

Method 1

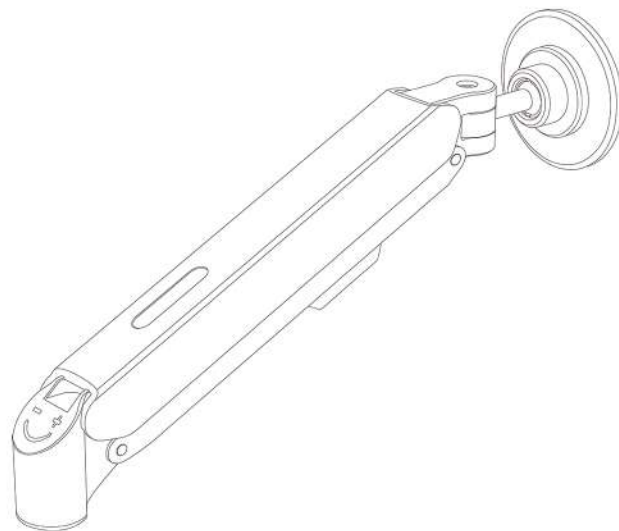

Method 2 (desktop has a hole for item 2 go through)

3a Installation of iPad&Tablet magnetic panel

(Please refer to the installation instructions for the purchased iPad and Tablet magnetic panel)

3b Install monitor

Connect with monitor
Use a spanner (G) to screw the screws (C/D) and washers (E) into the two holes on the upper back of the display, and then screw the VESA plate into the two holes on the lower end. Avoid excessive tightening screws damage the monitor.
