

# THE ROLE OF HEALTH & SAFETY IN SUSTAINABILITY

With over 30 years of experience in workplace wellbeing, International SOS understands that a tailored approach is necessary to build a healthier workforce.

This masterclass explores how health and safety practices can help your organisation become more resilient and sustainable. Organisations are increasingly prioritising environmental, social and economic impacts in their strategies, which can lead to increased productivity and higher retention rates.

Our experts will help you with practical guidance on integrating health and safety considerations, sustainable practices and ESG reporting.

Whether you're an environmental, health, and safety (EHS) professional or a sustainability leader, this webinar will provide valuable insights on integrating health and safety considerations into your organisation's sustainability strategy.

Supporting the health and safety of your workforce doesn't have to be a challenge. With the help of International SOS, you will have the tools necessary to support the long-term wellness of your employees, helping you unlock the power of a healthier workforce.

## Long-term benefits

Health & Wellbeing masterclasses are an effective tool to improve health awareness amongst employees, which in turn leads to multiple benefits:

- Increased productivity
- Reduced absenteeism
- Improved morale
- Lower healthcare costs
- Better retention rates
- Enhanced employee engagement

## Our approach

### Workshop - Define goals & objectives

Our consultants will define the goals and objectives to ensure the content is focused and relevant to your organisation's needs.

### Customise - Identify target audience

We identify the target audience to ensure that the content is tailored to the needs and interests of the attendees.

### Assess & Analyse - Develop evidence-based and engaging content

Evidence-based content provides practical tips and strategies to improve the health, safety and well-being of your workforce. The content is engaging and interactive to keep the audience interested and motivated.

### Masterclass - Deliver masterclass

We ensure that the webinar is delivered on time and meets the objectives of improving health and safety in sustainability awareness among the target audience.

## Benefits of 'The Role of Health & Safety in Sustainability'

- 1. Improved sustainability:** The masterclass will help organisations integrate health and safety considerations into their sustainability strategies, leading to improved economic, environmental, and social impact.
- 2. Expert guidance:** The masterclass will be conducted by expert speakers who will provide practical advice on how to integrate health and safety considerations into sustainability strategies.
- 3. Professional development:** The masterclass suits environmental, health, and safety (EHS) professionals and sustainability leaders, providing professional development opportunities and valuable insights.
- 4. Compliance:** Integrating health and safety considerations into sustainability strategies can help organisations comply with legal or regulatory requirements related to health and safety.
- 5. Cost-effective:** The masterclass is cost-effective for organisations to improve sustainability and promote health and safety.
- 6. Reputation:** Integrating health and safety considerations into sustainability strategies can enhance an organisation's reputation and promote a safety and sustainability culture.

---

## Deliverables

**Consulting Hours:** 4 hours per session.

**Audience:** Managers.

**Handouts:** Some masterclass may provide handouts such as worksheets, checklists, or templates. These can be used to apply the information learned in the webinar to a specific situation.

**Includes:**

- Coaching-style delivery
- Interactive sessions.
