA MA NON SAPETE COME REALIZZARLA?

Noi siamo la soluzione. Con il nostro supporto viene esaminata la fattibilità del progetto. Tutti i dettagli vengono analizzati con cura con voi, per un risultato ottimale.

Possiamo realizzare ogni vostro progetto grazie alle molteplici tecnologie che possediamo.

- PROTOTIPAZIONE
- REALIZZAZIONE STAMPI
- SPECIALI TECNOLOGIE PER LA CURVATURA DEI PROFILI
- STAMPAGGIO TECNOLOGIA ROTOMOULDING, INIEZIONE E SOFFIAGGIO
- FONDERIA ALLUMINIO
- STAMPAGGIO METALLO A CALDO
- TORNITURA
- TRANSFER ROBOTIZZATO
- VERNICIATURA A POLVERE E A LIQUIDO

Tutti gli articoli presenti su questo listino possono essere realizzati con delle varianti su richiesta del Cliente da concordare con il nostro ufficio commerciale, su quantitativo minimo d'ordine.

YOU HAVE AN IDEA BUT DON'T KNOW HOW TO PUT IT TOGETHER?

We are the solution. With our support, the feasibility of the project is examined. All the details are analyzed with care with you, for an optimal result.

We can realize your project thanks to the multiple technologies that we have.

- PROTOTYPING
- MOLD PRODUCTION
- SPECIAL TECHNOLOGIES FOR PROFILES BENDING
- ROTOMOULDING TECHNOLOGY, BLOW MOLDING AND INJECTION
- ALUMINUM FOUNDRY
- FORGING
- LATHING
- ROBOT TRANSFER
- POWDER AND LIQUID COATING

All the articles present on this price list can be made with variants on Customer request to be agree with our commercial office on minimum order quantity.

VOUS AVEZ UNE IDÉE, MAIS VOUS NE SAVEZ PAS COMMENT LA RÉALISER?

Nous sommes la solution. Avec notre soutien, on examine la faisabilité du projet et on analyse tout avec soin avec vous, pour avoir un résultat optimal.

Nous pouvons réaliser votre projet grâce aux multiples technologies que nous avons à disposition.

- PROTOTYPAGE
- RÉALISATION DE MOULES
- TECHNOLOGIES SPÉCIALES CINTRAGE DES PROFILES EN ALUMINIUM
- ROTOMOULDAGE, INJECTION ET SOUFFLAGE
- FONDERIE D'ALUMINIUM
- IMPRESSION À CHAUD DE MÉTAUX
- CHARIOTAGE
- TRANSFERT ROBOTISÉ
- PEINTURE EN POUDRE ET LIQUIDE

Tous les articles de cette liste de prix peuvent être fabriqués avec des variantes à la demande du Client accepté du côté de notre bureau commercial, sur la quantité minimale de commande.

TIENES UNA IDEA, ¿PERO NO SABES ÓMO REALIZARLA?

Somos la solución. Con nuestro apoyo, examinamos la facilitación del proyecto. Todos los detalles se detenedamente con usted, para un resultado óptimo.

Podemos realizar su proyecto gracias a las múltiples tecnologías que tenemos.

- CREACION DE PROTOTIPOS
- PRODUCCION DE MOLDES
- TECNOLOGÍAS ESPECIALES PARA CURAVTURA DE PERFILES
- TECNOLOGIA DE MOLDESO ROTACIONAL, SOPLADORAS Y INYECTORAS
- FUNDICION DE ALUMINIO
- IMPRESION DE METALES EN CALIENTE
- TORNERIA
- TRANSFERENCIA ROBOTIZADA
- PINTURA EN POLVO Y EN LIQUIDA

Todos los artículos en esta lista de precios se puedan hacer con variantes a petición del cliente a convenir con nuestra oficina comercial, sobre el pedido mínimo.

SUSTAINABLE CIRCULAR ECONOMY PROJECT

Il progetto ricicli-AMO® ha la finalità di favorire con processi e atti concreti una netta sensibilizzazione rispetto ai processi di economia circolare. Ci poniamo l'obiettivo di coinvolgere sempre più la comunità imprenditoriale, divulgando i temi legati alla sostenibilità ambientale, economica e sociale, nella certezza che "la genialità" che nasce dall'incontro e dalla condivisione, possa gettare le basi per creare nuovi modelli di vita e di consumo.

Dal 2020 Plart Design ha deciso di utilizzare per i suoi processi produttivi materiale riciclabile o riciclato. A tal proposito un importante accordo è stato siglato con L'Oréal Saipo Industriale per rigenerare materiali plastici utilizzati, al fine di dare una seconda vita alla plastica producendo nuovi mezzi di raccolta da reintrodurre nello stabilimento.

The ricicli-AMO® project has the purpose of favoring a net result with concrete procedures and acts, raising awareness of circular economy processes. We set ourselves the goal to involve the business community more and more, disseminating issues related to environment sustainability, economic and social; in the certainty that "the genius" that arises from sharing, can lay the foundations to create new models of life and consumption.

From 2020 Plart Design has decided to use recyclable or recycled material for its production processes. In this regard, an important agreement was signed with L'Oréal Saipo Industriale to regenerate end-of-life plastic in order to give it a new life by producing new collection means to be reintroduced in the plant.

Le projet ricicli-AMO® a pour objectif de favoriser un résultat net avec des processus et des actes concrets une sensibilisation aux processus d'économie circulaire. Nous nous sommes fixés l'objectif de impliquer de plus en plus le monde des affaires, en diffusant les questions liées à la durabilité environnemental, économique et social, dans la certitude que « le génie » qui naît de la rencontre est du partage, peut poser les bases pour créer de nouveaux modèles de vie et de consommation.

A partir de 2020, Plart Design a décidé d'utiliser des matériaux recyclables pour ses processus de production ou recyclé. A ce titre, un accord important a été signé avec L'Oréal Saipo Industriale pour régénérer les matières plastiques en fin de vie utilisées afin de donner une seconde vie au plastique en produisant de nouveaux moyens de collecte à réintroduire dans l'usine.

El proyecto recida-AMO® tiene como finalidad favorecer un resultado neto con procesos y actos concretos Sensibilización sobre los procesos de economía circular. Nos fijamos el objetivo de involucrar cada vez más a la comunidad empresarial, difundiendo temas relacionados con la sostenibilidad. Ambiental, económica y social, en la certeza de que "el genio" que surge del encuentro es de compartir, puede sentar las bases para crear nuevos modelos de vida y consumo. Desde 2020 Plart Design ha decidido utilizar materiales reciclables para sus procesos productivos o reciclado. En este sentido, se firmó un importante acuerdo con L'Oréal Saipo Industriale para regenerar los materiales plásticos al final de su vida útil utilizados para darle una segunda vida al plástico mediante la producción de nuevos medios de recolección para ser reintroducidos en la planta.

SUSTAINABLE CIRCULAR ECONOMY PROJECT

 In questo momento è fondamentale pensare in termini di Green Economy seguendo un modello di sviluppo sostenibile che tenga conto dell'impatto ambientale derivante dal progresso industriale. L'obiettivo è il modello di economia circolare, un modello di sviluppo scelto nel 2015 dalla Commissione Europea a seguito del World Economic Forum di Davos nel 2014.

La Vision di ARKEMA, azienda impegnata nel riciclo della plastica, individua nella sostenibilità la prospettiva e il futuro del mercato della plastica.

Attraverso attività di innovazione e ricerca e sviluppo, ARKEMA ha sviluppato prodotti in polvere dedicati allo stampaggio rotazionale, una vera innovazione per la produzione di beni durevoli in un'ottica di sostenibilità.

Nel mondo di oggi, fare affari non significa solo generare profitti, ma bensì andare oltre il core business, assumendosi la responsabilità sociale e ambientale delle proprie scelte.

 In this moment it is essential to think in terms of Green Economy by following a sustainable development model that takes into account the environmental impact as a result of industrial progress. The goal is the circular economy model, a development model chosen in 2015 by the European Commission following the World Economic Forum in Davos in 2014. The Vision of ARKEMA, a company committed to the recycling of plastics, identifies the prospect and future of the plastics market in sustainability.

Through innovation and R&D activities, ARKEMA developed powder products dedicated to rotational molding, a true innovation for the production of durable goods with a view to sustainability.

In today's world, doing business is not just about generating profits. Companies are realizing that the Mission must know how to go beyond the core business, taking social and environmental responsibilities of their choices.

RICICLO DELLA PLASTICA PLASTIC RECYCLING

 Le materie plastiche di per sé non sono biodegradabili, possono resistere all'azione degli agenti atmosferici anche per centinaia di anni, ma se incenerite, generano sostanze tossiche, come la diossina.

Riciclare i rifiuti in plastica è il metodo più efficace per il loro smaltimento, tuttavia è possibile solo per alcuni tipi di plastica, e comporta costi e risultati differenti a seconda del materiale utilizzato.

 Plastic materials are not biodegradable, they can withstand weathering for hundreds of years. If incinerated, they generate toxic substances such as dioxin.

Recycling plastic waste is the most effective method of disposal which is only possible for certain types of plastic, and involves different costs and results depending on the material used.

CONFEZIONE

IMBALLAGGIO FAMIGLIA

Tutti gli imballaggi sono stati progettati seguendo un'unica linea grafica, in modo da risultare visivamente il più possibile uniformi.

IMBALLAGGIO ECOLOGICO

L'imballo è tutto in cartone vulcanico, riutilizzabile più volte e riciclabile al 100%.

ESPORTAZIONE CERTIFICATA

tutte le confezioni sono certificate e conformi alle normative europee normative sull'esportazione, al fine di garantire la massima sicurezza nel settore dei trasporti.

PACKAGING

PACKAGING

All packaging has been designed following a single graphic line, to be as visually uniform as possible.

ECOLOGICAL PACKAGING

The packaging is all made of vulcanic cardboard, reusable several times and 100% recyclable.

CERTIFIED EXPORT

all packages are certified and comply with European export regulations, in order to guarantee maximum safety in the field of transport.

PICCOLE DIMENSIONI PER UNA GRANDE DOCCIA

SMALL SIZE FOR A BIG SHOWER

Packaging di dimensioni ridotte con maniglia, trasportabili in auto, installazione e manutenzione semplici, misure palletizzabili su europallet.

Un prodotto in linea delle nuove direttive per riduzione consumi energetici riciclo dei materiali, bassi costi di trasporto, la risposta perfetta alla nuove esigenze del mercato distributivo e del consumatore.

Reduced packaging dimensions with handles, transportable by car, simple installation and maintenance and palletizable on europallets.

A product in line with the new directives for reducing energy consumption, recycling materials and low transport costs. The perfect response to the new needs of the distribution market and user.

Packaging de dimensions réduites avec poignée, transportable en voiture, installation et maintenance simple, paletisation sur europalettes.

Un produit conforme aux nouvelles directives de réduction de la consommation d'énergie, de recyclage des matériaux, de faibles coûts de transport, la réponse parfaite aux nouveaux besoins du marché de la distribution et du utilisateur.

Embalaje de reducidas dimensiones con asa, transportable en coche, instalación y mantenimiento simple, paletizable sobre europalets.

Un producto en línea con las nuevas directivas de reducción del consumo energético, reciclaje de materiales, bajos costes de transporte, la respuesta perfecta a las nuevas necesidades del mercado de la distribución y del usuario.

L'INNOVAZIONE DELLA QUICK FOTOVOLTAICA

THE INNOVATION OF THE PHOTOVOLTAIC QUICK

Il potenziale di questi modelli è avere la possibilità di installare la doccia in un luogo chiuso, ad esempio, si può montare all'interno delle cabine delle spiagge, e posizionando il pannello fotovoltaico all'esterno, si avrà il corretto funzionamento della luce a led.

La lampadina è da 12 volt, facilmente reperibile in commercio.

The potential of these models is to be able to install the shower in an enclosed location, for example, it can be mounted inside beach cabins, and by placing the photovoltaic panel outside, the LED light will work properly.

The bulb is a 12-volt bulb that is readily available on the market.

Le potentiel de ces modèles réside dans la possibilité d'installer la douche dans un endroit fermé, par exemple à l'intérieur d'une cabine de plage. Par exemple, elle peut être installée à l'intérieur de cabines de plage, et en plaçant le panneau photovoltaïque à l'extérieur, la lumière LED fonctionnera correctement.

L'ampoule est une ampoule de 12 volts que l'on trouve facilement sur le marché.

El potencial de estos modelos es poder instalar la ducha en un lugar cerrado, por ejemplo ejemplo, se puede montar en el interior de cabinas de playa, y colocando el panel fotovoltaico en el exterior, la luz LED funcionará correctamente.

La bombilla es de 12 voltios y se encuentra fácilmente en el mercado.

QUALE SCEGLIERE? WHICH ONE TO CHOSE?

HOT BALL

Hot Ball serie 2.00 è un collettore solare dal design innovativo, facile da installare e trasportare che, grazie alla sua forma riesce a sfruttare al massimo l'irradiazione solare.

Realizzata in polietilene termoindurente resistente al calcare e alle correnti galvaniche acide.

L'innovativa struttura la rende praticamente indistruttibile e quindi adatta all'utilizzo in condizioni di emergenza (es. protezione civile etc).

Permette di avere acqua calda dove serve senza sprechi e costi di energia: dal giardino al campeggio, alle grandi manifestazioni, l'allevamento, spiagge e hotel, eventi di ogni genere, un perfetto di supporto al barbecue, per il camper o per lavare gli animali domestici.

- HB 200 per docce, lavandini o erogatori predisposti con miscelazione calda e fredda
- HB 240 con miscelatore per docce, lavandini o erogatori senza miscelatore calda fredda
- HB 270 con miscelatore termostatico per docce, lavandini o erogatori dove si desidera una temperatura programmata.

La versione Hybrid o /80 è una soluzione unica sul mercato per uso professionale, in quanto è in grado di garantire acqua calda in ogni condizione climatica.

Accessorio utile a tutti coloro che per lavoro o svago vivono gli spazi esterni.

- HB 200/80 (idem) per utilizzo anche notturno e invernale o in assenza di sole.
- HB 240/80 (idem) per utilizzo anche notturno e invernale o in assenza di sole.
- HB 270/80 (idem) per utilizzo anche notturno e invernale o in assenza di sole.

HOT BALL

Hot Ball Series 2.00 is a solar collector with an innovative design, which thanks to its shape makes maximum use of sunlight radiation. Easy to install and to transport.

It is made of thermosetting polyethylene that is resistant to limescale and galvanic acid currents.

The innovative structure makes it practically indestructible and therefore suitable for use in emergency conditions (e.g. civil protection etc.).

Have hot water wherever you need it without waste and energy costs: from the garden to the campsite to large-scale events on beaches and in hotels, in your garden for showering, washing pets or whatever else, perfect support for your barbecue or motorhome.

- HB 200 for showers, washbasins or dispensers prepared with hot and cold mixers
- HB 240 with mixer for showers, washbasins or dispensers without hot-cold mixer
- HB 270 with thermostatic mixer for showers, washbasins or spouts where a programmed temperature is desired.

The Hybrid /80 version is a unique solution on the market for professional use, as it is able to guarantee hot water in all weather conditions.

A useful accessory for all those who experience outdoor spaces for work or leisure.

- HB 200/80 ditto for use at night and in winter or in the absence of sunlight.
- HB 240/80 ditto for use at night and in winter or in the absence of sunlight.
- HB 270/80 ditto for use at night and in winter or in the absence of sunlight.

LEQUEL CHOISIR? ¿CUÁL ELEGIR?

HOT BALL

Hot Ball Series 2.00 est un capteur solaire au design innovant, facile à installer et à transporter, qui, grâce à sa forme, exploite au maximum le rayonnement solaire.

Il est fabriqué en polyéthylène thermodurcissable résistant au calcaire et aux courants galvaniques acides.

Sa structure innovante le rend pratiquement indestructible et donc apte à être utilisé dans des conditions d'urgence (par exemple, protection civile, etc.).

Disposez d'eau chaude là où vous en avez besoin, sans gaspillage ni coûts énergétiques, du jardin au camping en passant par les grandes manifestations plages et hôtels, événements de toutes sortes, dans votre jardin pour prendre une douche, laver les animaux domestiques ou autre, support parfait pour votre barbecue ou votre camping-car.

- HB 200 pour douches, lavabos ou distributeurs préparés avec mélangeur chaud et froid
- HB 240 avec mélangeur pour douches, lavabos ou distributeurs sans mélangeur chaud-froid
- HB 270 avec mélangeur thermostatique pour douches, lavabos ou bacs où une température programmée est souhaitée.

La version Hybrid /80 est une solution unique sur le marché pour un usage professionnel, car elle est capable de garantir de l'eau chaude dans toutes les conditions climatiques.

Un accessoire utile pour tous ceux qui fréquentent les espaces extérieurs pour le travail ou les loisirs.

- HB 200/80 idem pour une utilisation de nuit et en hiver ou en l'absence de lumière solaire.
- HB 240/80 idem pour une utilisation de nuit et en hiver ou en l'absence de lumière solaire.
- HB 270/80 idem pour une utilisation de nuit et en hiver ou en l'absence de lumière solaire.

HOT BALL

Hot Ball Series 2.00 es un colector solar con un diseño innovador, fácil de instalar y transportar, que gracias a su forma aprovecha al máximo la radiación solar.

Está fabricado en polietileno termoendurecible resistente a la cal y a las corrientes galvánicas ácidas.

Su innovadora estructura la hace prácticamente indestructible y, por tanto, adecuada para su uso en condiciones de emergencia (por ejemplo, protección civil, etc.).

Disponga de agua caliente donde la necesite sin derroches ni costes energéticos, desde el jardín al camping pasando por grandes eventos playas y hoteles, eventos de todo tipo, en su jardín para ducharse, lavar mascotas o cualquier otra cosa, soporte perfecto para su barbacoa o autocaravana.

- HB 200 para duchas, lavabos o dispensadores preparados con mezclador de agua caliente y fría
- HB 240 con mezclador para duchas, lavabos o dispensadores sin mezclador frío-calor
- HB 270 con mezclador termostático para duchas, lavabos o surtidores en los que se desee una temperatura programada.

La versión Hybrid /80 es una solución única en el mercado para uso profesional, ya que es capaz de garantizar agua caliente en todas las condiciones meteorológicas.

Un accesorio útil para todos aquellos que viven los espacios exteriores por motivos de trabajo o de ocio.

- HB 200/80 ídem para uso nocturno e invernal o en ausencia de luz solar.
- HB 240/80 ídem para uso nocturno e invernal o en ausencia de luz solar.
- HB 270/80 ídem para uso nocturno e invernal o en ausencia de luz solar.

L'innovazione del collettore solare

The solar collector innovation

 Nella filosofia di Arkema e Jean Rusconi, tutti prodotti sono studiati e realizzati per offrire vantaggi all'utilizzatore, senza alcuna controindicazione. Viene prestata grande attenzione al design, alla semplicità d'utilizzo e all'innovazione.

La linea Collettori raggiunge il massimo di questi obiettivi differenziandosi dagli innumerevoli prodotti esistenti.

Solar collector 2.0 rappresenta l'apice di questa filosofia, che consente un risparmio energetico e idrico, eliminando i limiti delle docce a riscaldamento solare e tradizionale, dovuti principalmente al colore, posizionamento, distanza dalla fonte di calore, generando acqua riscaldata dal sole per qualsiasi utilizzo.

SEMPLICITA' DI UTILIZZO E DI MONTAGGIO

Posizionato al sole, un collettore solare non necessita di alcun accorgimento. E' facilmente trasportabile; il collegamento dei tubi non necessita di installatori professionisti; è modulabile all'infinito permettendo di ottenere grandi quantità di acqua calda.

La differenza sostanziale dagli altri prodotti, è la resistenza al calcare, agli urti, alle cadute e a qualsiasi evento atmosferico (anche estremo) rendendolo un prodotto unico insuperabile anche nella versione Hybrid.

 In the philosophy of Arkema and Jean Rusconi, all products are designed and manufactured to offer benefits to the user without any counterindications. Great attention is paid to design, ease of use and innovation.

The manifold line achieves the maximum of these objectives by differentiating itself from the countless existing products.

Solar Collector 2.0 represents the pinnacle of this philosophy, which allows energy and water savings, eliminating limits of solar and traditional heated showers mainly due to the color, positioning, distance from the heat source, generating water heated by the sun for any use.

SIMPLICITY OF USE AND ASSEMBLY

Positioned in the sun, a solar collector does not require any precautions. It is easily transportable; the connection of the pipes does not require professional installers; it can be modulated infinitely allowing you to obtain large quantities of hot water.

The main difference from the other products is the resistance to limestone, to impacts, and to any atmospheric event (even extreme) making it a unique product that cannot be beaten even in the hybrida version.

L'innovation en matière de capteurs solaires

La innovación en colectores solares

 Dans la philosophie d'Arkema et de Jean Rusconi, tous les produits sont conçus et fabriqués pour offrir des avantages à l'utilisateur, sans aucune contre-indication. Une grande attention est accordée au design, à la facilité d'utilisation et à l'innovation.

La ligne Collector atteint le maximum de ces objectifs en se différenciant des innombrables produits existants.

Le capteur solaire 2.0 représente le summum de cette philosophie, qui permet des économies d'énergie et d'eau, éliminant les limites des douches à chauffage solaires et traditionnelles, principalement en raison de la couleur, du positionnement, de la distance de la source de chaleur, générant de l'eau chauffée par le soleil pour toute utilisation.

SIMPLICITÉ D'UTILISATION ET DE MONTAGE

Positionné au soleil, un capteur solaire ne nécessite aucune précaution, il est facilement transportable ; le raccordement des tuyaux ne nécessite pas d'installateurs professionnels; il peut être modulé à l'infini, vous permettant d'obtenir de grandes quantités d'eau chaude.

La principale différence avec les autres produits est la résistance au calcaire, aux chocs, aux chutes et à tout événement atmosphérique (même extrême) ce qui en fait un produit unique et inégalé même dans la version hybrida.

 En la filosofía de Arkema y Jean Rusconi, todos los productos están diseñados y fabricados para ofrecer beneficios al usuario, sin contraindicaciones. Se presta gran atención al diseño, la facilidad de uso y la innovación.

La línea de Colectores logra el máximo de estos objetivos diferenciándose de los innumerables productos existentes.

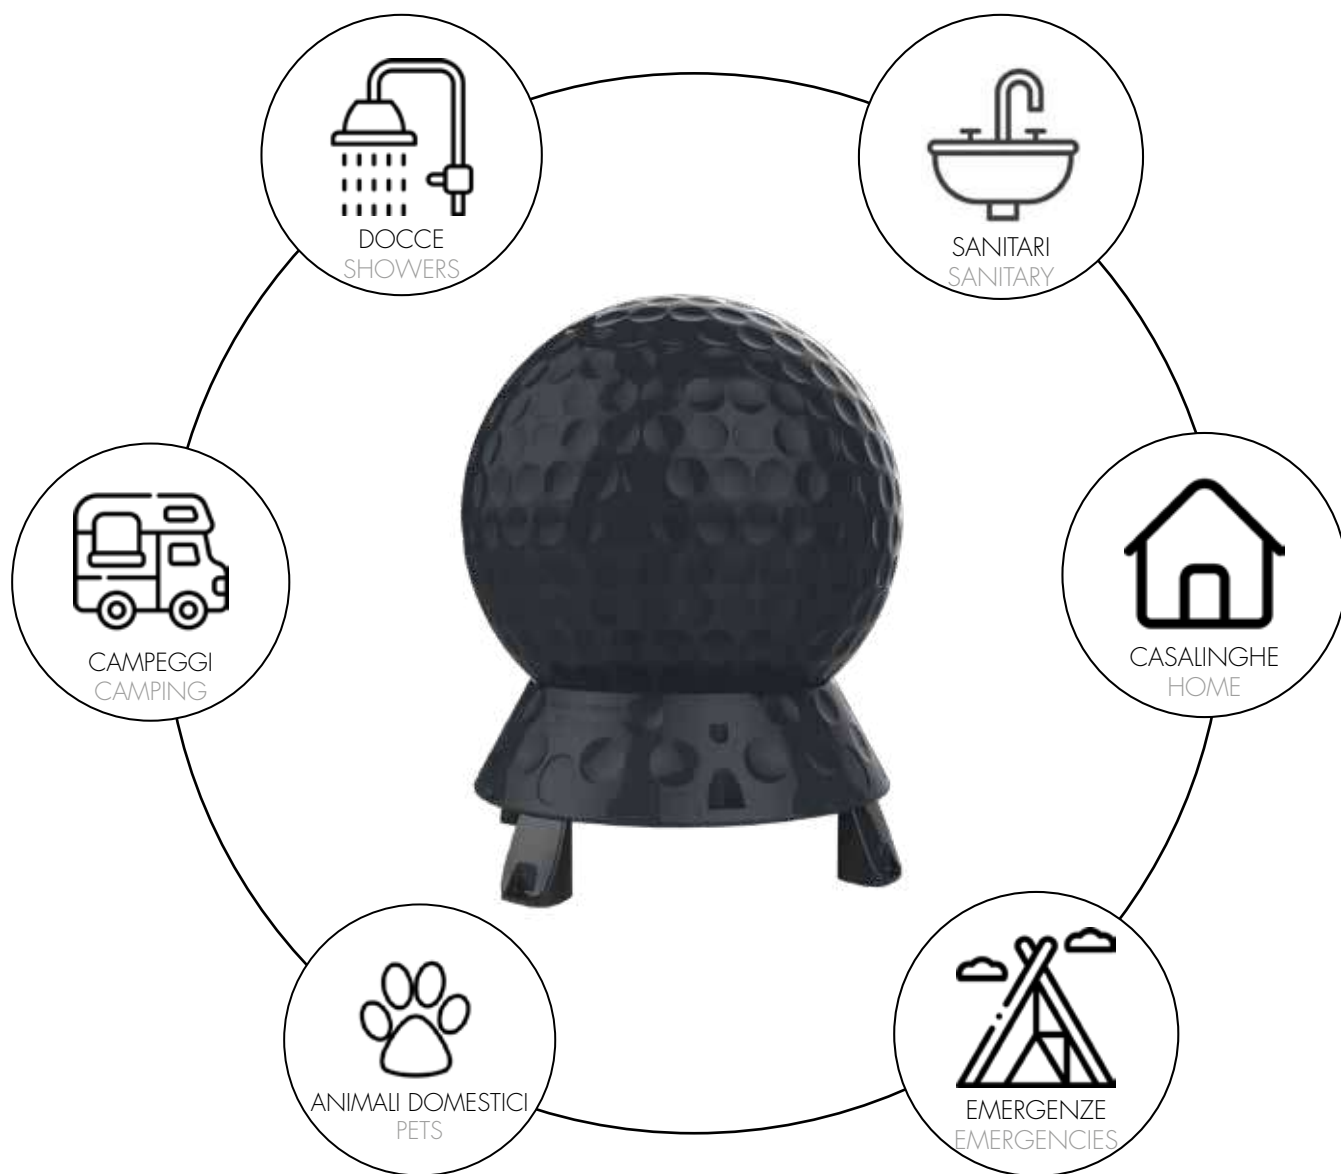

El colector solar 2.0 representa la cúspide de esta filosofía, que permite ahorrar energía y agua, eliminando los límites de las duchas solares y tradicionales calentadas, principalmente por el color, posicionamiento, distancia de la fuente de calor, generando agua calentada por el sol para cualquier uso.

SIMPLICIDAD DE USO Y MONTAJE

Colocado al sol, un colector solar no requiere precauciones, es fácilmente transportable; la conexión de las tuberías no requiere instaladores profesionales; se puede modular infinitamente, lo que le permite obtener grandes cantidades de agua caliente.

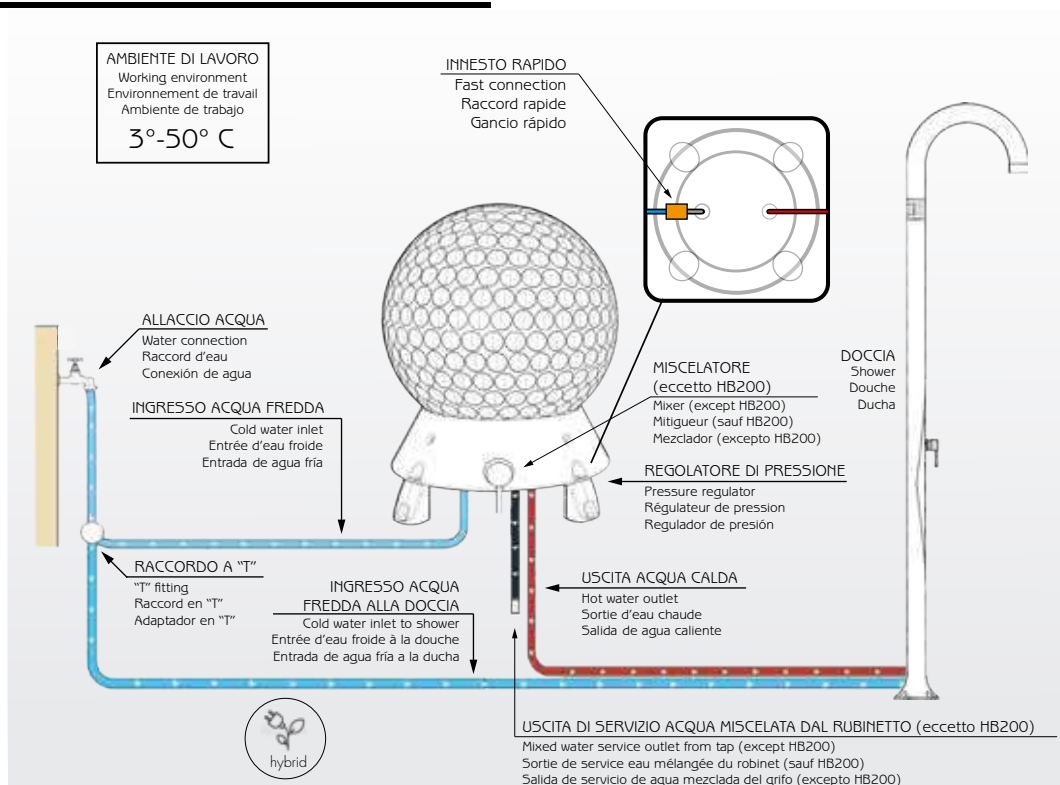

La principal diferencia con el resto de productos es la resistencia a la piedra caliza, a los impactos, a las caídas y a cualquier evento atmosférico (incluso extremo) lo que lo convierte en un producto único e insuperable incluso en la versión híbrida.

QUANDO SCEGLIERE SUNKEPT? WHEN SHOULD ONE CHOOSE THE SUNKEPT?

SUN KEPT

- Sun kept serie 1.00 risolve tutti i problemi dei tradizionali scambiatori solari, realizzato in speciali resine termoindurenti, non è attaccabile da calcare o correnti galvaniche acide, è praticamente indistruttibile, può essere facilmente trasportabile, si mette in funzione in meno di un minuto e non necessita di particolari spazi.

- La sua forma le consente di sfruttare al massimo l'irradiazione solare, senza nessuna attenzione al posizionamento, può anche essere usato come seduta, un accessorio utile a tutti coloro che vogliono sfruttare al massimo la loro piscina allungandone la stagionalità, senza costi e manutenzioni. La sua forma e lo speciale disegno superficiale le consente di non essere aggredibile, anche in condizioni atmosferiche estreme, a differenza di tutti gli altri prodotti sul mercato.

- Siamo certi di aver realizzato un prodotto unico, innovativo, di indiscutibile utilità e funzionalità. Oltre alla piscina può essere anche utilizzato per impianti di riscaldamento e scambiatori di calore.

- Collegabili in serie o in parallelo, possono produrre acqua calda secondo le necessità, come tutti i prodotti di questo tipo, SK100 può essere utilizzata solo su circuiti aperti e non deve mai andare in pressione: in ogni caso una valvola di sicurezza salvaguarda il prodotto in caso di errori o incidenti.

- Questo particolare prodotto viene utilizzato per riscaldare la superficie delle piscine.

- Una Sunkept può riscaldare una piscina di 2x3m.

SUN KEPT

- Sun kept series 1.00 solves all the problems of traditional solar heat exchangers. It is made of special thermosetting resins which cannot be attacked by acid galvanic currents and is practically indestructible. It can be easily transported and is ready to use in less than a minute, and does not require any special space.

- Its shape allows to make the most of the sun's rays, without any attention to positioning and can also be used as a seat. A useful accessory for all those who want to make the most of their pool by extending its seasonality, without costs and maintenance. Its shape and special surface design mean that it is not susceptible to any sort of damage, even in extreme weather conditions, unlike all the other products on the market.

- We are confident that we have created a unique, innovative product of unquestionable utility and functionality, that in addition to the pool, can also be used for heating systems and heat exchangers.

- It can be connected in series or in parallel and can produce hot water as required. Like all products of this type, SK100 can only be used on open circuits and must never be pressurised. In all cases a safety valve safeguards the product in the event of errors or accidents.

- This particular product is used to heat the surface of swimming pools.

- A Sunkept can heat a 2x3m pool.

QUAND CHOISIR SUNKEPT? ¿CUÁNDO ELEGIR SUNKEPT?

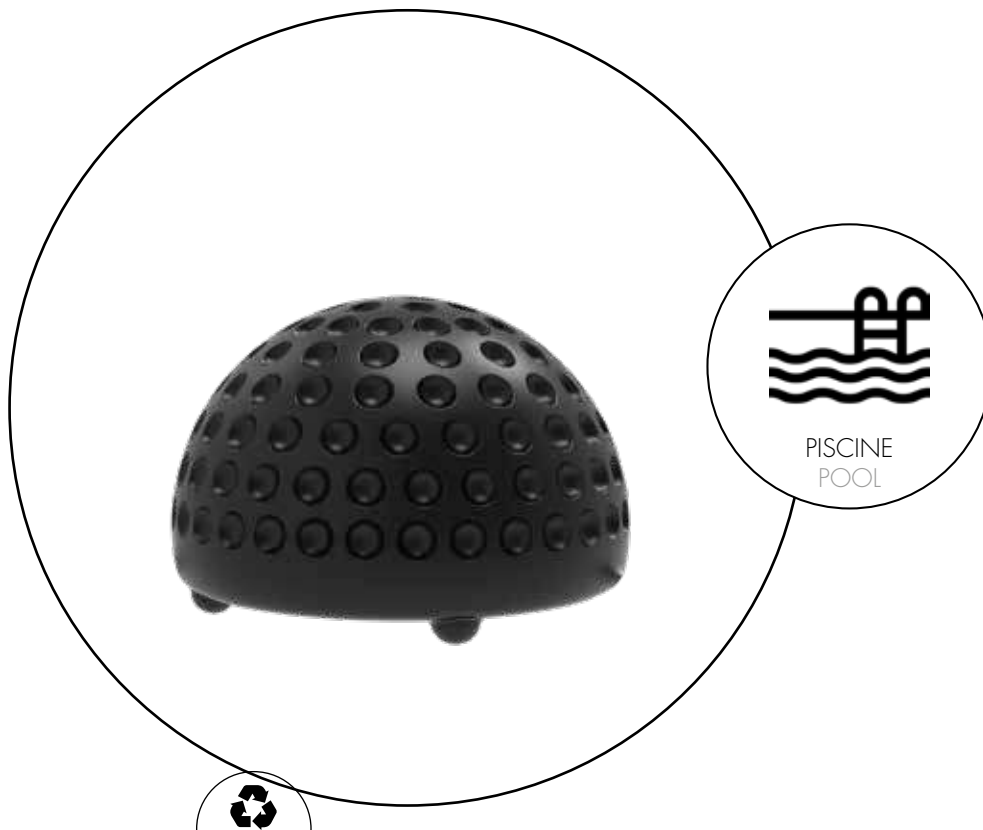

SUN KEPT

- Sun kept série 1.00 résout tous les problèmes des échangeurs de chaleur solaires traditionnels: il est réalisé avec des résines thermodurcissables spéciales, il n'est pas attaqué par les courants galvaniques acides, il est pratiquement indestructible, il peut être facilement transporté, il est prêt à être utilisé en moins d'une minute et il ne nécessite pas d'espace particulier.
- Sa forme lui permet de profiter au maximum des rayons du soleil, sans aucune attention au positionnement, et il peut également être utilisé comme siège, un accessoire utile pour tous ceux qui veulent profiter au maximum de leur piscine en prolongeant sa saisonnalité, sans coûts et sans entretien. Sa forme et la conception spéciale de sa surface font qu'il n'est pas susceptible d'être attaqué, même dans des conditions climatiques extrêmes, contrairement à tous les autres produits du marché.
- Nous sommes convaincus d'avoir créé un produit unique et innovant, d'une utilité et d'une fonctionnalité incontestables, qui, outre la piscine, peut également être utilisé pour les systèmes de chauffage et les échangeurs de chaleur.
- Comme tous les produits de ce type, le SK100 ne peut être utilisé que sur des circuits ouverts et ne doit jamais être sous pression ; dans tous les cas, une soupape de sécurité protège le produit en cas d'erreur ou d'accident.
- Ce produit est utilisé pour chauffer la surface des piscines.
- Un Sunkept peut chauffer une piscine de 2x3m.

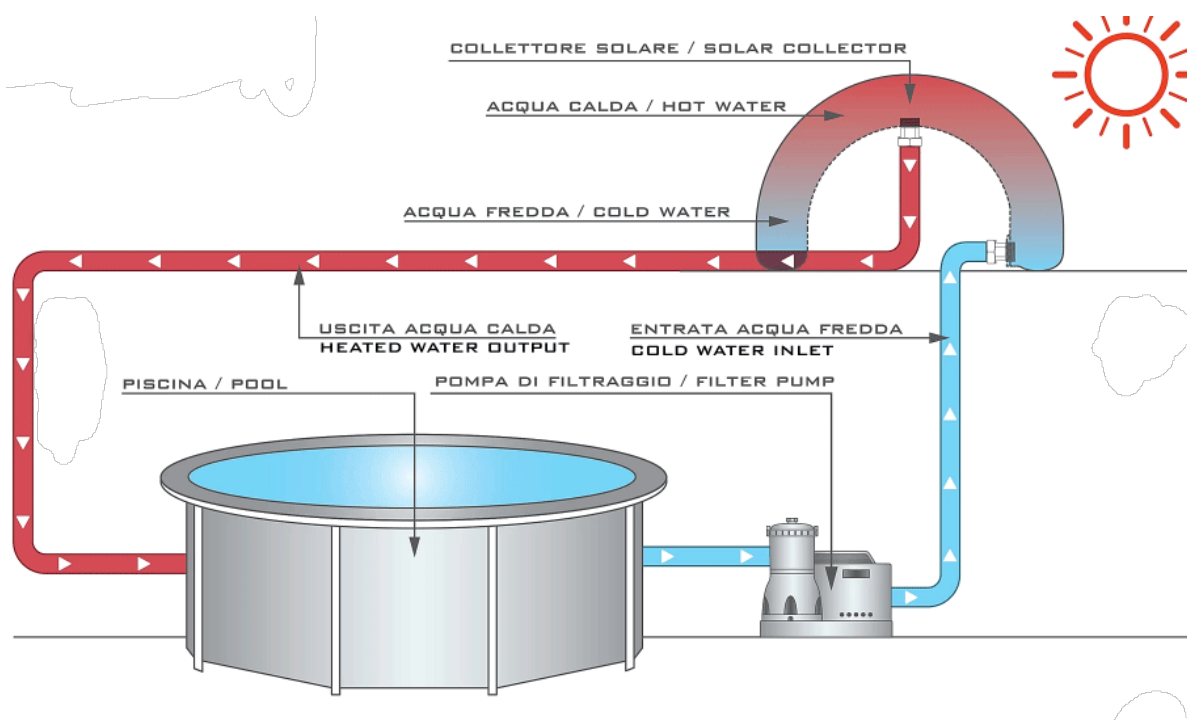

SUN KEPT

- Sun kept serie 1.00 resuelve todos los problemas de los intercambiadores solares tradicionales. Está fabricado con resinas termoendurecibles especiales, no lo atacan las corrientes galvánicas ácidas, es prácticamente indestructible, se puede transportar fácilmente y está listo para usar en menos de un minuto, y no requiere ningún espacio especial.
- Su forma le permite aprovechar al máximo los rayos del sol, sin tener que prestar atención a su colocación, y también puede utilizarse como asiento, un accesorio útil para todos aquellos que quieran sacar el máximo partido a su piscina ampliando su estacionalidad, sin costes ni mantenimiento. Su forma y el diseño especial de su superficie hacen que no sea susceptible de sufrir ataques, incluso en condiciones climáticas extremas, a diferencia de todos los demás productos del mercado.
- Estamos seguros de haber creado un producto único, innovador y de indudable utilidad y funcionalidad que, además de para la piscina, puede utilizarse para sistemas de calefacción e intercambiadores de calor.
- Se pueden conectar en serie o en paralelo y pueden producir agua caliente según las necesidades. Como todos los productos de este tipo, SK100 sólo se puede utilizar en circuitos abiertos y nunca debe estar presurizado, en todos los casos una válvula de seguridad salvaguarda el producto en caso de errores o accidentes.
- Este producto se utiliza para calentar la superficie de las piscinas.
- Un Sunkept puede calentar una piscina de 2x3m.

Se utiliza sobre todo para piscinas elevadas.

QUANDO SCEGLIERE EGGBALL? WHEN SHOULD ON CHOOSE THE EGGBALL?

EGGBALL

Eggball serie 2.00 è un collettore solare dal design innovativo, facile da installare e da trasportare. Come le Hotball grazie alla sua forma riesce a sfruttare al massimo l'irradiazione solare, è realizzata in polietilene termoindurente resistente al calcare e alle correnti galvaniche acide.

Consente un risparmio energetico ed idrico, eliminando i limiti delle docce a riscaldamento solare, dovuti principalmente al colore, posizionamento, distanza dalla fonte di calore, generando acqua riscaldata dal sole per qualsiasi utilizzo.

Un prodotto innovativo in linea con le nuove direttive; la risposta perfetta alle nuove esigenze del mercato distributivo e del consumatore: per ridurre i consumi energetici, riciclo dei materiali, bassi costi di trasporto.

EGGBALL

Eggball series 2.00 is a solar collector with an innovative design, easy to transport and install. Like the Hotballs, thanks to their shape, manage to make the most of solar radiation, and is made of thermosetting polyethylene which is resistant to limescale and galvanic acid currents.

The EggBall saves energy and water eliminating the limitations of solar-heated and traditional showers. Mainly due to: colour, positioning and distance from the heat source; generating heated water from the sun for any use.

An innovative product in line with the new directives for reduced energy consumption, recycling of materials and low transport costs: the perfect response to the new needs of the distribution market and the consumers.

EGGBALL

Eggball série 2.00 est un capteur solaire au design innovant, facile à installer et à transporter, comme les Hotballs grâce à sa forme il est capable de tirer le meilleur parti de la radiation solaire, il est fabriqué en polyéthylène thermodurcissable qui résiste au calcaire et aux courants galvaniques acides.

Il permet d'économiser de l'énergie et de l'eau, en éliminant les limitations des douches solaires et traditionnelles, des douches solaires et traditionnelles, principalement en raison de la couleur, du positionnement, de la distance par rapport à la source de chaleur.

source de chaleur, en générant de l'eau chauffée par le soleil pour tout usage.

Un produit innovant en ligne avec les nouvelles directives pour la réduction de la consommation d'énergie, le recyclage des matériaux, les faibles coûts de transport; la réponse parfaite aux nouveaux besoins du marché de la distribution et du consommateur.

EGGBALL

Eggball serie 2.00 es un colector solar con un diseño innovador, fácil de instalar y transportar, al igual que los Hotballs gracias a su forma es capaz de aprovechar al máximo la radiación solar, está fabricado en polietileno termoendurecible resistente a la cal y a las corrientes galvánicas ácidas.

Ahorra energía y agua, eliminando las limitaciones de las duchas solares y tradicionales, debidas principalmente al color, la colocación, la distancia a la fuente de calor fuente de calor, generando agua calentada por el sol para cualquier uso.

Un producto innovador en línea con las nuevas directivas de reducción del consumo energético, reciclaje de materiales, bajo coste de transporte; la respuesta perfecta a las nuevas necesidades del mercado de la distribución y del consumidor.

SERENDIPITY[®] CHAISE

 Chaise Longue in polietilene dalla superficie in effetto stone che le dà un valore aggiunto. Le imperfezioni sono volute per conferire all' oggetto un effetto stone più naturale, con il vantaggio che utilizzandola non si ha l' effetto ventosa, grazie a una micro circolazione dell' aria data dall' effetto della superficie. La sua forma ergonomica e' perfetta per i momenti di relax. La scocca e' volutamente morbida e flessibile, per rendere confortevole il suo utilizzo anche senza l'uso di un telo.

Resistente agli UV – alla salsedine- all'umidità'.

 Chaise Longue in polyethylene with a stone effect surface that gives it additional value. The imperfections are made on purpose to give to this object a more natural stone effect, with the advantage that there is no suction effect, thanks to a micro circulation of the air given by the surface effect. Its shape is ergonomic, and it is perfect for relaxing moments. The body is on purpose soft and flexible, to make it use comfortable even without a towel. Resistant to UV rays- salt- humidity.

 Chaise Longue en polyéthylène avec sa surface en effet pierre qui lui donne une valeur additionnelle. Les imperfections sont voulues pour conférer à cet objet un effet pierre plus naturel, avec l'avantage que en l' utilisant vous n'avez pas l'effet d'aspiration, grâce à une microcirculation de l'air donnée de l'effet de la surface.

Sa forme ergonomique est parfaite pour les moments de relax.

La surface est volontairement souple et flexible , pour rendre son usage très confortable, même sans utiliser une serviette.

Résistante aux rayons UV, à la salinité et à l'humidité.

 Chaise Loque en polietileno de la superficie en efecto piedra que le aporta valor añadido. Las imperfecciones son intencionales para otorgar all' objeto un efecto piedra más natural, con el ventaja que utilizando no se la tiene l' efecto ventosa, gracias a una micro circulación dell'aire fecha dall'efecto de la superficie.

Su forma ergonómica y' perfecta por los momentos de relajamiento.

El bastidor y' intencionalmente blanda y flexible, para hacer confortable su empleo también sin el empleo de un paño.

Resistente a los rayos UV , a la salinidad - a la humedad'.

LA NOSTRA GAMMA DI ARREDO

OUR RANGE OF FURNITURE

 Prodotti realizzati in polietilene, un materiale Atossico, Riciclabile al 100%, Resistente alle basse ed alte temperature (-60°/+80°), agli urti e ai raggi solari (UV). Le sue ottime proprietà isolanti, la sua versatilità e la sua stabilità chimica lo rendono ideale per la realizzazione di prodotti sia da esterno che da interno. Facili da pulire e semplici da movimentare grazie al loro peso ridotto, sono molto funzionali oltre che esteticamente ricercati.

 Products made of polyethylene, a non-toxic 100% recyclable material, resistant to low and high temperatures (-60°/+80°), and the impact and sunlight (UV). Its excellent insulating properties, its versatility and chemical stability make it ideal for both outdoor and indoor use. Easy to clean and simple to handle thanks to their low weight, is highly functional as well as aesthetically pleasing.

 Produits en polyéthylène, un matériel non toxique, 100 % recyclable, résistant aux basses et hautes températures (-60°/+80°), aux chocs et à la lumière du soleil (UV). Ses excellentes propriétés isolantes, sa polyvalence et sa stabilité chimique font un matériau idéal pour la fabrication de produits d'intérieur et d'extérieur. Faciles à nettoyer et à manipuler grâce à leur poids, réduit ils sont très fonctionnels et esthétiques.

 Productos fabricados con polietileno, un material no tóxico y 100% reciclable, resistente a las bajas y altas temperaturas (-60°/+80°), a los impactos y a la luz solar (UV). Sus excelentes propiedades aislantes, su versatilidad y su estabilidad química lo hacen ideal para fabricar productos tanto de exterior como de interior. Fáciles de limpiar y de manipular gracias a su reducido peso, son muy funcionales además de estéticamente agradables.

LA NOSTRA GAMMA DI ARREDO

OUR RANGE OF FURNITURE

 I nostri prodotti possono essere personalizzati con l'inserimento di un LOGO (1) o qualsiasi ALTRA DICITURA (2) e/o realizzati in qualsiasi COLORE (3) a scelta in massa.

La personalizzazione (1 e 2) avviene con delle etichette che vengono applicate al prodotto durante la produzione, in modo da essere inglobate direttamente nel prodotto stesso, personalizzandolo in maniera permanente. Questo tipo di personalizzazione (1 e 2) è resistente a pioggia, neve, agenti chimici, solventi, acqua salata, vapore, lavaggio ad alta pressione o raggi UV. Se invece il prodotto è laccato la personalizzazione (1 e 2) può avvenire anche attraverso la verniciatura. Tutte le personalizzazioni (1, 2 e 3) sono disponibili esclusivamente su richiesta specifica e con ordinativo di quantità minima.

 Our products can be customised with the insertion of a LOGO (1) or any OTHER LABEL (2) and/or produced in any COLOUR (3) of your choice in bulk.

Customisation (1 and 2) is carried out with labels that are applied to the product during production, so that they are incorporated directly into the product itself, customising it permanently. This type of personalisation (1 and 2) is resistant to rain, snow, chemicals, solvents, salt water, steam, high-pressure washing or UV radiation. If, on the other hand, the product is lacquered, customisation (1 and 2) can also be carried out by painting. All customisations (1, 2 and 3) are only available on specific request and with a minimum order quantity.

 Nos produits peuvent être personnalisés par l'insertion d'un LOGO (1) ou de toute AUTRE ÉTIQUETTE (2) et/ou produits en vrac dans la COULEUR (3) de votre choix.

La personnalisation (1 et 2) est réalisée à l'aide d'étiquettes qui sont appliquées sur le produit pendant la production, de sorte qu'elles sont incorporées directement dans le produit lui-même, le personnalisant de façon permanente. Ce type de personnalisation (1 et 2) résiste à la pluie, à la neige, aux produits chimiques, aux solvants, à l'eau salée, à la vapeur, au lavage à haute pression ou aux rayons UV. Si, en revanche, le produit est laqué, la personnalisation (1 et 2) peut également être réalisée par peinture. Toutes les personnalisations (1, 2 et 3) ne sont disponibles que sur demande spécifique et avec une quantité de commande minimale.

 Nuestros productos pueden personalizarse con la inserción de un LOGOTIPO (1) o cualquier OTRA ETIQUETA (2) y/o producirse en cualquier COLOR (3) de su elección a granel.

La personalización (1 y 2) se realiza con etiquetas que se aplican al producto durante la producción, de modo que se incorporan directamente al propio producto, personalizándolo de forma permanente. Este tipo de personalización (1 y 2) es resistente a la lluvia, la nieve, los productos químicos, los disolventes, el agua salada, el vapor, los lavados a alta presión o la radiación UV. Si, por el contrario, el producto está lacado, la personalización (1 y 2) también puede realizarse mediante pintura. Todas las personalizaciones (1, 2 y 3) sólo están disponibles bajo pedido específico y con una cantidad mínima de pedido.

UGO NESPOLO

 Ugo Nespolo negli Anni Sessanta fa parte della Galleria Schwarz di Milano che conta artisti come Duchamp, Picabia, Schwitters, Arman. La sua mostra milanese «Macchine e Oggetti Condizionali» presentata da Pierre Restany anticipa il clima che sarà dell'Arte Povera. A New York vive il clima Pop e l'incontro con Yoko Ono, Jonas Mekas, Andy Warhol, P. Adams Sitney dà il via a una folta produzione di film sperimentali proiettati nei maggiori centri artistici (Centre Pompidou, Tate Modern, Biennale di Venezia). Con Ben Vautier dà vita al primo Concerto Fluxus italiano. Il connubio di arte e vita è alla base dell'espressività di Nespolo e lo porta ad ampliare il suo campo d'azione creativa in ambiti disparati ed eclettici in cui è vivo l'amore per le arti applicate. Nel 2019 l'Università degli Studi di Torino gli conferisce la laurea Honoris Causa in Filosofia. Ha esposto in galleria e Musei in Italia e nel mondo.

 Ugo Nespolo was part of the Schwarz Gallery in Milan in the 1960s, which included artists such as Duchamp, Picabia, Schwitters and Arman. His Milan exhibition "Machines and Objects Conditional Objects" presented by Pierre Restany anticipates the climate that will be Arte Povera. In New York, he experienced the Pop climate and his meeting with Yoko Ono, Jonas Mekas, Andy Warhol and P. Adams Sitney gave rise to a large production of experimental films shown in the major art centres (Centre Pompidou, Tate Modern, Venice Biennale). With Ben Vautier he created the first Italian Fluxus Concert. The combination of art and life is the basis of Nespolo's expressiveness and leads him to broaden his creative scope in disparate and eclectic areas where his love for the applied arts is alive. In 2019, the University of Turin awarded him an Honorary Degree in Philosophy. He has exhibited in galleries and museums in Italy and all around the world.

La grafica sottostante può essere solo una bozza. L'uso dei marchi di certificazione su un prodotto deve essere autorizzato dalle rispettive BCN proprietarie di tali marchi.

Posizione: Incollare sull'involucro.

Osservazione:

L'altezza delle lettere non è inferiore a 2 mm; l'altezza del simbolo del cestino non è inferiore a 7 mm, gli altri simboli non sono inferiori a 5 mm.

Secondo le direttive UE che sono state allineate al nuovo quadro legislativo europeo (NLF), il nome e l'indirizzo del produttore e dell'importatore devono essere apposti sul prodotto o, se ciò non è possibile, sull'imballaggio o in un documento di accompagnamento del prodotto prima che questo sia immesso sul mercato UE.

Copy of marking plate:

The artwork below may be only a draft. The use of certification marks on a product must be authorized by the respective NCBs that own these marks.

Location: Stick on the enclosure.

Remark:

The height of the letters is not less than 2 mm; the height of the recycle bin symbol is not less than 7 mm, other symbols are not less than 5 mm.

According to the EU directives which have been aligned with EU NLF (new legislative framework), both of manufacturer and importer's name and address shall be affixed on the product or, where that is not possible, on its packaging or in a document accompanying the product before the product is placed on the EU market.

CONDIZIONI GENERALI DI VENDITA

GENERAL TERMS OF SALE

Le presenti Condizioni Generali di Vendita si applicano a tutti gli ordini accettati da Officine Metallurgiche Cornaglia SPA. Condizioni difformi da quelle qui contenute saranno valide solo se redatte in forma scritta.

Nessun ordine sarà considerato accettato sino a quando lo stesso non sarà confermato mediante conferma emessa dal fornitore.

I rischi legati alla merce in viaggio sono a totale carico del committente pur nella condizione di vendita "porto franco".

Eventuali reclami sulle quantità dovranno essere contestati allo spedizioniere all'atto del ricevimento della merce, che siano presenti o meno tracce d'effrazione sull'imballo.

Ogni reclamo sulla qualità della merce dovrà esserci comunicato entro e non oltre otto giorni dal ricevimento della merce, mediante e-mail.

Verrà sostituito quel materiale che, reso franco nostro domicilio, venga da noi ritenuto difettoso.

Il reso del materiale deve essere in ogni caso espressamente autorizzato ed il reclamo deve essere inviato entro i termini di legge dalla data della fattura di vendita.

La garanzia è limitata al costo dei particolari difettosi, con esclusione di qualsiasi indennizzo per i danni subito in conseguenza del reclamo. Tutti i prodotti hanno la garanzia di legge - previo corretto uso e manutenzione degli stessi.

Sono esclusi materiali di consumo, quali, cartucce - guarnizioni - accessori - se già utilizzati. I prezzi si intendono per merce resa franco nostro magazzino.

L'azienda si riserva la facoltà di modificare i prezzi qualora sopravvengano variazioni nei costi di produzione. Il pagamento deve avvenire nei termini e forme pattuite e per l'intero importo della fattura; non sono pertanto ammessi sconti o detrazioni a qualsivoglia titolo.

Le immagini e i riferimenti in questo catalogo non sono vincolanti e devono essere considerati a puro titolo indicativo.

Conformità al campione non deve intendersi in senso tassativo, poiché sussistono margini di tolleranza dovuti a variazioni (colori-mate-riali-misure-litri) causate da fattori ambientali (luce-umidità-ecc.).

Alcuni accessori presenti nelle immagini non sono prodotti dalla ditta e possono subire variazioni. È vietata qualsiasi riproduzione, anche parziale, del presente catalogo senza preventiva autorizzazione di Officine Metallurgiche Cornaglia SPA.

Officine Metallurgiche Cornaglia SPA declina ogni responsabilità per eventuali errori od omissioni relativi a dati ed immagini in esso contenute. L'azienda si riserva la facoltà di modificare, in qualunque momento e senza preavviso alcuno, le caratteristiche tecniche, dimensionali e di capienza nel presente manuale, al fine di migliorare il prodotto senza pregiudicare le caratteristiche essenziali. Per qualsiasi controversia il Foro competente sarà quello di Torino.

These general terms of sale apply to all the orders accepted from Officine Metallurgiche Cornaglia SPA. Different conditions are considered valid only if submitted in written form.

The order will be considered as accepted only after the supplier's confirmation.

Delivery risks are totally at customer's charge, even if the sales conditions are "ex works". Any complaint against the good's quantity must be notified to the forwarder at the moment of the good's reception, if the packaging appears to be forced or not.

Every complaint against the good's quality must be notified within eight days from the good's reception, by fax or e-mail.

Only those parts which are considered faulty from us, will be replaced. Those parts must be sent to our warehouse ex works.

The material may be sent back to our warehouse only after written authorization of the supplier and the complaint must be sent within the legal conditions from the date of the sales invoice.

Warranty only covers the cost of the faulty parts, excluding any further indemnity for damages caused by the complaint.

All products are guaranteed by law - after proper use and maintenance.

Consumables such as cartridges - gaskets - accessories - (if already used) are excluded.

Our prices are valid for deliveries ex works. We reserve the right to modify the prices, if the manufacturing costs vary.

Payment must be made under the agreed form and terms for the total amount of the invoice; deductions or discounts for any reason are not allowed.

Our parts are original, the pictures references of the catalogue have to be considered just as an indication and are not binding.

Compliance with the sample should not be understood in the exhaustive meaning, as there are tolerances due to changes (colors - materials - measurements-liters) caused by environmental factors (light - moisture - etc.).

Any reproduction even partial, of this catalogue without authorization of Officine Metallurgiche Cornaglia SPA is forbidden.

Officine Metallurgiche Cornaglia SPA is not responsible for mistakes and omissions relating data and pictures.

Our company reserves the right to modify at anytime, without prior notice, the technical, dimensional and capacity features in this manual; in order to improve the product without affecting the basic features.

For any dispute the court will be in Turin.

CONDITIONS GÉNÉRALES DE VENTE

CONDICIONES GENERALES DE VENTA

Ces conditions générales de vente s'appliquent à toutes les commandes acceptées par Plart Design sri, société soumise à la direction et à la coordination de Comaglia Group S.p.A.

Conditions différentes de celles contenues dans ce document ne sont valables que par écrit.

Aucune commande ne sera considérée comme acceptée jusqu'à la confirmation émise par le fournisseur.

Les risques liés aux marchandises en transit sont à la charge de l'acheteur même dans la condition de vente "franco de port".

Toute plainte concernant le montant doit être immédiatement notée à l'expéditeur lors de la réception des marchandises, qui montrent des traces d'effacement sur l'emballage ou pas

Toute réclamation sur la qualité des produits doit être notifiée au plus tard huit jours à compter de la réception des marchandises, par fax ou par e-mail.

Le matériel livré franco de port, chez notre entrepôt et considéré comme défectueux, sera remplacé. Le retour des produits doit être expressément autorisée dans chaque cas et la plainte doit être envoyée dans les délais à compter de la facture de vente.

La garantie est limitée au coût des pièces défectueuses, avec exclusion de toute indemnisation pour les dommages subis à la suite de la plainte

Tous les produits ont une garantie selon la loi - après une utilisation et un entretien appropriés.

Les consommables tels que les cartouches - joints d'étanchéité - accessoires - sont exclus si déjà utilisés.

Les prix indiqués sont pour les produits livrés franco de port, nous nous réservons le droit de modifier les prix si des changements des coûts de production surviennent.

*Le paiement doit être envoyé en conformité avec les conditions et les formes convenues et pour le montant total de la facture; rabais ou des déductions ne sont donc pas autorisés pour n'importe quelle raison. Nos articles sont originales et les images et les références dans ce catalogue ne sont pas contraignantes et doivent être considérés comme purement indicatifs.

Conformité avec l'échantillon ne doit pas être comprise dans le sens exhaustive, car il y a des tolérances dues aux changements (couleurs - mesures - matériaux - litres), causés par des facteurs environnementaux (lumière - humidité - etc.) Il est interdit de reproduire, même partiellement ce catalogue sans l'autorisation de la société PART DESIGN.

PART DESIGN n'accepte aucune responsabilité pour les erreurs ou omissions liés à données et images contenues dans ce document.

Notre entreprise se réserve le droit de modifier sans obligation de préavis, les caractéristiques techniques, dimensionnelles et de capacité de ce manuel, afin d'améliorer le produit sans en modifier les caractéristiques de base.

Pour tout conflit le tribunal de compétence sera à Turin.

Las presentes condiciones generales de venta se aplican a todos los pedidos aceptados por Plart Design sil, empresa sujeta a la Dirección y Coordinación de Comaglia Group S.p.A.

Condiciones distintas de las contenidas en el presente documento sólo serán válidas si compiladas por escrito.

Ningún pedido se considerará aceptado hasta la confirmación emitida por el proveedor. Los riesgos asociados con las mercancías en tránsito, son responsabilidad exclusiva del comprador, también en la condición de venta "con gastos de expedición a nuestro cargo".

Cualquier queja sobre la cantidad debe ser notificada inmediatamente al transportador a la recepción de la mercancía, tanto en el caso que hay rastros de robo en el embalaje o bien no. Cualquier queja sobre la calidad de los bienes debe ser notificada a más tardar ocho días a partir de la recepción de las mercancías, por fax o correo electrónico. El material enviado a nuestro establecimiento con coste de transporte a cargo del cliente y considerado defectuoso será reemplazado. La devolución del material deberá ser expresamente autorizada en cada caso y la queja debe ser enviada dentro de los términos de entrega a partir de la fecha de la factura de venta.

La garantía se limita al costo de las piezas defectuosas, excluyendo cualquier indemnización por daños y perjuicios sufridos como consecuencia de la denuncia. Todos los productos están garantizados por la ley, después del uso adecuado y el mantenimiento de los mismos los consumibles, como cartuchos, juntas, accesorios, si ya se utilizan, están excluidos.

Los precios indicados son por los bienes entregados con gastos de expedición a cargo del cliente, nos reservamos el derecho de cambiar los precios si cambios en los costos de producción sobrevienen. El pago debe ser efectuado en los términos y formas acordadas y por el importe total de la factura; por tanto, no se permiten deducciones o rebajas por cualquier motivo. Nuestros artículos son originales y las imágenes y referencias de este catálogo no son vinculantes y deben ser considerados puramente indicativas. La congruencia con el dibujo no debe entenderse en el sentido exhaustivo, ya que hay tolerancias debidas a los cambios (materiales colores - medidas litros), causadas por factores ambientales (luz - humedad - etc.). Toda reproducción, incluso parcial, de este catálogo sin previa autorización de PLART DESIGN está prohibida.

PLART DESIGN no se hace responsable de los errores o omisiones relacionadas con los datos y las imágenes contenidas en el presente documento. Nuestra empresa se reserva el derecho de modificar en cualquier momento y sin previo aviso las características técnicas.

dimensionales y de capacidad de este manual, con el fin de mejorar el producto sin afectar a las características básicas.

Para cualquier controversia la jurisdicción competente será en Turin.
