AWAKENING A/W 2011

We all live on this one planet.....

mankind, the animal and plant kingdoms.....

*Are we co-existing in peace, mind, spirit & body harmony,
or is there war, suffering, disease, destruction of our habitat, & mental confusion?*

This is not our natural state, and it is not sustainable.

Vegan:

A person who does not consume or wear anything from an animal.

The reasons are many either for health, the animals, environmental, or religious.

*When combined with elimination of the ego and mental balance
one can achieve awareness, remember the true self, higher states of consciousness,
and work towards a world of peace and health for all beings, raising
the level of the collective consciousness.*

*Think occasionally of the suffering
of which you spare yourself the sight.
- Dr. Albert Schweitzer*

WONDER-croco

The animals of the world exist for their own reasons.

They were not made for humans any more than

blacks were made for whites,

or women for men- Alice Walker

PRINCESS LEIA

EVOLUTION

WONDER

Some facts:

10 Billion - Number of animals slaughtered

1.3 Billion - Number of humans that could be fed by grain being fed to livestock

2 Billion- Number of dollars spent on marketing to advertise meat,dairy & pharmaceuticals

260 Million - Number of acres of US forest cleared for livestock

225 - Number of chemicals used to produce leather- linked to disorders, asthma & cancer

2.5 - Number of hours in nutritional training physicians receive in 4 years

1 - Number of food pyramids from the USDA supported by the meat and dairy industry

Infinite - Suffering, Disease, Decline in Human Health, Lowering of Consciousness

Massive- Profits, Destruction, Pollution to Land, Air & Water

Every Year

DUNE

*It has become appallingly obvious that our technology
has exceeded our humanity- Albert Einstein*

ISIS

ANGEL

From start to finish, the amount of energy required to create a leather hide is 20 times greater than the production of a synthetic material. To prevent biodegrading, animal hides are treated with over 225 toxic chemicals some of which are lead, cyanide, formaldehyde, benzene and carcinogenic tannins. These chemical create massive pollution to land, water, air supply and are occupational hazards to workers and those in surrounding areas. Exposure to these chemicals are linked to asthma, lung, stomach, bladder, kidney, nasal, and pancreatic cancers, musculoskeletal disorders and leukemia, to name a few.
