LEATHER SOFAS AND LOVE SEATS ARE
TOP-GRAIN COWHIDE LEATHER

INSTALLATION

The recliners, sofas and loveseats are easy to assemble. Sofas and loveseats ship in shrink wrap and are delivered by a furniture delivery company. They are packed in pieces, the seat and the backs on top. The backs simply slide into the two metal channel pieces on the back of the seat and backs and automatically lock into place. This installation process takes about 10 minutes from unpacking the sofas and loveseats to sliding the back pieces into place. The recliners ship in a box and install the same way. Since they are big, they are easier to move in several pieces. Once you have them at the desired location, slide the backs into the seat channels, stretch the fabric on the Velcro tabs and the installation is complete.

LOVE SEAT FEATURE BENEFITS
