Item	Summary	Further information
The Company		
Who is the issuer of this Prospectus and what is its business?	Wide Open Agriculture (ACN 604 913 822) (Company) is the issuer of this Prospectus. Wide Open Agriculture (WOA) is a supplier of plant protein and fibre ingredients to food and drink manufacturers globally. WOA's business is focused on the commercialisation of plant-based protein and fibre products. The hero product, Buntine Protein® is a low-carbon, plant-based protein derived from lupins grown in West Australia. Manufactured under an exclusive global license to a protected patent, Buntine Protein® is a versatile ingredient proven in applications including plant-based dairy (milk and cheese), meats, baked goods, and protein supplements. Buntine Protein® is steadily gaining traction among Australian and global food companies, with WOA purchasing the assets of Prolupin GmbH to scale up commercial production and increase the lupin protein product range with Prolupin's fresh and dried protein concentrate and isolate. Further capacity expansion has been planned with a non-binding MOU signed with Saputo Dairy Australia Pty Ltd (SDA) for a proposed commercial scale protein facility in Victoria, Australia. WOA is listed on the Australian Securities Exchange (ASX: WOA) and the Frankfurt Stock Exchange (2WO)	N/A
What is the purpose of this Prospectus?	The purpose of this Prospectus is to make the Placement Offers, Priority Offer, and the Shortfall Offer, and to remove any trading restrictions that attach to Offer Shares, Offer Options, and any Shares issued on exercise of the Offer Options, issued by the Company prior to the Closing Date.	Section 2.5
Key risks		
What are the key risks of investment in the Company?	<p>The Offer Shares and Offer Options offered under this Prospectus should be considered speculative because of the nature of the business activities of the Company and no assurances can be made that the Company's particular interests or projects will be successful.</p> <p>Potential investors should consider whether the Shares offered are a suitable investment having regard to their own personal investment objectives and financial circumstances and the key risk factors set out in Section 5, including (but not limited to):</p> <ul style="list-style-type: none"> • Listing Rule 12.1: As a result of the ASX Listing Rule 11.2 shareholder approval requirements WOA will have to satisfy ASX with respect to its continued quotation of its securities in accordance with Listing Rule 12.1 in six months' time. 	Section 5

	<ul style="list-style-type: none"> • Scaling risk: The risk that the Company is unable to economically scale production of its plant protein, Buntine Protein® and that as a result it is unable to become profitable within a reasonable timeframe. • Potential for dilution: Upon completion of the Offers, assuming all the full \$10m are raised, the Company will increase from 179,023,419 to approximately 679,023,419. This equates to approximately 279% of all the issued Shares in the Company immediately following completion of the Offers. This means that each Share will represent a lower proportion of the ownership of the Company. • Funding risk: Existing funds may not be sufficient for expenditure required for certain aspects of the Company's business plan, and the corporate costs associated with being a listed entity. • Offers not approved by Shareholders: As the Company will utilise its full new issue capacity for the issue of Tranche 1 Placement Shares, if Shareholder approval is not obtained for the issue of Shares and Options under the Offers, the Company will be unable to accept any applications received under this Prospectus in whole or in part, and thus will be unable to raise the amounts required. • Competitor actions: The risk of competitor actions impacting the growth and profitability of Buntine Protein®, including a competitor developing technology that allows another lupin competitor to come to market with a superior product. • Management of growth: The Company has multiple business objectives across different continents. The ability to manage these projects simultaneously is a key driver of success. • Personnel risk: The Company employs staff who have a deep technical knowledge of the Buntine Protein® production process and the manufacture of lupin based products. These staff would not be easily replaced should they leave. • Exchange rate risk: The Company intends to expand to sell its produce across overseas markets and is therefore subject to fluctuations in the Australian dollar which may materially affect the earnings of the Company. • Environmental risk: The Company is subject to Australian and German and European laws and regulations concerning the environment. • Liquidity risk: The risk that in the event the market for Shares becomes illiquid, Shareholders will be unable to realise their investment in the Company. 	
--	---	--

	<ul style="list-style-type: none"> • Insurance: The risk that if liabilities arise on uninsured risks, the Company's business, financial condition, results of operation and the market price of the Shares may be materially adversely affected. • Competitor risk: There are multiple competitors in the plant based protein category, with soy and pea protein having a market dominant position and a price advantage due to the ability to produce at scale. • Patent risk: The Company's unique proposition in plant-based proteins with Buntine Protein® and Prolupin's protein products, is based on unique intellectual property that, if lost or stolen, could result in WOA losing its unique position in the market. • Project risk: The Company has ambitious projects planned with Buntine Protein® and may lack the resources to implement these projects effectively. • Sourcing risk: The Company relies on local suppliers for its key inputs, including lupins. Should these supplies not be available for some reason (drought, competitive pricing pressure) this may threaten the Company's business model. • Regulatory risk: The Company operates in the food industry in Australia and Germany, which are subject to significant regulatory oversight. There is a risk that WOA breaches these rules and is subject to fines or other penalties. • Safety risk: There is a risk to staff and contractors from the company's operations, which include various manufacturing operations. This risk could result in financial or other penalties. • Cyber risk: The risk that the company's operations are impacted by a cyber incident which materially impacts its ability to deliver services to customers. <p>The key risk factors in Section 5 are not an exhaustive list of risk factors to which the Company is exposed. Potential investors should read this Prospectus in its entirety and consult their professional adviser before deciding whether to participate in the Offers.</p>

Placement Shares issued under the Placement Offers will rank equally in all respects with the Company's existing Shares. Refer to Section 6.1 for a description of the rights and liabilities attaching to the Placement Shares. Sophisticated and professional investors and Participating Directors will receive a personalised Application Form setting out their details. Applicants in the Placement Offers must also complete an investor certificate confirming, amongst other things, that they are an institutional or professional investor who can participate in the Placement Offers without any locally compliant prospectus or other lodgement.

The Tranche 1 Placement Shares will be issued on around 13 May 2024. Refer to the ASX announcement dated 9 May 2024 for further information.

Eligible Shareholders may apply for Priority Offer Shares under the Priority Offer, but are not required to do so. Priority Offer Shares issued under the Priority Offer will rank equally in all respects with the Company's existing Shares. Refer to Section 6.1 for a description of the rights and liabilities attaching to the Priority Offer Shares. Eligible Shareholders will receive a personalised Application Form setting out their details.

The Company will not allocate Shares to the extent that the recipient's voting power in the Company would breach the takeover thresholds in the Corporations Act (i.e. in circumstances where the recipient would acquire a controlling interest in 20% or more of the issued Shares or increase an existing controlling interest of more than 20%, subject to certain exceptions), or result in a breach of the Listing Rules or any other applicable law. Investors, including existing Shareholders, who wish to apply for Shortfall pursuant to the Shortfall Offer under this Prospectus should contact the Company.

Interest will not be paid on Application Monies refunded.

An Application for Shortfall Offer Shares under the Shortfall Offer accompanied by payment of Application Monies does not guarantee the allotment of Shortfall Offer Shares under the Shortfall Offer.

Shortfall Offer Shares under the Shortfall Offer will not be offered or issued to any Applicant if, in the view of the Directors, to do so would increase the Applicant's voting power in the Company above 19.9% or otherwise result in a breach of the Listing Rules, the Corporations Act or other applicable law.

4.2 Effect on the Capital Structure

The effect of the Offers on the capital structure of the Company is as follows:

	Shares	Options	Performance Rights
Securities on issue prior to the Offers	179,023,419	55,435,968	324,296 ¹
Securities issued under the Placement Offers	350,000,000	175,000,000	-
Securities to be issued under the Priority Offer	150,000,000	75,000,000	-
Total	679,023,419	305,435,968	324,296

Note:

1. Comprises 169,196 Performance Rights issued to Jay Albany, and 155,100 Performance Rights issued to Miranda Stamps on 19 December 2022 pursuant to the Employee Incentive Plan.

4.3 Effect of Offers on control of the Company

The Offers will have no impact on the control of the Company. No new investor or existing Shareholder will have a voting power greater than 20% as a result of the completion of the Offers (refer to Section 6.11).

5. Risk Factors

The Offer Shares and Offer Options offered under this Prospectus should be considered speculative because of the nature of the business activities of the Company and no assurances can be made that the Company's particular interests or projects will be successful. Potential investors should consider whether the Offer Shares and Offer Options are a suitable investment having regard to their own personal investment objectives and financial circumstances and the risk factors detailed below.

This list is not exhaustive and potential investors should read this Prospectus in its entirety and if in any doubt consult their professional adviser before deciding whether to participate in the Offers.

5.1 Specific Risks Associated with the Company

Applicants should be aware of the risks specific to an investment in the Company, which may include, but are not limited to those risks detailed below:

(a) **Listing Rule 12.1**

As a result of the ASX Listing Rule 11.2 shareholder approval requirements WOA will have to satisfy ASX with respect to its continued quotation of its securities in accordance with Listing Rule 12.1 in six months' time.

(b) **Scaling risk**

To find the growth of the Company, the manufacturing facility in Germany needs to be able to produce the plant protein and plant fibre products, including Buntine Protein® at scale, and at a cost that allows the product to be sold profitably. The product is currently more expensive than pea and soy products in the market, and there is no guarantee that the production cost will come down to a level that allows for profitable operation.

(c) **Potential for dilution**

Upon completion of the Offers, assuming all the full \$10m are raised, and no Options are exercised prior to the Record Date, the number of Shares in the Company will increase from 179,023,419 to approximately 679,023,419. This equates to approximately 279% of all the issued Shares in the Company immediately following completion of the Offers (assuming that no existing or new Options are exercised prior to that date). This means that each Share will represent a lower proportion of the ownership of the Company. It is not possible to predict what the value of the Company or a Share will be following the completion of the Offers and the Directors do not make any representation to such matters. The last trading price of Shares on ASX prior to the Prospectus being lodged is not a reliable indicator as to the potential trading price of Shares following completion of the Offers.

(d) **Funding risk**

Existing funds (including the funds raised under the Offers) may not be sufficient for expenditure required for certain aspects of the Company's business plan, including the operation of the protein extraction facility in Germany and the R&D team in Australia, the sales and business development activities being undertaken globally, and the corporate costs associated with being a listed entity.

(e) **The Offers are not approved by Shareholders in whole or in part**

As the Company will utilise its full new issue capacity under Listing Rules 7.1 and 7.1A for the issue of Tranche 1 Placement Shares, if Shareholder approval is not obtained for the issue of Shares and Options under the Offers (except for the issue

of Tranche 1 Placement Shares), the Company will be unable to accept any applications received under this Prospectus in whole or in part, and thus will be unable to raise the amounts required. The Company requires funding to deliver on its strategic objectives relating to Buntine Protein® commercialisation. The inability to secure that funding would mean WOA is unable to pursue its objectives.

(f) **Competitor actions**

The Company operates in a competitive space, with lots of alternative plant proteins and food brands for consumers to purchase from, and alternative retail outlets from which to buy these products. The Company is therefore subject to competitive pressure, both from the alternative suppliers of similar products, and from the different retailers and providers of these products. The Company has no influence or control over the activities or actions of its competitors, whose activities or actions may, positively or negatively, affect the operating and financial performance of the Company's business.

(g) **Management of growth**

The Company is seeking to expand its business operations both domestically in Australia, and in overseas markets including Asia, Europe and the Americas. The Company has also yet to record profits. There is a risk that management of the Company will not be able to successfully implement the Company's growth strategy across these different geographic regions, which will adversely affect the Company's financial performance.

(h) **Personnel risk**

The Company's success depends in part on the core competencies of the Directors, management and the ability of the Company to retain key executives and staff associated with the production of Buntine Protein®. In particular, the Company employs the scientist whose PhD led to the development of the patent that created Buntine Protein® and a food scientist whose PhD was on lupin-based cheese. Both have been instrumental in developing the process to make Buntine Protein® and the applications that have been sampled by customers globally. In addition, staff operating the pilot plant in Kewdale have deep operational knowledge about how to make Buntine Protein® which would take significant time to replicate. Loss of these key personnel may have an adverse impact on the Company's performance.

(i) **Exchange rate risk**

The Company ultimately intends to expand to sell its produce in markets including Europe, the USA, and Asia. Fluctuations in the Australian dollar versus currencies in which revenues are received may materially affect the earnings of the Company. The exchange rates between various currencies are affected by numerous factors beyond the control of the Company. These factors include economic conditions in the relevant country and elsewhere and the outlook for interest rates, inflation and other economic factors.

(j) **Environmental risk**

The operations and proposed activities of the Company are subject to laws and regulations concerning the environment in Australia at both State and Federal level, as well as in Germany and Europe. It is the Company's intention to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.

(k) **Liquidity risk**

There is no guarantee that the Shares will trade at a particular price or a particular volume after the Company's listing on the ASX. There is no guarantee that there

will be an ongoing liquid market for Shares. Accordingly, there is a risk that, should the market for Shares become illiquid, Shareholders will be unable to realise their investment in the Company.

(l) **Insurance**

The Company may maintain insurance within ranges of coverage that it believes to be consistent with industry practice and having regard to the nature of activities being conducted. However, it is not always possible to cost-effectively insure against all risks associated with the Company's activities. The Company may decide not to take out insurance against certain risks as a result of high premiums or for other reasons. Should liabilities arise on uninsured risks, the Company's business, financial condition and results of operations and the market price of the Shares may be materially adversely affected.

(m) **Competitor risk**

There are multiple competitors in the plant-based protein category, with soy and pea protein having a market dominant position and a price advantage due to the ability to produce at scale, and with potentially underutilised assets. The companies that produce these ingredients also have large technical resources to support their customers with product development and recipe formulations. The Company is aiming to break into this market with a novel protein product, Buntine Protein® however the Company's resources to compete in this market are more limited than its competitors.

(n) **Patent risk**

The Company's unique proposition in plant based proteins with Buntine Protein® is based on unique intellectual property created to impact the structure of the lupin protein, that improves its functionality for use in multiple food categories. This intellectual property is unique in the plant based protein industry in that it is a post extraction manufacturing process. If lost or stolen, this could result in the Company losing its unique position in the market, with other parties able to copy the process to produce an equivalent product.

(o) **Project risk**

The Company has ambitious projects planned with Buntine Protein®, which include complex engineering projects for a new product (Buntine Protein®) that has not been manufactured at scale before. These projects will take place in locations outside of the Company's Kewdale head office, including overseas. This increases the risk surrounding the project, since the complexity of dealing with engineers in different states, different countries, and in different languages increases the challenges of implementing the projects successfully. The inability to overcome these challenges could result in the project not delivering the expected outcome, resulting in the Company not being able to deliver on its strategic objectives.

(p) **Sourcing risk**

The Company relies on local suppliers for its key inputs, including lupins. These supplies come from a relatively small numbers of farmers, which increases the risk that one or more of these farms could find themselves unable to supply products to the Company (for example, for reasons of drought or fire). Should these supplies not be available this may threaten the Company's business model and its ability to bring products to market. In addition, should the Company not be able to source these products close to where processing facilities are located, the additional cost of transport and logistics could jeopardise the financial viability of the projects.

(q) **Regulatory risk**

The Company is subject to significant regulatory oversight in its operations, particularly in relation to its food related operations. The Company is subject to regulations relating to the receipt, processing and storage of meat and related food products, and has regular Council and Department of Health inspections related to its policies and procedures. In addition, the Company is a publicly traded company on the ASX, and is subject to the Listing Rules and the Corporations Act. There are also numerous regulations related to the pay awards under which Company staff are employed. The consequences of breaching any of these regulations could impact the Company's ability to operate.

(r) **Safety risk**

The Company's operations are diversifying away from warehousing and distribution, and are increasingly focused on manufacturing operations related to plant based proteins. These operations bring about different hazards and risks than the traditional activities of the Company, which increases the risk of safety incidents for staff and contractors. Should an incident occur, this could have an impact on the health and wellbeing of staff.

(s) **Cyber risk**

The Company has implemented increasingly complex IT operating systems as it seeks to automate and standardise its production process for Dirty Clean Food and its plant based protein manufacture. These systems control the flow of materials and products through the production process, and also control how certain equipment operates and records data related to the process. A cyber attack could severely impact the Company's ability to operate its business and have a significant financial impact.

5.2 General Risks

A summary of the major general risks is detailed below.

(a) **Securities investments**

Applicants should be aware that there are risks associated with any securities investment.

There is no guarantee that an active trading market in the Shares will develop or that the price of the Shares will increase. The prices at which the Shares trade may be above or below the price of the relevant Offer and may fluctuate in response to a number of factors.

Further, the stock market is prone to price and volume fluctuations. There can be no guarantee that trading prices will be sustained. These factors may materially affect the market price of the Shares, regardless of Company's operational performance.

(b) **Economic risk**

Changes in the general economic climate in which Company operates may adversely affect the financial performance of Company. Factors that may contribute to that general economic climate include the level of direct and indirect competition against the Company, include, but not are but not limited to:

- (i) general economic conditions;
- (ii) changes in Government policies, taxation and other laws;

- (iii) the strength of the equity and share markets in Australia and throughout the world;
- (iv) industrial disputes in Australia and overseas;
- (v) changes in investor sentiment toward particular market sectors;
- (vi) financial failure or default by an entity with which the Company may become involved in a contractual relationship; and
- (vii) natural disasters, social upheaval or war.

(c) **Dilution**

In certain circumstances, the Directors may issue equity securities without any vote or action by Shareholders. If the Company were to issue any equity securities, the percentage ownership of Shareholders may be reduced and diluted.

(d) **Share market**

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. The market price of the Securities may be subject to fluctuation and may be affected by many factors including, but not limited to, the following:

- (i) general economic outlook;
- (ii) interest rates and inflation rates;
- (iii) currency fluctuations;
- (iv) commodity price fluctuations;
- (v) changes in investor sentiment toward particular market sectors;
- (vi) the demand for, and supply of, capital; and
- (vii) terrorism or other hostilities.

There is also no guarantee that an active market in the Shares will develop or that the price of the Shares will increase. There may be relatively few buyers or sellers of Shares on the ASX at any particular time.

(e) **Legal proceedings**

Legal proceedings may arise from time to time in the course of the business of the Company. Legal proceedings brought by third parties including but not limited to customers, business partners or employees could negatively affect the business in the case where the impact of such litigation is greater than or outside the scope of the Company's insurance. As at the date of this Prospectus, there are no material legal proceedings affecting the Company and the Directors are not aware of any legal proceedings pending or threatened against or affecting the Company.

(f) **Unforeseen expenses**

While the Company is not aware of any expenses that may need to be incurred that have not been taken into account, if such expenses were subsequently incurred, the expenditure proposals of the Company may be adversely affected.

(g) **Macro-economic risks**

Changes in the general economic outlook in Australia and globally may affect the performance of the Company and its projects. Such changes may include:

- (i) uncertainty in the Australian economy or increases in the rate of inflation resulting from domestic or international conditions (including movements in domestic interest rates and reduced economic activity);
- (ii) increases in expenses (including the cost of goods and services used by the Company);
- (iii) new or increased government taxes, duties or changes in taxation laws; and fluctuations in equity markets in Australia and internationally.

A prolonged and significant downturn in general economic conditions may have a material adverse impact on the Company's trading and financial performance.

(h) **Broader general risks**

There are also a number of broader general risks that may affect the Company's performance. These include:

- (i) abnormal stoppages in normal business operations due to factors such as war, political or civil unrest, infrastructure failure or industrial disruption; and
- (ii) higher than budgeted costs associated with the provision of service offerings.

(i) **Currency risk**

In the future, the Company may operate in multiple international jurisdictions, which exposes the Company to multiple currencies and their future currency fluctuations. This may affect future profitability of the Company.

(j) **Taxation risk**

The acquisition and disposal of Shares will have tax consequences that will differ for each investor depending on their individual financial circumstances. All potential investors in the Company are urged to obtain independent financial advice regarding the tax and other consequences of acquiring Shares. To the maximum extent permitted by law, the Company, its officers and each of their respective advisers accept no liability or responsibility with respect to any tax consequences of applying for Shares under this Prospectus.

(k) **Accounting standards**

Changes to any applicable accounting standards or to any assumptions, estimates or judgments applied by management in connection with complex accounting matters may adversely impact the Company's financial statements, results or condition.

5.3 Investment Speculative

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors and others not specifically referred to above, may, in the future, materially affect the financial performance of the Company and the value of the Offer Shares and Offer Options offered under this Prospectus.

Therefore, the Offer Shares and Offer Options carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Offer Shares and Offer Options.

Potential investors should consider that the investment in the Company is highly speculative and should consult their professional advisers before deciding whether to apply for Offer Shares and Offer Options.

6. Additional Information

6.1 Rights and Liabilities Attaching to the Offer Shares

A summary of the rights attaching to Offer Shares is detailed below. This summary is qualified by the full terms of the Constitution (a full copy of the Constitution is available from the Company on request free of charge) and does not purport to be exhaustive or to constitute a definitive statement of the rights and liabilities of Shareholders. These rights and liabilities can involve complex questions of law arising from an interaction of the Constitution with statutory and common law requirements. For a Shareholder to obtain a definitive assessment of the rights and liabilities that attach to Shares in any specific circumstances, the Shareholder should seek legal advice.

(a) General Meetings

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution.

(b) Voting Rights

Subject to any rights or restrictions for the time being attached to any class or classes of Shares, at general meetings of Shareholders or classes of Shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for the Share, but in respect of partly paid Shares shall have a fraction of one vote equal to the proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

(c) Dividend Rights

The Company may pay dividends as the Directors resolve, subject to the Corporations Act, the Listing Rules and any rights or restrictions attached to a class of shares. The Directors may also determine that a dividend is payable without a meeting of Shareholders and may fix the amount of the dividend, the time for determining entitlements to the dividend, any franking percentage and franking class (if the dividend is franked) and the time and method of payment for the dividend. The Company is not required to pay any interest on a dividend.

(d) Winding-up

On a winding up of the Company, any surplus must be divided among the Shareholders in the proportion which the amount paid on the Shares of a Shareholder bears to the total amount paid and payable on the Shares of all Shareholders.

If the Company is wound up, the liquidator may, with the sanction of a special resolution of the Company, distribute among the Shareholders the whole or any

part of the property of the Company, and may decide how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution of the Company, settle any dispute concerning a distribution in the event of a winding up of the Company, including (but not limited to), valuing assets for distribution, paying cash to any Shareholder on the basis of that valuation and vesting assets in a trustee on trust for the Shareholders entitled, provided that a Shareholder is not obliged to accept any property (including securities carrying a liability).

(e) **Shareholder Liability**

As the Shares issued under the Offers detailed in this Prospectus are fully paid shares, they are not subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) **Transfer of Shares**

Shareholders may transfer any Shares held by them, subject to the Constitution, by any method of transferring or dealing in Shares introduced by ASX or operated in accordance with the ASX Settlement Operating Rules or the Listing Rules, or an instrument in writing as the Directors may approve from time to time.

The Directors may refuse to register any transfer of Shares where the Corporations Act, Listing Rules and ASX Settlement Operating Rules permits the Company to do so (including relating to stamp duty), or the transfer is in breach of the Listing Rules or any escrow agreement entered into by the Company in respect of restricted securities.

(g) **Variation of Rights**

Subject to the Corporations Act, Listing Rules and ASX Settlement Operating Rules and the terms of issue of Shares in a particular class, the Company may:

- (i) vary or cancel rights attached to Shares in that class; or
- (ii) convert Shares from one class to another, by special resolution of the Company and special resolution passed at a meeting of Shareholders holding Shares in that class, or, with the written consent of Shareholders with at least 75% of the votes in that class.

6.2 **Terms and Conditions of the Options**

Please see Schedule 1 of this Prospectus for a summary of the more significant rights and liabilities attaching to the Offer Options.

6.3 **Company is a Disclosing Entity**

The Company is a 'disclosing entity' (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act, and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company's securities. The Shares are in the same class as Shares that have been quoted on the official list of the ASX during the three months prior to the issue of this Prospectus.

This Prospectus is a "*transaction specific prospectus*" to which the special content rules under section 713 of the Corporations Act apply. That provision allows the issue of a more concise prospectus in relation to an offer of securities, or options to acquire securities, in a class which has been continuously quoted by ASX in the three months prior to the date of the prospectus.

In general terms, "*transaction specific prospectuses*" are only required to contain information in relation to the effect of the Offers on the Company and the rights attaching to the Offer Shares and Offer Options (and the rights attaching to underlying shares on exercise of the Options). It is not necessary to include general information in relation to all of the assets and liabilities, the financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act, states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and
- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the Closing Date:
 - (i) the Annual Report being the most recent annual financial report of the Company lodged with the ASIC before the issue of this Prospectus; and
 - (ii) any documents used to notify ASX of information relating to the Company in the period from lodgement of the annual financial report referred to in paragraph (i) above until the issue of this Prospectus in accordance with the Listing Rules as referred to in section 674(1) of the Corporations Act.

Copies of documents lodged with the ASIC in relation to the Company may be obtained from, or inspected at, an ASIC office (refer to Section 6.4 below).

6.4 ASX quotation and trading

Application for Official Quotation on ASX of the Offer Shares and Offer Options offered pursuant to this Prospectus will be made within 7 days after the date of this Prospectus. If permission for quotation of Shares is not granted by ASX within 3 months after the date of this Prospectus, the Offer Shares and Offer Options will not be allotted, and the Company will repay all Application Monies for the Offer Shares (without interest) as soon as practicable (where applicable). The fact that ASX may agree to grant Official Quotation of the Offer Shares is not to be taken in any way as an indication of the merits of the Company or its securities. Subject to Shareholder approval being obtained at the General Meeting (other than the Tranche 1 Placement Shares) and approval being granted for the quotation of the Shares and Offer Options, it is expected that normal trading of Offer Shares and Offer Options issued

under the Offers (other than the Tranche 1 Placement Shares) will commence on 26 June 2024.

The quotation and commencement of trading of Offer Shares and Offer Options issued under this Prospectus are subject to the discretion of ASX.

6.5 Copies of Documents

Copies of documents lodged by the Company in connection with its reporting and disclosure obligations may be obtained from, or inspected at, an office of ASIC. The Company will provide free of charge to any person who requests it during the period of the Offer, a copy of:

- (a) the Annual Report for the year ended 30 June 2023 as lodged with ASX on 29 September 2023; and
- (b) the continuous disclosure notices given by the Company to notify ASX of information relating to the Company since the Company lodged its Annual Report and before the date of issue of this Prospectus which are as follows:

Schedule 1 - Terms Priority Offer Options and Placement Options (ASX Code WAO)

The terms of the Options are:

1. Each Option entitles the holder to one Share (fully paid ordinary share) upon exercise of the Option.
2. The exercise price of the Options is 3 cents.
3. The Options are exercisable at any time prior to 5.00 pm WST on the date that is 24 months from the date of the issue of the Options (**Expiry Date**). An Option not exercised on or before the Expiry Date will automatically lapse on the Expiry Date.
4. The Options are transferrable at any time before the Expiry Date, subject to any restriction or escrow arrangements imposed by the ASX or under applicable Australian securities law.
5. The Options are quoted on the ASX as WAO.
6. The Company will apply to the ASX for quotation of the Shares issued on exercise of Options.
7. The Company will provide to each Option holder a notice that is to be completed when exercising the Options (**Notice of Exercise**). The Options may be exercised wholly or in part by completing the Notice of Exercise and delivering it together with payment to the secretary of the Company to be received any time prior to the Expiry Date. The Company will process all relevant documents received at the end of every calendar month.
8. Upon the exercise of an Option and receipt of all relevant documents and payment, the holder will be issued a Share ranking equally with the then issued Shares.
9. There will be no participating rights or entitlements inherent in the Options and the holders will not be entitled to participate in new issues of capital which may be offered to Shareholders during the currency of the Options. However, the Company will ensure that the Optionholder will be notified of a proposed issue after the issue is announced. This will give an Optionholder the opportunity to exercise their Options prior to the date for determining entitlements to participate in any such issue.
10. If there is a bonus issue (**Bonus Issue**) to Shareholders, the number of Shares over which an Option is exercisable will be increased by the number of Shares which the holder would have received if the Option had been exercised before the record date for the Bonus Issue (**Bonus Shares**). The Bonus Shares must be paid up by the Company out of profits or reserves (as the case may be) in the same manner as was applied in the Bonus Issue, and upon issue will rank equally in all respects with the other Shares on issue as at the date of issue of the Bonus Shares.
11. In the event of any reconstruction (including consolidation, sub-division, reduction or return) of the issued capital of the Company prior to the Expiry Date, all rights of an Optionholder are to be changed in a manner consistent with the Listing Rules. Any calculations or adjustments which are required to be made will be made by the Company Board and will, in the absence of manifest error, be final and conclusive and binding on the Company and the Optionholder.
