

DA-TUB-TANK

CLEAN-WATER STORAGE SYSTEM

DRINKING WATER IS A TOP PRIORITY IN DISASTERS

BE READY WITH DA-TUB-TANK

Disasters are becoming all-too-familiar occurrences – hurricanes, tornadoes, blizzards, even derechos. Disasters of all kinds strike quickly. A water main break or power outage can disrupt your family and leave you standing in long lines for clean, drinkable water. Sometimes the water is not available for days.

A Simple Solution Protects You and Your Family

You can ensure you'll have safe drinking water at a moment's notice. Convert your bathtub into an emergency clean-water storage system.

- Keeps water free of tub residue contamination
- Connects easily to any standard shower
- NSF 61-approved material for drinking water
- Deployed in 2 minutes
- A 15-gallon tank will supply a family of 4 for 1 week
- Empty dimensions 40"x23"
- Full dimensions 40"x20"x8"
- Shipping by USPS or UPS: 12"x12"x12" and 4 lbs.
- Lifetime warranty on workmanship

Water will be a priority in an emergency. Be ready with DA-TUB-TANK.
