Our skincare philosophy

Professionally formulated and clinically clean skincare. Each and every product holds Olga's potent hand-picked ingredients and ultra-rich textures that deliver accelerated, long-lasting results. After 25 years of working on hollywoods biggest faces, Olga Lorencin invites you to experience the finer skins in life.

Great skincare requires in-depth knowledge of skin physiology and equal knowledge of ingredients and how they work in synergy. This is why Olga chose to combine her over 25 years of experience as an aesthetician with the minds of world renowned formulators, John Garruto and Bethany McCarver. This two decade long collaboration has produced products that you can confidently use knowing that they are of the highest quality and have an impeccable safety record.
