

MINIMALOSITY

Installation Guide

Welcome to the world of modern lighting solutions! We are thrilled that you have selected our home lighting store, Minimalosity, to cater to your lighting needs. At Minimalosity, we strive to bring you the best lighting options that are durable, high-quality, and visually appealing.

We understand that the installation process can be challenging for some of our customers. Therefore, we have prepared a comprehensive installation guide that offers step-by-step instructions to help make your installation process as easy as possible. The guide covers everything you need to know, from the tools required to safety measures to take.

In case you encounter any issues during the installation process, our customer support team is always here to assist you. Our team is friendly and knowledgeable, and we are available to answer any questions or concerns you may have. Please feel free to contact us at help@minimalosity.com, and we will be happy to assist you in any way we can.

Before you begin the installation process, please ensure that you take the necessary safety precautions. Turn off the electrical power to the fixture at the electrical panel and utilize an appropriate voltage tester to ensure that there is no power present at the fixture. We strongly advise against relying solely on visual inspection to confirm the power is off. This step is crucial to prevent any accidents and ensure a safe installation process. Keep in mind that hardwire installation does require an experienced electrician.

At Minimalosity, we are confident that our installation guide is easy to follow, and we have included all the information you need to make your installation process a success. However, if you encounter any issues, we are always here to help. Our primary goal is to provide you with an exceptional customer experience, and we are committed to ensuring that you are satisfied with your purchase.

Thank you for choosing Minimalosity. Tag us on Instagram @minimalosity to be featured!

Assembly Materials

PARTS INCLUDED

- I. Wire Connector
- II. Main LED Wall Light
- III. Expansion Screws
- IV. Self-Tapping Screws

TOOLS REQUIRED

- I. Power Drill

- II. Screw Driver

- III. Mallet

WARNING

Follow the instructions exactly

- Turn the power off before inspection, installation, or removal
- Properly ground electrical enclosure
- Follow all NEC and local codes
- Use only approved wire for input/output connections

Precautions

Be sure to cut off the power
IN CASE OF ELECTRIC SHOCK!

WARNING: Alteration of the fixture or accessories will void the warranty. For indoor installations only. Do not use where ambient temperature exceeds 104°F (40°C), suitable for use in environments with 0-80% humidity. Using this product in environments outside of these ranges will impact LED life negatively.

SAFETY:

1. To avoid electrical shock, do not turn on fixture with missing or damaged lens.
2. There are no serviceable parts inside the LED module.
3. Suitable for indoor dry locations only.

The use of chemicals or solvents may degrade the housing finish or its protective coating. Use only a mild soap and/or a slightly damp soft cloth to clean the fixture. Harsh chemicals will damage the lens and/or fixture. Do not wipe the fixture with a rough cloth that may scratch the finish or the lens.

PREPARE ELECTRICAL WIRING:

The LED luminaire must be connected to the mains supply according to its ratings on the product label.

GROUNDING INSTRUCTIONS:

The grounding and bonding of the overall system shall be done in accordance with the local electric code of the country where the luminaire is installed.

WARNING

Risk of injury, risk of damage

Luminaire may fall if the inner bezel is not secured properly to the outer bezel. Ensure that the whole loop is positioned and secured under the washer.

Installation Instructions

- I. DRILL A 6 MM DIAMETER HOLE IN THE CEILING AND INSERT THE EXPANSION SCREW IN THE ACCESSORY BAG INTO THE HOLE.

- II. FIX THE HANGING BOARD TO THE CEILING WITH SELF-TAPPING SCREWS AND CONNECT THE POWER CORD.

Installation Instructions

III. ALIGN THE SIDE HOLE OF THE CEILING PLATE WITH THE HOLE OF THE HANGING BOARD, LOCK THE 4mm SCREW, AND ADJUST TO THE APPROPRIATE HEIGHT

IV. THE EFFECT OF THE INSTALLATION OF THE LAMP

- Please read the installation and precautions carefully before installation and use.
- The installation of lamps is strictly in accordance with the manual.
- The installation and maintenance of lamps should be operated by professional technicians.
- Make sure that the power supply has been cut off Before installing the lamp.
- Wear clean gloves when installing and do not touch the light-transmitting parts with your hands directly to avoid soiling the lamp body.
- Do not install the lamp in a high-temperature or humid environment.
- During regular maintenance, do not wipe with a thinner or corrosive solution.

Cleaning Instructions

- Please clean and inspect the light once every 6 months.
- The power supply must be disconnected before cleaning, and the related operations must be carried out after the lamps are completely cooled!
- Wipe it gently with a soft dry cotton cloth instead of a wet cloth or other volatile liquids when cleaning the lamp body.
- Please use a clean feather duster to gently brush the surface of the light when cleaning, so as not to stain the lampshade or cause deformation.
