OBJECTS AND LIGHTING

Bead Budvase INSTRUCTIONS

Florists have been using "frogs" in the bottom of vases for years to hold the stems of their floral arrangements in place. These novel budvases update the traditional idea of a floral frog in a colorful and elegant manner. An ideal way to showcase one special flower, Bead Budvases can be used alone or arranged in a group to create a lyrical and lively display on your table.

Assembly Instructions

To insert beads, hold cylinder securely and tip the opening of the empty cylinder downward. Insert your index finger into the opening of the bead and gently place the bead inside the cylinder. Carefully turn right-side up and fill with water to desired level.

Care

The clear cylinder is dishwasher safe but please wash the colored beads by hand. Handwashing the colored beads in a mild solution of bleach and water will clean any remaining floral residue or film.
